

After School Programs

Winter 2010

After-School Programs at Stone Barns Center are designed to bring students between kindergarten and 6th grade to the farm on a weekly basis. Each session includes hands-on chores, animal and plant crafts, and in-depth examinations of life on the farm. This winter, students will also harvest and prepare a seasonal meal in the kitchen. After-School Programs at Stone Barns Center foster a love for the natural world, teach children where their food comes from, and encourage appreciation of local farms.
