

SHOW US YOURS...

Every issue we bring you the freshest gear and latest releases from planet drum, so we thought it was about time we asked you to share some pics of your prized tubs and shiny discs

> KASEY PETERS

My kit mixes the new and old. A Yamaha Maple Custom Absolute (fusion) in white marine pearl with a District Drum Company snare (who endorse me), and an old Avedis Zildjian crash and ride. The cymbals, cowbell and Premier hi-hat stand were left to me by a friend who recently passed – they have been around since the 1950s

> TONY CHAPMAN

My kit is a birch-shelled Tama Starclassic Performer with a natural lacquer finish – 10"x8", 12"x9", 14"x11", 22"x18" (tom mount removed) with a Tama 14"x6.5" SLP Power Maple snare drum and a Mapex 13"x5.5" Black Panther Cherry Bomb snare drum with a mixture of Zildjian/Sabian cymbals.

> ANDREAS KJØLBERG

This is my seven-piece Ruff kit (www.ruffdrums.com), a small company from Norway who make top quality acrylic drums. The drums have a very unique and punchy sound, which is perfect for the prog I play.
