RE: Bruce J. Kelman v. Sharon Noonan Kramer - San Diego Court Demands False Confession Of Libel To Be Posted On Internet For Sentence Not Even Written Under Threat Of Incarceration To Conceal Courts' Hate Crimes Against U.S. Environmentally Disabled

You are hereby served NOTICE of the "SUPPLEMENTAL DECLARATION UNDER DURESS OF SHARON KRAMER¹ IN SUPPORT OF 'MOTION TO VACATE VOID CORAM NON JUDICE 'JUDGEMENT AND ORDER FOR CIVIL CONTEMPT AND PERMANENT INJUNCTION' in Criminal Violation of C.C.P.1209(b)' and Penal Code 422.6"² in the matter of Bruce J. Kelman³ v. Sharon Kramer, Case No. 37-2010-00061530-CU-DF-NC, North San Diego Superior Court, Department 30, Thomas P. Nugent presiding. In lawful accordance with Code of Civil Procedure 1209(b), this NOTICE to you and SUPPLEMENTAL DECLARATION may be read online at the short link of the website, ContemptOfCourtFor.Me, <http://wp.me/p20mAH-iB> Hearing date to vacate the criminal decree August 31, 2012 1:30 PM Dept. 30, North San Diego Superior Court, Thomas Nugent presiding.

In March of 2005, I was the first to publicly write of how a false concept was mass marketed in U.S. public health policy that it was scientifically proven mold toxins in water damaged buildings do not harm. The clever twist of science in policy was for the purpose of misleading U.S. courts to deny liability for causation of injury, disability and death from the biocontaminants; while leaving the disabled and dying nowhere to turn for medical help or restitution; and while shifting the cost from those responsible for the injuries to the U.S. taxpayer. In my March 2005 writing, I named names of nationally influential organizations and a U.S. congressman involved in the mass marketing of the scientific fraud.

NOTICE of SUPPLEMENTAL DECLARATION UNDER DURESS OF SHARON KRAMER to Edmund G. Brown; Elaine Howle; Tani Cantil-Sayauke; Lawrence Simi; Stephen Jahr; John Miller; Jon Streeter; Kamala Harris; Sherry Lancing; Mark Yudof; Judith McConnell; Richard Huffman; Stephen Kelly; Michael Roddy; Robert Trentacosta; William Gore; Bonnie Dumanis; Mark Wyland; Duncan Hunter; Martin Block; Charles Calderon; Noreen Evans; Mike Feuer; David Lampe; Lisa Schall; David Rubin; Barbara Boxer, Dianne Feinstein; Tom Harkin; Mike Enzi; Patty Murray; Al Frankin; Kathleen Sebilius; Lisa Jackson; Hilda Solis; Eric Holder; Gene Dodaro; Barack Obama; Allan Fleeger; Mike Rodd and Gary Miller

Two well connected toxicologists, who are also prolific expert defense witnesses in toxic torts, Bruce Kelman from Big Tobacco and Bryan Hardin from NIOSH, are two of six co-owners of Veritox, Inc., formerly known as GlobalTox, Inc. In 2001, they applied extrapolations to data taken from a single mechanistic research.⁴ They professed their calculations⁵ had proven that all individuals claiming illness, disability and/or death from exposures in water damaged buildings were only doing so because of “trial lawyers, media and Junk Science”⁶. Many times over when on the witness stand, the duo and others have stated their extrapolations have proven the injured parties’ claims of causation, “Could not be” from the exposure. This is science fraud on the courts to make such a claim. Even if the flawed calculations were accurate, mechanistic research cannot be used by itself as proof of lack of causation.

With the assistance of U.S. federal government agencies and entities; the U.S. Chamber of Commerce; the Manhattan Institute think-tank; the American College of Occupational and Environmental Medicine; several teaching universities; the state of California - including Governor Arnold Schwarzenegger, the University of California and US California Congressman Gary Miller; and by criminal actions of several leading California judiciaries; this science fraud became and has remained in policy. It is used in U.S. courts and claims handling practices in furtherance of hate crimes against the environmentally disabled and dying – and me.

For seven years, the California courts have worked in concert with each other, Kelman, and his attorney, Keith Scheuer, to frame me for libel with actual malice for my March 2005 writing exposing the fraud, for the accurate sentences: “UPON VIEWING DOCUMENTS PRESENTED BY THE HAYNE’S ATTORNEY OF KELMAN’S PRIOR TESTIMONY FROM A CASE IN ARIZONA DR. KELMAN ALTERED HIS UNDER OATH STATEMENTS ON THE WITNESS STAND. HE ADMITTED THE MANHATTAN INSTITUTE, A NATIONAL POLITICAL THINK-TANK, PAID GLOBALTOX \$40,000 TO WRITE A POSITION PAPER REGARDING THE POTENTIAL HEALTH RISKS OF TOXIC MOLD EXPOSURE”. (for the U.S. Chamber of Commerce).

The framing was for the purpose of casting doubt on my credibility, true scientists’ credibility and doubt on all my truthful words of the willful mass marketing of scientific misinformation to defraud the public. Many court documents including judgment, abstract and remittitur; and the California Court Case Management System “CCMS” have been falsified in the past seven years. It has cost me millions of dollars not to back down in the face of a compromised judicial system aiding hate crimes against the environmentally disabled; and then “Speak With One Voice” to try to keep the collusive misconduct hidden from public view.

As of today, August 27, 2012, the debacle has deteriorated to cyber stalking of me by court employees⁷ most likely nervous of their criminal falsification of court documents coming to light; and to a threat by the court of a second unlawful incarceration with more bodily harm for my refusal to be coerced into perjuring myself on the internet. As of July 2, 2012, I have been ordered by Judge Thomas P. Nugent to publish a known false confession of being guilty of defamation on the Linked In board of the American Industrial Hygiene Association -- for a sentence not even in my March 2005 writing⁸, "DR. KELMAN ALTERED HIS UNDER OATH STATEMENTS ON THE WITNESS STAND' WHILE HE TESTIFIED AS A WITNESS IN AN OREGON LAWSUIT"; and to never write of the matter again.⁹

I am a medical journal published author on the subject of the conflicts of interest that cause the deceit to remain in policy for the purpose of misleading the courts in hate crimes against the environmentally disabled and dying. I am the catalyst who caused the federal Government Accountability Office report, "Better Coordination of Research on Health Effects and More Consistent Guidance Would Improve Federal Efforts"¹⁰. Unfortunately, the following aspect was specifically deleted^{11 12} from the 2006 U.S. Senate Health, Education, Labor and Pension audit request:

This deletion from investigation, along with the California courts harassing and libeling me¹³ by criminal means for now seven years has allowed the unscientific deceit to continue to be able to delay and deny restitution for the environmentally injured, disabled and dying; and continue to confuse U.S. physicians by the now deeply embedded science fraud allowed to continue as false common wisdom in the medical community. The excuses by all who have been requested to intercede to stop the court harassment of me while stating it is someone else's responsibility; and thus failing to stop the resultant continued defrauding of the taxpayer in furtherance of hate crimes against the environmentally disabled, must cease now. **No more excuses. Lives are at stake including mine.**

Who the buck passing and deliberate indifference is shielding are those at the helm of the California judicial branch who have colluded to aid the CDC National Institute of Occupational Safety & Health in the misapplication of mechanistic research^{14 15} being used to aid commerce's ability to deny responsibility for causation of individuals' environmental and chemical injuries; by what the officers of the courts have unlawfully been doing to me for seven years. **The judicial leaders have been caught red handed unlawfully practicing politics from the bench in furtherance of hate crimes against the environmentally disabled, dying and me. Worse, they are caught red handed in a criminal cover up by intimidation tactics, unlawful imprisonment, bodily harm, character assassination and falsification of court and public records**¹⁶.

On behalf of myself, my family, the environmentally disabled, the American taxpayer and those who cherish the Constitutional right to speak the truth in America without retribution; **I DEMAND** that Judge Thomas Nugent be investigated for ordering me to commit criminal perjury on the internet to defraud the public in furtherance of the courts' hate crimes against the environmentally disabled, dying and me; and for ordering me, Coram non iudice, to never write of the matter again or face more abusive incarceration, bodily harm and financial ruination.

Mechanism-based toxicology in cancer risk assessment"<http://ehp03.niehs.nih.gov/article/fetchArticle.action?articleURI=info%3Adoi%2F10.1289%2Fehp.95103334> For Brian Hardin, senior scientist in the Office of the Director at NIOSH,..."Pursuit of more and better scientific data can be used very effectively by forces whose interests are served by avoiding action, by delaying action . . . '**paralysis by analysis**'. He says these forces can make skillful and plausible appeals for more and better science before some government intervention is allowed that would disturb the established order, perhaps at the expense of public health. "Whose risk is being minimized?" he asks.... "Despite the faith we all have in mechanistic work, I predict it will be many, many years before it is possible to regulate any chemical in commerce as a carcinogen in the absence of epidemiologic or animal evidence of carcinogenicity," Hardin says.

NOTICE of SUPPLEMENTAL DECLARATION UNDER DURESS OF SHARON KRAMER to Edmund G. Brown; Elaine Howle; Tani Cantil-Sayauke; Lawrence Simi; Stephen Jahr; John Miller; Jon Streeter; Kamala Harris; Sherry Lancing; Mark Yudof; Judith McConnell; Richard Huffman; Stephen Kelly; Michael Roddy; Robert Trentacosta; William Gore; Bonnie Dumanis; Mark Wyland; Duncan Hunter; Martin Block; Charles Calderon; Noreen Evans; Mike Feuer; David Lampe; Lisa Schall; David Rubin; Barbara Boxer, Dianne Feinstein; Tom Harkin; Mike Enzi; Patty Murray; Al Franken; Kathleen Sebelius; Lisa Jackson; Hilda Solis; Eric Holder; Gene Dodaro; Barack Obama; Allan Fleeger; Mike Rodd and Gary Miller

On behalf of myself, my family, the environmentally disabled, all those who have lost loved ones, the American taxpayer and those who cherish the protection of the right to speak the truth in America from a corrupt judicial system; **DEMAND** a criminal investigation of Justice Judith McConnell; Justice Richard Huffman; Clerk Stephen Kelly; Judge Thomas Nugent; Bruce Kelman; Bryan Hardin; Veritox, Inc.; Keith Scheuer; and several within the California judicial branch; State Bar; Administration of the Courts; Judicial Council; and Commission on Judicial Performance for collusion to defraud the public by criminal means in furtherance of hate crimes against the environmentally disabled, dying and me on behalf of the financial interests of affiliates of the U.S. Chamber of Commerce.

Thank you in advance for your prompt attention to this gravely serious matter. From a recent failed attempt by Judge Nugent, Mr. Scheuer and Mr. Kelman, to give me a “prophylactic experience” meant to silence me^{17 18 19} in which I was made ill²⁰ but I am not shutting up when so many lives are at stake; I fear for my personal safety of what they may have plotted next.²¹

It is easily billions in defrauding the taxpayer by the use of hate crimes against the environmentally disabled, dying and me -- which continues by the criminal actions of officers of the California courts. This matter is only one of several matters by which the California judicial branch is known to be operating by unethical means and abuse of power to try to conceal it when caught red handed in the act.^{22 23}

Sincerely,

Mrs. Sharon Noonan Kramer
