26 Sept 2026	Mondays	21 Apr 2027	Fridays	yes
15 Oct 2027	Gregorian Calendar abolished at Tabernacles 2026			no

Atonement (18 Oct 2022) to Sukkot (13 Oct 2023) is Jubilee year 5880

5880: Rosh Chodashim is the '1st of month one' (6 April 2023). The '3rd of month one' (April 8) is the first seventh day Sabbath, and every seven days for the next six months.

5881: Rosh Hashanah is the '1st of month seven' (29 Sep 2023). The '3rd of month seven' (Oct 1) is the first seventh day Sabbath, and every seven days for the next seven months (leap year).

5881: Rosh Chodashim is the '1st of month one' (24 April 2024). The '3rd of month one' (Apr 26) is the first seventh day Sabbath, and every seven days for the next six months.

5882: Rosh Hashanah is the '1st of month seven' (17 Oct 2024). The '3rd of month seven' (Oct 19) is the first seventh day Sabbath, and every seven days for the next six months.

5882: Rosh Chodashim is the '1st of month one' (13 April 2025). The '3rd of month one' (Apr 15) is the first seventh day Sabbath, and every seven days for the next six months.

5883: Rosh Hashanah is the '1st of month seven' (7 Oct 2025). The '3rd of month seven' (Oct 9) is the first seventh day Sabbath, and every seven days for the next six months.

5883: Rosh Chodashim is the '1st of month one' (2 April 2026). The '3rd of month one' (Apr 4) is the first seventh day Sabbath, and every seven days for the next six months.

MONTH 13						
7	6	5	4	3	2	1
1st Luke 4:18-19 on Sabbath 4:16 Preaches Isa 61 acceptable year of the Lord	13

29th	28th	27th	26th	25th	24th	23rd
On the morrow (next day) is Rosh Chodashim irrespective of what the Gregorian calendar 'thinks'. This evening (day 384) at sundown starts the day of the first Full New Moon (keseh-fullness of the moon Psalm 81:3 & Prov 7:20) for the year (Ex 12:2). Return to the (re-) new start found in Gen 1:14-19 on weekday five. The two halves is the only unique cycle to allow the calendar to be performed exactly the same as it appears in scripture year after year. There is NO other cycle or pattern of days. Shalom Shabbat!						1 30th 384

5884: Rosh Hashanah is the '1st of month seven' (26 Sept 2026). The '3rd of month seven' (Sept 28) is the first seventh day Sabbath, and every seven days for the next seven months.

5884: Rosh Chodashim is the '1st of month one' (21 April 2027). The '3rd of month one' (Apr 23) is the first seventh day Sabbath, and every seven days for the next six months.

5885: Rosh Hashanah is the '1st of month seven', weekday 5. The '3rd of month seven' is the first seventh day Sabbath, and every seven days for the next seven months. Romes calendar is now obsolete.

‘The conclusion to the ‘Qodesh Calendar discovery’ exposes:

1. the seventh day Sabbaths are found fixed to the ‘days of the month’
2. the Feast days are found fixed to certain ‘days of the week’
3. the calendar is found in Acts after the death and resurrection of Messiah
4. this is the original Hebrew calendar of Israel & Jews have never known it
5. no other calendar of man has the true record¹ of Moses & his successor²

The true seventh day Sabbaths rarely align with Rome's 7th day. The belief that Saturday is a ‘continuous uninterrupted cycle of weeks’ since creation or Moses is false! The chronological evidences prove both Christianity and Judaism have become false images of the truth, and bear very little resemblance to Hebraism, its priests & prophets or the early congregation Saints, disciples or Apostles. Rome and Jews (both symbolised dressed in purple & scarlet), are joined at the hip, have made a calendar alliance creating the fourth diverse and final ‘fourth beast’. Both cities are placed on seven hills.

The above chart with headings ‘Month 1 & Month 7 are fixed ‘time appointed’ (keseh-full new moon) in Jerusalem, Israel (see ‘timeanddate.com’).

Jerusalem time comes first, and we observe closest to that time elsewhere.

Rosh (Chodashim or Hashanah) is always found to start on weekday five. This proves that ‘let there be lights’³ and ‘made two great lights’⁴ is the full new moon⁵ (keseh) not the ‘covered moon’ (kasah) of heathen traditions.

Psalms 81:3 has been altered in these last days to now read ‘in the covered’, to uphold the profane use of the crescent moon. The crescent moon ‘encircling a star’ is the sign of Satan, the moon god ‘hubal’ of the kabba. This symbol is also found in the centre of Rome’s ‘monstrance’, and practised in Judaism.

We use the Gregorian Calendar ‘dates & weekday names’ as reference ONLY as we transition our way out of Mystery Babylon and into the Qodesh (set-apart) Calendar. No other calendar can witness the 100’s of chronological evidences found in scripture, in fact far too many to write about.

1 1John 5:10 He that believeth on the Son of God hath the witness in himself: he that believeth not God hath made him a liar; because he believeth not the record that God gave of his Son. (G-d says those who profess other calendars are liars).

2 Deut 18:15-19 ‘who is the root of Jesse’ (Luke 24:27) and Gen 3:15 the seed of Abram

3 Gen 1:14 & 15 ‘lights’ (plural) meaning the sun and the moon are set (not bara-created)

4 Gen 1:15 the greater light to rule the day, and the lesser light to rule the night:

5 Psa 81:3 Blow the horn at the new moon, at the full moon for our feast-day (JPS 81:3)

On the odd occasion the calendar does not transition smoothly from days 354 (or 384) to Rosh Chodashim, but there is rarely ever a problem at Trumpets. What are the facts and how do we transition into the next six month period (cycle)? If the time of the full moon occurs after sunrise and before the next sunrise that day is considered ‘the day of the new moon’. It is that simple, as ‘day’ starts in the morning sunrise and ends at the next. There is too much evidence in scripture that a day is not evening to evening.

The full new moon rises in the east soon after sunset on weekday 4. At Rosh Chodashim (weekday 5) we start our count to Passover, when for 7 days we eat Unleavened bread (erev to erev), and on the end of the seventh ‘day’ (at erev) the festival ends. This in no way alters ‘day start’ in the morning, therefore Sabbath is 12 hours from sunrise to sunset (as the scripture teach).

No commandment or statute is given to change, intercalate, postpone or defer the day of the full moon. A workable solution can be found within the transition (days) from the last week of a 6 month cycle and back to the fixed cycle (calendar) starting at Rosh Chodashim.

1. If ‘Rosh’ Chodashim is one day early we observe it as a Sabbath.
2. If ‘Rosh’ Chodashim is one day late, we observe the seventh day Sabbath as normal and the day of Rosh Chodashim would be considered a normal work day. The 3rd of month 1 is the first seventh day Sabbath, and every 7 days thereafter for the next six months until day 177.

The general rule is, ‘no two Sabbaths are to end up side by side’.

YahUaH has stated His Sabbaths are to be ‘set-apart’ Holy convocations, therefore they are like Him, and must be found literally ‘set-apart’ also.

The coming ‘Two Witnesses’ will start the show down between YahUaH’s calendar and the profane. The final battle is literally between Rome’s calendar and the Qodesh Calendar found in scripture. Those who trust in and use any ‘alternative’ will find no safety, refuge, healing or safety (as the Israelites did in Exodus 9) from the coming plagues and judgements in these last 3 & 1/2 years, the 490 days of ‘Jacobs Trouble’ and the second exodus. Wake up Judah & wake up House of Israel his companions!

The Qodesh Calendar ‘A short Introduction’
