Thank you, Jeanine. For years, I have had the naysayers trying to discredit me for exposing the fraud and how it was mass marketed into policy to fleece the public.

Then, many in the mold community started doing the same thing about the SLAPP suit- while aiding the fraud that harms them, to continue, by aiding to cast doubt of my words..

Some won't understand this, but some will. A judgment document cannot be changed after its signed by a judge, without initialing and dating the change. That makes it a void judgment and a void judgment cannot be used for anything - including as the sole foundational document for a second litigation.

If people want to know if I am telling the truth or not, make Ca's Chief Justice either prove me wrong or stop the fleeing of you. Would I give her this opportunity while everyone watches, if I didn't know I was right?

 come on everybody, we do need to know!

I signed this petition. She's asking people help send a message to California's Chief Justice and Administrator to quit stalling and either prove or disprove their employees didn't falsify court documents to harass her for exposing science fraud that harms us all who are really sick.

Seems to me that they will keep stalling unless they know lots of people are watching. All the petition to them says is "TOXIC MOLD! I want to know if extrinsic fraud is fleeing the US public"
