Name _____

VCCCV Pattern

Two-syllable words with the VCCCV pattern have two consonants that spell one sound, as in *laughter*, or that form a cluster, as in *complain*. Divide a VCCCV word into syllables before or after those consonants. Then look for familiar patterns that you have learned, and spell the word by syllables.

VCC | CV   **laugh|ter**   VC | CCV   **com|plain**

Write each Spelling Word under the heading that shows where it is divided. Order of answers for each category may vary.
