

## THE SECRET OF THE WITS-LITE

If we think our fight is with people and people alone, then we have war with each other,. we become divided and if you've felt at all like you're in a spiritual war right now, you're not alone.

### Discernment

The process of Christian spiritual discernment is understood that God guides the individual to arrive at the best decision.

In its simplest definition, discernment is nothing more than the ability to decide between truth, error, right and wrong. Discernment is the process of making careful distinctions in our thinking about truth

Luke 16:8 For the most part, godly people do not win the war with evil people by using worldly wit. We win when we have had enough and go to war to destroy evil.

The ancient weapon used to combat evil is when they realize they can be seen, they will hide, and godly people will turn their backs on evil, to prevent the spells of their fear, and driving many to question their beliefs with lies that God does not exist and life evolved from nothing.

The present social and political conditions are about making sure that what we do is right, and we have the courage to do the right thing. And not just what people think we should do-all points of view are deeply considered.

In the following information, the Secret of the Wits is a useful practice that will provide everyone a level of protection by using the natural gift of discernability when confronted by perplexing choices.

### Use the Wits

Many learn that acting without thought is the root cause of unpredictable outcomes, and ignoring the basic understanding of knowing good/evil – what is right, and what is wrong.

It is a key in controlling the mind which responds to the outward senses, except in situations where self-preservation provides protection or to prevent harm.

In the ancient past, there were commonly reckoned to be five wits and five senses.

The five wits were sometimes taken to be synonymous with the five senses, but were otherwise known and regarded as the five inward wits, distinguishing them from the five senses, which were the five outward wits.

5 Senses (outward): sight, smell, hearing, taste, and touch

5 Wits (Inward): common sense, imagination, fantasy, estimation, and memory

Both could mean a faculty of perception, although this sense "wit" was dropped during the 17th century. There have been many interpretations of the number of wits, but the idea of five senses/wits from Aristotelian, medieval, and 16th century thought still lingers in modern thinking that a sense beyond the natural ones is still called a "sixth sense

Socrates' description of the senses as "innumerable": (Dialogue: Theaetetus)

Use the Wits and become the author of your authority, and succeed where many have choice, but few apply its use to guide them to prevent them from following evil ways that destroy the spirit/soul.

The inward wits are the seat of judgement, taking cues from common sense, imagination, fantasy, estimation, and memory to arrive at a conclusion that is not colored by the mind or emotion.

The use of the wits will allow your conscious opinion to know your next step, keeping in mind that being adaptive and flexible is a necessity, since all decisions have a degree of unpredictability.

Treat yourself like you matter. Focus on How to Think Instead of What to Think

When using the Wits, You can be your best, you can be a warrior.

Why Are Globalists And Governments So Desperate For 100% Vaccination Rates?

There is a sudden deluge of covid vaccination, and vaccine passport propaganda in the past month. The US in particular, but it is important to point out that in the US the establishment is still clamoring for a higher vaccination rate. In places like Europe, the UK and Australia vaccinations rates are higher and governments have moved on to the vaccine passport phase of their agenda.

CONCLUSION: For the many that have received the vaccine, the Patreon Participant Subscribers download will include a video from the Spanish research Biostatistician (subtitled-in English) that outlines a proactive program of supplements that will mitigate the potential effects of the mRNA vaccines.
