Program Descriptions

We are interested in individuals that will assist in obtaining monthly accounting and business advisory clients. Our ideal clients are service based businesses such as child architecture, care centers, dental practices, contractors, attorneys, marketing and PR firms etc.

Program Operations

As you're out networking and speaking with business owners ask them 1 of 3 of the questions below:

1. Do they have the freedom and flexibility in their business they desire?
2. Are they making too much money in their business?
3. Are they happy with their current bookkeeper/accountant?
4. Do they have extra time in their day to enjoy life while their business self operates?

Then explain that you are an independent sales representative for Say YES To Profits, LLC an accounting and business advisory firm. Offer to set the client up for a free Profit Health Check with the CEO, Octavia Conner. Once the appointment has been completed we will take it from there. After they have signed up for services you will receive an email confirming your monthly amount. Your monthly commission payments will then begin the following month.

The great benefit about our program is you work as much as you like, or as little as you like. **The more clients you refer the more your monthly commission payment will be.**

Monthly Client Incentive

Each month you sign three or more new clients you receive a \$500 bonus for that month.

Program Requirement

Review and sign an Independent Sales Representative contract and complete a W9 form and return to us. Once you have a lead you will email the contact information and a brief description of the business owner to support@sayyestoprofits.com. Next step is an introduction with Octavia and the lead or to sign the client up for a Free Profit Health Check. Emailing the contact information to our admin will ensure that the lead is assigned to your account and payment is made correctly. We found that word of mouth is the best promotional material.
