-------------------	--	--

This is a fundraiser sniper challenge so we can raise money for a veterans family.

It is named after one of our long time members that passed away and was also a veteran and huge supporter of the military.

This is a one-day event. It will be an AR Sniper Challenge shot on Memorial Day each year. There will be 3 divisions, .223, .308, and open. You will only shoot against the guns in your class. There will be 5 stages during the competition and the stages will be set to test your shooting ability on a stringent time constraint. There will be between 8-12 targets per stage. The targets will vary in size from 1 moa to 5 moa. There will be different shooting positions on every stage. All stages will not be just shooting from the prone. If you are a new shooter, don't hesitate. There will be experienced shooters there to help you out. The rules are very simple. Stay safe and follow the rules of every stage. Weapons must be of an AR style platform. No limitations on optics. Bipods are allowed and encouraged. Only one person can spot for another shooter. A spotter may not spot for more than one shooter. The only exception to this is for the range officer to help new shooters. There will be no steel core ammo allowed whatsoever.

Time frame:

8:30 am registration starts

9:30 am registration ends and match briefing starts

10:00 am match starts

We hope to see a lot of you out for this. It is for a great cause plus it will be a ton of fun. If there are any questions please contact Joe Harris at creek375@gmail.com
