Please note, the Council's property database does not hold information on why an asset was closed.

Please note, the Council's property database does not indicate if an asset currently in use was previously an asset closed for financial reasons. Therefore they will not appear on the list.

Please note, any school buildings that have been closed since 2010 have not been included on the basis that schools can't be shut for purely financial reasons and therefore don't fit the enquiry criteria.
