

trains create JOBS!

Fast trains will link downtowns, suburbs, universities, airports, local bus and rail systems and create more jobs with new walkable residential and commercial districts around train stations.

trains save MONEY!

CYP rail fares are one-half the cost of slow bus travel and one-fifth the cost of driving!

Trains will start at 79 mph and speed up to 90-125 mph with infrastructure investments. Travelers will save even more time (and stress) by working, studying or relaxing while they travel.

trains save TIME!

High-Speed rail in the CYP TechBelt
