RE: Please support the California Coalition for Families and Children (CCFC) to stop racketeering in the San Diego Courts abetted by California's ill-legal system.

Honorable Congressman Issa,

I am writing to urge you to support families' needs for the Federal Bureau of Investigation and the United States Attorney General to investigate and prosecute for systemically, incestuous criminal acts which are occurring in the San Diego Courts under the color of law.

In February of 2013, I flew to Washington, D.C. to request that action be taken to stop racketeering and harassment of me by officers of San Diego Civil and Appellate Courts. I met with Mr. Haren; Mr. Cope; Mr. Garofano; and Dr. Linik and Ms. Laird -- Legislative Assistants to Senator Feinstein; Senator Boxer; Congressman Issa; and the Senate Health, Education, Labor & Pension Committee (HELP), respectively. The racketeering is harming the U.S. public over the mold issue. It, and the terrorizing harassment of me, continues.¹

All were provided direct evidence of case fixing a Strategic Litigation Against Public Participation (SLAPP) in the San Diego Superior and Appellate Courts aiding and abetting the continuance of scientific fraud and fraud upon courts throughout the United States. This scheme involves the U.S. Chambers of Commerce and toxic tort expert defense witnesses for the U.S. Department of Justice as plaintiffs in California SLAPP.²³⁴ It should have been stopped by federal, state, or local intervention long ago. People are dying.⁵

In addition to concealment of SLAPP case fixing and falsifications of material court documents in San Diego, California's Civil and Appellate Courts (2005 to present)⁶; the fraud was aided by HELP in February 2007, by deleting the following from a Government Accountability Office audit, ordered by the late Senator Edward Kennedy in October 2006, at my insistent urging:

“What medical and scientific standards are used in determining the admissibility of evidence of both acute and persistent health consequences resulting from exposure to mold? Which individuals and organizations have promulgated these standards and what, if any, conflicts of interest exist regarding these standards?”

Dr. Emad Tadros is a member of CCFC. He also flew to Washington D.C. in 2013 and met with the Legislative Assistants, with me. I witnessed Dr. Tadros provide direct evidence of fraudulent documents being used in San Diego Family Courts, in an additional racketeering scheme involving compromised local court officers and ancillary agencies, under the color of law.

The Family Court scheme is causing families to be victimized by divorce enterprises. They thrive by collusively dishonest services which abet child custody disputes and longer divorces. Retaliation occurs by hands of court officers for any parent who dares to expose it as an income generating fraud. As a result of no government intervention to date to stop the collusion to defraud; CCFC has been forced to file suit for the San Diego Family Court racketeering.

Many of the same California court officers, clerks, and employees of legal system ancillary agencies; have committed criminal acts in both the Family Court and the Civil Court frauds. (See fn. 9) I will soon be following CCFC by filing suit over the San Diego Civil and Appellate Court officers' case fixing SLAPP coram non iudice, in retaliation for my exposing fraud; while abetting the continuance of racketeering over the mold issue in U.S. policies and U.S. courts nationwide.⁷

According to Weightier Matters' blog of CCFC seeking help to stop fraudsters⁸:

“...on January 31, 2014, CCFC delivered letters to United States representatives requesting assistance in the investigation and arrest of San Diego Divorce Industry professionals accused of illegally defrauding California Families. The letters delivered to Senators Diane Feinstein and Barbara Boxer, Congresswoman Susan Davis, and Congressman Duncan Hunter, Juan Vargas, Scott Peters, and Darrell Issa detail the ongoing criminal violations of federal civil rights and racketeering laws among the San Diego divorce industry.”

From the CCFC letters to government officials:

“I [CCFC member, Colbern C. Stuart] enclose herewith a letter and enclosures recently delivered to Ms. Daphne Hearn, Special Agent in Charge, Federal Bureau of Investigation, and Ms. Laura Duffy, United States Attorney for the Southern District of California. The letter and attachments detail extensive fraudulent and extortionate activity occurring within the State of California’s Family Law industry in violation of numerous state and federal laws.

We’re asking for your help to alert federal law enforcement officers to our efforts and evidence. As detailed in the complaint, our approach to state officials has gone ignored. Even worse, the officials directly responsible for organizing and implementing the family law community policies and laws have actively oppressed our efforts at reform, amounting to a systemic and invidious obstruction of justice. They have teamed with the San Diego County Bar Association’s Family Law Community to manufacture criminal prosecution against our leaders and members to thwart our reform.

They have deployed state and local law enforcement against our members without legal process to oppress our members’ freedom of speech and association to promote reform for ourselves. The acts detailed in the complaint are nothing short of a pattern and policy of heinous and despicable disregard of law, and the interests of parents and children entitled to protection and relief thereunder.

California Coalition for Families and Children has filed suit in United States District Court for the Southern District of California to redress the grievances of thousands of California families and children, yet those harms continue while the lawsuit is pending. Our opponents are a nationwide divorce industry that has grown wildly out of control, deploying their enormous resources to fund dozens of lawyers in just this small case. Those lawyers have themselves resorted to illegal and oppressive tactics to defend a divorce industry that few would doubt poses enormous dangers to unsophisticated, vulnerable families throughout California.

We are so abundantly out-numbered and over-matched that even with a foothold in District Court our cause remains at peril with each step. We anticipate that the District Court will ultimately provide relief on our claims, yet the invidiously discriminatory activity we have uncovered and present to you today goes far deeper than our one case. The practices of the divorce industry have become entrenched as statewide informal policy among lawyers, social workers, bureaucrats, and judges acting outside of state law to enrich a ravenous divorce industry at the price of our children’s futures, and our citizens’ welfare.

We would be grateful for your attention to this ongoing illegal activity. We have delivered these materials to the United States Attorney and Special Agent in Charge for the Federal Bureau of Investigation for this District. Should you agree with us that our families and children deserve at least the same protections under federal law as any other citizen enjoys, your communication of your concurrence to Ms. Duffy and Ms. Hearn would be greatly appreciated by thousands of California families.”

I respectfully urge each of you to support CCFC's and my pleas that local, state and federal officials encourage Ms. Hearn and Ms. Duffy to investigate and arrest those who have committed criminal acts under the color of law in California's ill-legal system. See underlined names below for those involved, to date, in both racketeering schemes.⁹

Thank you for your attention to this matter. I look forward to your response to me of how you intend to proceed to help right the San Diego and California courts, and ancillary agencies.

Sincerely,

Mrs. Sharon Noonan Kramer
