This design will fit great in a 3 x 5 frame. The stitch count for this design is 28 x 55. The finished size on 28ct fabric o14ct Aida is 2 x 4 which will leave you with a ½ inch all around extra so it will fit perfect in a small frame, and it would also make a nice size for an ornament, or a scissor fob.

Kitty cats whiskers are long stitch with DMC 3371 (1) strand
 Mouse tail is DMC 647 and his whiskers are DMC 3371

For French knots see legend for placement and symbols.

Also you can change the color of the cat to match your kitty at home, maybe some brown spots or white markings or you can even change him to another color of orange.

I hope you enjoy your new addition to the pumpkin head family.
