Personality

Jasper is pretty cool and relaxed. Unlike his sister, he believes in taking things easy when you can. Laid back and of the 'take it as it comes' school of thought, he isn't hard to get along with, though he has a knack for wheedling things out of people and both getting into and out of trouble. He also knows a lot of things and tricks. No one is quite sure how he learned them, but he always says he learned it at camp or something.

Drawbacks

Cost:

Nearsighted: While detail is no issue for him, making out things at a distance? Meh... (-2 per interval)

Curious: He's easily distracted. (+50% time on craft if failed a focus check)

Traits, Flaws and Quirks

Jasper has a few quirks. Biggest of all? He's something of a nudist. His parents aren't quite sure where they went wrong with that one, but there's no denying it. He sometimes forgets to dress decently. Aside from that, he's got something of an eclectic nature. Fairly brilliant, easily distracted.

He and his sister are... closer than one would expect, even for adoptive siblings. He is somewhat irked by the fact that Jade is more precious than Jasper in the jewelry world.

He chews on his knuckles when focused on something.

Bio

Jasper was born on April 12, at 5:57 am. He's the first born child of the Morins, but the second child, having an older sister Jade who was adopted. Jasper proved to be something of a gifted, if lazy, lad, and for the most part made his parents and family proud. Early on he discovered his talent for the literary and visual art, and had carefully been working on perfecting it, even earning some cash from it via online sales and commissions.

He and his sister are close, to the point that she thinks nothing of his nudist traits and even models for his arts. She even taught him to sing and pesters him about being one of her back up singers if she ever gets a band going. Aside from the odd issue, they get along fine. They even share rented housing for their college years.

While his sister did archery, he picked up a few lessons in kendo, and did average in it.

His nudity thing seemed to have started around 13, though to be fair, even growing up he never really grew out of the 'run naked around the house' phase.

Not wanting to waste his potential, his parents would often put him in advanced courses and camps and the like, and he even managed to move ahead of Jade in schooling. So far, he's been eclectic in his course selection in college, taking whatever seemed interesting, and letting the skills he has work for him. No one really knows where he learned most of them... he either says books or friends with an odd smile...
