Sharon Kramer 2031 Arborwood Place Escondido, CA 92029 760-746-8026

Justice Judith McConnell
Administrative Presiding Justice
Fourth District Division One Appellate Court

Honorable Justice McConnell,

I am attaching a Motion to Recall and Rescind The Remittitur. I am filing a complaint under Local Rule of the Court, Policy Against Bias, 1.2.1. This policy states, "It is the policy of the court to provide an environment free of all types of bias, prejudice, any kind of discrimination, or unfair practice. All judges, commissioners, referees, court officers, and court attachés must perform their duties in a manner calculated to prevent any such conduct, either by court personnel or by those appearing in court in any capacity....Any violation of this policy by any judge, commissioner, referee, court officer, or court attaché should be reported directly to the presiding judge or executive officer, or assistant executive officer of the division in which the alleged violation occurred."

. I would like for you to review how it is even remotely possible that your court can repeatedly ignore evidence of criminal perjury in a strategic litigation by authors of fraudulent health policy for the American College of Occupational and Environmental Medicine (ACOEM) and the US Chamber of Commerce.

I would like for you to review how it is even remotely possible your court could deem one who has helped to change US public health policy for the good of the public to be a "malicious liar" without a shred of evidence ever presented that she was ever impeached as to the subjective belief in the validity of her words.

I would like for you to review how it is even remotely possible that a retired high level CDC NIOSH employee could be an undisclosed party to a litigation for six years; and still end up awarded costs by a party that prevailed over him and four other owners of the corporation VeriTox, Inc., in trial.

I would like an explanation of why your did not acknowledge a prior complaint on the same matter, filed on September 17, 2010; or take any action.

Under California Rules of the Court 10.603(f)(3). "The presiding judge must give written notice of receipt of the complaint to the complainant."

California Rules of the Court 10.603(g)(4) states, "The court must maintain a file on every complaint received, containing the following:(A) The complaint;(B) The response

of the subordinate judicial officer, if any;(C) All evidence and reports produced by the investigation of the complaint, if any; and(D) The final action taken on the complaint."

California Rules of the Court 10.603(i)(5) states, "If the presiding judge terminates the investigation and closes action on the complaint, the presiding judge must:(A) Notify the complainant in writing of the decision to close the investigation on the complaint. The notice must include the information required under (I)" which states: "When the court has completed its action on a complaint, the presiding judge must promptly notify the complainant and the subordinate judicial officer of the final court action.(2) The notice to the complainant of the final court action must:(A) Provide a general description of the action taken by the court consistent with any law limiting the disclosure of confidential employee information; and (B) Include the following statement: If you are dissatisfied with the court's action on your complaint, you have the right to request the Commission on Judicial Performance to review this matter under its discretionary jurisdiction to oversee the discipline of subordinate judicial officers. No further action will be taken on your complaint unless the commission receives your written request within 30 days after the date this notice was mailed. The commission's address is: Commission on Judicial Performance 455 Golden Gate Avenue, Suite 14400 San Francisco, California 94102"

Sincerely,

Mrs. Sharon Noonan Kramer

24		I.			
25	BACKGROUND				
26	Although never mentioned in any Opinion or ruling, in this litigation Sharon				
27	("Kramer")s use of the phrase, "altered his under oath statements on the witness				
28	stand" which was deemed by th	is court to be a malicious lie, just happened to be in			

the same writing that was the first to publicly expose how it became a fraud in US public health policy that moldy buildings do not harm prior healthy people.

Never mentioned in any Opinion or ruling, as even being in evidence; Kramer has evidenced since July of 2005, that she believes Bruce ("Kelman")'s statements of "lay translation" to "two different papers, two different activities" and back to "translation" were altered under oath testimony to hide the true connection of the medical policy writing body, ACOEM, from that of the US Chamber of Commerce when marketing the fraud into policy and to the courts.

As such, this court has deemed a whistle blower of fraud in US and California health and workers comp policies to be a malicious liar while not being able to cite to one piece of evidence of her ever being impeached as to the subjective belief in the validity of the truthfulness of her words "altered his under oath statements on the witness stand" ..because they never even mentioned she provided the unimpeached evidence of her logic for her use of these words.

The fraud in policy that this court is aiding to cover up by deeming a never impeached whistle blower to be a malicious liar, is that Kelman (and irrefutably evidenced to be an undisclosed party to this litigation on the Certificates of Interested Parties; CDC NIOSH Big Wig Bryan ("Hardin")) could apply math to a single rodent study and prove no one is sick from the toxins found in water damaged buildings. Thousands of lives have been devastated from the fraud.

Not mentioned in the Opinion, this court was clearly evidenced by Kramer that it is a fraud in science to make such an outlandish claim used to deny causation of illness in the courts, based on such limited data. Kramer also evidenced how it has

24

25

26

27

28

impacted policy and mold litigation for the past nine years. But that is not mentioned in the Opinion, either.

Not mentioned in the Opinion, this court was evidenced that Kramer virtually castrated the defense in mold litigation when she exposed it as a fraud in policy by getting a Federal GAO audit into the current scientific understanding of the health effects of mold.

Excerpts of a new book published in December 2010, by Dr. Ritchie Shoemaker and regarding Kramer's role in reshaping policy:

The arguments about health effects caused by exposure to the interior environment of water-damaged buildings were brought to the U.S. Senate Health Education Labor and Pension Committee (HELP) in January 2006, largely through the tireless efforts of Sharon Kramer. She'd provided Senator Ted Kennedy's office with an overwhelming amount of data to show that the current U.S. government approach to mold illness was not only shortsighted and biased, it was plain wrong. Senator Kennedy of HELP and Senator Jeffords of the Senate Public Works Committee called for a legislative staff briefing, with invitations provided to all Senate members. The meeting was held in the Dirksen Building in January 2006. Thank goodness that it wasn't held in the Rayburn Building; (see Chapter 21, Tourists' Guide to Moldy Buildings in DC). Panelists were Vincent Marinkovich, MD; Chin Yang, PhD; David Sherris, MD; and Ritchie Shoemaker, MD, with Mrs. Kramer organizing and moderating the briefing. The EPA, CDC and HHS were supposed to send speakers as well so that an informed dialog could take place for the benefit of the Senate legislative staffers, and therefore the U.S. citizens. The agencies cancelled their appearance at the last minute...

Understanding that (a) most elected officials aren't comfortable with potential threats to vested financial interests (in the case of water-damaged buildings, those interests involve building ownership and the property and liability insurance industries); and (b) discussion of human health effects due to exposure to water-damaged buildings exposes such threats to those interests, it was curious that such a conference could be held at all. No videos or minutes of the meeting were permitted to be taken so the Senate staffers could feel comfortable to

ask questions. I expected that there would be some sort of maneuver surrounding this scientific and political event, so it was no surprise that government agencies, including the EPA, pulled their representatives at the last minute, though no explanation was given...

That area of enquiry subsequently led to a request from Senator Kennedy's office in October 2006 to the General Accountability Office for a review of the Federal effort. Again, Sharon Kramer's incredible effort was........ instrumental in the GAO request that led in turn to the 2008 US GAO report that completely destroyed the defense or government Nay-sayers' credibility in mold illness issues. Thanks to Sharon and Senator Kennedy's staff, the longstanding idiotic arguments about mycotoxins alone being the problem from WDB have now been put to rest, with the exception of some really primitive defense attorneys who don't know that the old ACOEM-quoting defense and the old AAAAI quoting defense are a prescription for a loss in court.

Additionally, never mentioned in any ruling or Opinion, Kramer has provided the courts with uncontroverted evidence since September of 2005 that Kelman committed perjury and his attorney, Keith ("Scheuer") repeatedly and willfully suborned it, to establish false extenuating circumstances for Kramer's purported malice. This includes in his Reply Brief of September 2009 submitted to This Court.

Kramer evidenced this, but it was not mentioned in the Opinion that this court willfully accepted suborning of perjury in a legal brief by a California licensed attorney over a matter adversely impacting public health and involving billions of dollars.

There is now a new malicious litigation filed November 4, 2010, in which Kelman and Scheuer are seeking an injunctive relief that Kramer be gagged from ever writing of this libel litigation. This means Kramer would be gagged from writing of this court's aiding with interstate insurance fraud by not following the laws that govern proof of libel with actual malice and repeatedly ignoring what courts are

must to do by law, when provided irrefutable evidence that a litigant and their attorney are committing perjury to strategically litigate.

With this newest attempt to gag Kramer, this now makes Kelman and Scheuer agents of this court in a new malicious litigation to cover up what this court was willing to do to aid the continuance of fraud in health policies on behalf of affiliates of the US Chamber of Commerce, primarily the insurance industry.

This newest attempt to gag Kramer, also places a San Diego North County Superior Court Judge, the Honorable Thomas Nugent, in the compromised position that he will have either have to roll over on this court (and the Chair of the California Commission on Judicial Performance who did the same thing when denying Kramer's anti-SLAPP motion in 2006) for aiding with a malicious litigation to silence a Whistle Blower with this court being the true beneficiaries if Kramer were to be gagged;

or Judge Nugent will have to put the never once impeached Kramer behind bars when she refuses to be silenced of the fraud in US policy and the fraud of the Fourth District Division One Appellate Court aiding in the continuance of the insurance fraud adverse to public health, the public's best interest and in egregious dereliction of duty as Justices of the State of California.

Email sent yesterday to the San Diego District Attorney's Office:

Dear, Mr. Koerber and Mr. Hawkins,

24

I hope you are doing well. Please share this email with District Attorney Dumanis.

25 26

I need to meet with you again and file a new complaint about what the Fourth District Division One Appellate Court has done. Kelman sued

me again seeking an Injunctive Relief

[http://freepdfhosting.com/bfaeafa6ea.pdf] that I not repeat my phrase "altered his under oath statements" and many others for which I was not even sued, on the Internet or anywhere else.

I have never reposted or even discussed my purportedly libelous writing since the day he sued me in May 2005 without disclosing it was the <u>subject of a libel suit [http://freepdfhosting.com/2ea637d61d.pdf]</u>, which is my right to do. Even people on death row are permitted to profess and evidence their innocence.

If I can never mention the phrase or my writing connecting ACOEM to the US Chamber and litigation; what this means is that a <u>successful whistle blower [http://freepdfhosting.com/40ef44be08.pdf]</u> of a fraud in US health and CA workers comp policy also would not be able to discuss how the San Diego courts turned a blind eye for six years to the undisputed facts that:

- 1. There was no evidence presented that I did not believe my words -because they never <u>even acknowledged that I explained</u> [http://freepdfhosting.com/21f71b9b4e.pdf(pdf pg 12 -18)] why I used my words in any of their rulings or Opinions.
- 2. They ignored the <u>uncontroverted evidence that Kelman committed</u> <u>perjury</u> [http://freepdfhosting.com/21f71b9b4e.pdf(pdf pg 25 to pg 29)] to establish false extenuating circumstances for my purported malicious motivation to publicly write of how it became false US health policy that mold does not harm prior healthy people. Never even mentioned there was evidence of the perjury to establish libel law needed reason for malicenot once.
- 3. Never mentioned, Bryan Hardin, retired Deputy Director of CDC NIOSH was <u>irrefutably evidenced</u> [http://freepdfhosting.com/dc748c7054.pdf] to be <u>improperly undisclosed to be a party</u> [http://freepdfhosting.com/57726d547a.pdf] to this litigation as the sixth owner of VeriTox, Inc. (and author of fraudulent environmental policy for the US Chamber and ACOEM). Never saw them mention his name in any opinion or ruling, once.

Now, with this newest litigation meant to gag me of what really occurred in my libel litigation at the hands of the <u>Fourth District</u> <u>Division One</u> [http://freepdfhosting.com/9aa603f298.pdf] - presided over by the

Chair of the <u>California Commission on Judicial Performance</u>; [http://freepdfhosting.com/de56fb0895.pdf] Kelman and his attorney Scheuer, have become agents of the court to cover up their <u>six years of involvement in aiding</u> [http://katysexposure.wordpress.com/2010/10/27/presiding-justice-candidate%C2%A0judith-mcconnell-nine-subordinate-san-diego-

judicuariesassisting-with-strategic-litigation-by-criminal-means-by-an-author-of/] this insurer fraud cost shifting scheme

[http://www.youtube.com/watch?v=elGlZT6g50Q&feature=mfu_in_order&list=UL] to continue [http://freepdfhosting.com/21f71b9b4e.pdf(pdf pg 6 & 7)] to be promoted in policy by private sector medical associations adverse to the public interest and not based on science (as you know from the Toyota of Poway case), and while the Regents of the UC profit from it

[http://freepdfhosting.com/1d6ae0b8a2.pdf]

This newest litigation is placing a San Diego Superior Court judge, Judge Thomas Nugent, in a compromised position. He will either have to:

- 1. acknowledge the evidence that this is new strategic litigation in the interest of the Fourth District Division One and Justice McConnell to see me gagged that they ignored a well connected plaintiff's perjury on the issue of malice while strategically litigating; and ignored there was no evidence impeaching the whistle blowing defendant -but deemed her a "malicious liar" anyway to the advantage of the insurance industry and US Chamber of Commerce by discrediting her; or
- 2. put a US citizen who has done more than her part for her fellow man behind bars when she refuses to be silenced of the fraud in health policy and those who have aided it to continue.

I have to have a reply brief to the court by January 27th. I am not even hopeful the court will take seriously a Pro Per's amateur writing by one who has been deemed a "malicious liar" describing his 10 judge and justice peers ignoring irrefutable evidence of perjury over a matter of public health and billions of dollars.

This has got to stop somewhere. The State Bar turned a blind eye. The CA Supreme Court turned a blind eye. The Commission on Judicial Performance turned a blind eye. The Regents turned a blind eye. And so did Governor Arnold Schwarzenegger who had endorsed the fraud into <u>CA workers comp policy</u>

[http://www.cdph.ca.gov/programs/IAQ/Documents/moldInMyWorkPlace.pdf]

I think it stops with you and Bonnie Dumanis of the San Diego District Attorney's office.

At least that is what the <u>CA Ins. Fraud Assessment Commission</u> says. [http://www.youtube.com/watch?v=az7laEuLCtA] I am aware that the LA County DA's office investigates local judiciaries and elected officials of the court and county as part of their purview.

PLEASE HELP, Mr. Koeber, Mr. Hawkins and District Attorney Dumanis. Or if you ever want to come visit me, it will be in the San Diego County Jail when I refuse to be silenced of the insurer fraud written into policy and the Fourth District Division One Appellate Court's aiding it, including Presiding Justice Judith McConnell, Chair of the CJP.

I don't deserve this for delving deeply into a problem that is harming thousands, daring to write the truth of a matter and working diligently to change it.

When would be a good time to meet? And thank you in advance for stopping this tragic situation of the San Diego courts being unduly influenced in a manner not in the public's best interest or in fulfilling their duties as officers of the courts - while working to punish, discredit and silence a whistle blower of the fraud, ME...

Sincerely, Sharon Kramer 760-746-8026

Forwarded Message To the San Diego DA's Office in same email:

Oversight Needed Of Federal Funds Used To Educate US Pediatricians Of The Dangers Of Water Damaged Buildings

Dear CDC, Agency For Toxic Substance & Disease Registry and EPA, Are We Federally Funding Insurer Cost Shifting Environmental "Science"

When Educating US Doctors on Behalf of the Affiliates of the US Chamber of Commerce?

On January 17, 2011, Seventy Five Physicians, Scientists & Citizens sent a letter to CDC ATSDR & EPA requesting

transparency and oversight of what America's pediatricians and other US physicians are being taught of children's illnesses caused by exposure to Water Damaged Buildings (WDB) through the collaboration of private medical associations and Federal funds. The gist of the concerns raised is *"Certainly, the directors can understand the concern when tax dollars are used to potentially harm the public when some of the US policy writers involved in influencing America's pediatricians and occupational physicians of the causes and effects of WDB exposures also generate income aiding insurers to deny any causation or effect even exists. This in turn, may aid insurers to shift the cost of WDB-illness onto us, the US taxpayer."* View the letter sent to our nation's leaders in entirety at KatysExposure.Wordpress.Com "Exposing Environmental Health Threats And Those Responsible" - Katy's Exposure Blog

[http://katysexposure.wordpress.com/2011/01/18/request-for-transparency-oversight-of-federal-funds-used-to-educate-us-pediatricians-of-children%E2%80%99s-illnesses-caused-by-water-damaged-buildings-%E2%80%9Cwdb%E2%80%9D/] "

A video of Kramer before the California Fraud Assessment Commission, November 16, 2010, discussing how Governor Schwarzenegger endorsed the fraud of Kelman, Hardin, ACOEM and the US Chamber into California Workers Comp Policy, that this court is aiding to continue may be viewed at:

 $http://www.youtube.com/watch?v=elGlZT6g50Q\&feature=mfu_in_order\&list=UL$

In summary, please rescind the remittitur and step down as Justices of the State of California. Your Opinion and the actions of the newly re-elected Administrative Presiding Justice, who is also Chair of the California Commission on Judicial Performance, are clearly evidenced to have lost sight of your duties to uphold the law on behalf of the citizens of California, the citizens of United States and in protection of the First Amendment of the Constitution. You are willfully aiding in discrediting truthful speech for the public good and chilling speech of others for fear of retribution by judiciaries such as yourselves.

As such, you have become the epitome of exactly what the First Amendment is meant to protect against from occurring for the sake of public good. And you are now willing participants and beneficiaries of a new malicious litigation to attempt to gag a Whistleblower of fraud in policy and your involvement in aiding the fraud by your blatant refusal to acknowledge irrefutable evidence of criminal perjury in a strategic litigation. by authors of a deception in US policy for ACOEM and the US Chamber of Commerce. Please rescind the remittitur and step down as Justices of the State of California. You no longer deserve the right to be in such a position of authority while adversely impacting the lives of thousands of citizens by your actions.

II.

RESCIND THE REMITTITUR, OPINION ISSUED BY IGNORING EVIDENCE OF KELMAN'S & SCHEUER'S FRAUD ON THE APPELLATE COURT

1. On September 9, 2009, Kelman filed a reply brief. Within the brief the following statement is made on page 16:

"She never asked Vance why he wanted her to wait for the transcript. (Reporter's Transcript, 335:2-4.) And she flailed at trial when she tried to justify her willful refusal to heed Vance's warning. (Reporter's Transcript, 334:5-19.)"

2. As evidenced for this court in Kramer's Reply Brief of October 5, 2009, page 31, Scheuer made the above statement to mislead this court that Kramer had been impeached as to the subjective belief in the validity of her words in trial. He then cited to a "Reporter's Transcript, 334:5-19", that does not support the fallacy that Kramer was ever impeached as to the subjective belief of her words or maliciously rushed to publish.

3. From Kramer's Reply Brief of October 2009, while citing the fraud in Kelman's Brief of September 2009, of which this court must have overlooked that they were evidenced there is simply no evidence of Kramer ever being impeached as to the subjective belief in the truthfulness of her words "altered his under oath statements on the witness stand" in trial or any other time, or that her Press Release was maliciously motivated:

"(Respondent's Brief, Page 16) proves that Respondent knows he did not impeach Appellant as to the belief in her words. For Counsel to resort to the statement, "And she flailed at trial when she tried to justify her willful refusal to heed Vance's warning. (Reporter's Transcript, 334:5-19)" in which Appellant had mixed the word "what" with "that", is an acknowledgement that Respondent and Counsel know they have never impeached Appellant as to the belief in her words." (Kramer's Reply Brief, pg 31)

4. Reporter Transcript, 334:5-19 of the trial states:

Mr. Scheuer: Why didn't you want to wait?

Mrs. Kramer: Because this – old news is no news, and this was a case of national significance. It was one the first in the northwest where a jury had found that children had suffered neurocognitive damage from the exposure to mold, and it was important to get it out.

"And the other reason I didn't want to wait is because I didn't want to see this spun by industry into, 'Some stupid jury found toxic mold did blah, blah, blah'. I have a degree in marketing, and I understand what time is important –"

Mr. Bandlow: "That timing"

Mr. Scheuer: I'm sorry.

- Q. (by Mr. Scheuer) –"That timing is important when you are putting information out".
- 5. As shown above this court was informed and evidenced, "Reporter Transcript, 334:5-19", does not support the statement in Kelman & Scheuer's

brief of "And she flailed at trial when she tried to justify her willful refusal to heed Vance's warning. (Reporter's Transcript, 334:5-19.)" Its fraud in a brief to falsely portray impeachment and malice and this court was evidenced it was fraud.

6. In Kelman's reply brief of September 9, 2009, on page 20 the following statements are made:

"Appellant virtually ignores this mountain of evidence of actual malice, and fixates instead on purported deposition testimony from her old lawsuit against Mercury Casualty (which settled long before the instant action commenced).

Appellant's theory apparently is that Dr. Kelman bamboozled several trial court judges and this Court about the substance of his testimony in her Mercury Casualty case, and that this bamboozlement irretrievably tainted this entire lawsuit – creating what Appellat calls "insurmountable judicial perception bias of the case." (Appellant's Errata Opening Brief, page 33.)

She claims that this bias "stopped Appellant from being able to discuss what she needed to in order to defend herself." (Appellant's Errata Opening Brief, page 35.)

"The judicial perception bias went from court to court, ruling to ruling causing a manifest destiny verdict that the press release was wrong and Appellant had maliciously lied with the use of the word 'altere.' (Appellant's Errata Opening Brief, page 45.)

There are many, many problems with Appellant's theory. First, it has no factual basis."

7. This court must have missed the numerous times and numerous amounts of uncontroverted evidence Kramer provided that Kelman committed perjury in this litigation to establish false extenuating circumstances based on a testimony he is <u>irrefutably evidenced</u> to have never even given in Kramer's Mercury case of long ago - because the Opinion does not even mention any of the evidence of the fraud. Some of the bate stamped evidence from Kramer's

appendix, Vol. 4, 988 -1055) may be viewed online at http://freepdfhosting.com/c35afb9c81.pdf (huge pdf, takes a minute to open)

- 8. The court must have missed the irrefutable evidence that Scheuer willifully suborned Kelman's perjury including in his reply brief, to inflame all courts to make Kramer's writing appear to be maliciously motivated from a lawsuit in which she received approximately one half of one million dollars in settlement.
- 9. Kramer evidenced this to this court in her reply brief of October 5, 2009, but "insurmountable judicial perception bias" must have caused this court to not be able to understand that one cannot use perjury to make up a reason why someone would want to accuse them of perjury. This rule of law holds true, even if the Regents of the UC profit from the perjury in this strategic litigation and even if it benefits an insurer fraud that Governor Schwarzenegger signed into workers comp policy, while aiding to shift cost onto taxpayers.
- 10. From Kramer's Reply Brief of October 2009, page 8:

Beginning in September of 2005, Respondent and Counsel started submitting declarations to the courts providing a purported reason for Appellant's malice stemmed from a purported expert testimony Respondent claimed to have given in Appellant's personal mold litigation with Mercury Casualty, 2003. (Opening Brief. App.6-12)

In reality, Respondent never even gave the purported malice causing testimony that supposedly, in the words of Counsel, caused Appellant to be "furious that the science conflicted with her dreams of a remodeled home". So she "launched into an obsessive campaign to destroy the reputations of Dr. Kelman and GlobalTox". (Opening Brief App.8) Appellant's evidence, uncontroverted by Respondent's Brief, proves Respondent's declarations submitted to the courts under penalty of perjury established a false theme for Appellant's malice. It also proves Counsel has been willing to

suborn his client's perjury right up through September, 10, 2009 by "emphatically" denying the perjury, with no corroborating evidence to support the emphatic (and false) denial. (Resp. Brief P.20,21)

Their bamboozlement caused a wrongful anti-SLAPP ruling by this Court in 2006; and a wrongful denial of Appellant's Motion for Summary Judgment in 2008. (Appellant's Brief, P.6-12) In addition Respondent's perjury on the issue of malice impacted the framing of the scope of the trial in conjuction with the Honorable Lisa C. Schall's (trial judge) violating C.C.P 425.16.(b)(3) by erroneously relying on this Court's anti-SLAPP ruling for her understanding of the litigation. (Opening Brief, P. 12-16)

11. As repeatedly evidenced for this court, the perjury by Kelman that set the false theme of Kramer's purported malice is:

"I first learned of Defendant Sharon Kramer in mid-2003, when I was retained as an expert in a lawsuit between her, her homeowner's insure and other parties regarding alleged mold contamination in her house. She apparently felt that the remediation work had been inadequately done, and that she and her daughter had suffered life-threatening diseases as a result. I testified that the type and amount of mold in the Kramer house could not have caused the life-threatening illnesses that she claimed."

12. As repeatedly evidenced for this court, the suborning of perjury by Scheuer that set the false them of malice is:

"Dr. Kelman testified in a deposition that the type and amount of mold in the Kramer house could not have caused the life threatening illnesses that Kramer claimed. Apparently furious that the science conflicted with her dreams of a remodeled house, Kramer launched an obsessive campaign to destroy the reputation of Dr. Kelman and GlobalTox."

13. As evidenced above, Scheuer's brief submitted to THIS court and when rendering THIS opinion practiced a fraud on THIS court on September 9,

2009. It is a fraud in Kelman and Scheuer's Reply Brief to state, "There are many, many problems with Appellant's theory. First, it has no factual basis."

14."If the remittitur issues by inadvertence or mistake or as a result of fraud or imposition practiced on the appellate court, the court has inherent power to recall it and thereby reassert its jurisdiction over the case. This remedy, though described in procedural terms, is actually an exercise of an extraordinary substantive power. ...its significant function is to permit the court to set aside an erroneous judgment on appeal obtained by improper means. In practical effect, therefore, the motion or petition to recall the remittitur may operate as a belated petition for rehearing on special grounds, without any time limitations." (9 Witkin, Cal. Procedure (4th ed. 1997) Appeal, § 733, pp. 762-763.)

III.

KRAMER PRO PER WAS MAILED A FALSE DOCUMENT FROM THE COURTS NOT IN COURT RECORD OF A JUDGMENT NEVER ENTERED, RECALL REMITTITUT TO CLARIFY "JUDGMENT AFFIRMED" and "RESPONDENTS" OF OPINION & REMITTITUR

- 1. California Rule of the Court 8.278(b)(2) states "If the clerk fails to enter judgment for costs, the court may recall the remittitur for correction on its own motion, or on a party's motion made not later than 30 days after the remittitur issues." California Rule of the Court 8278(a)(3) states, "If the Court of Appeal reverses the judgment in part or modifies it..., the opinion must specify the award or denial of costs."
- 2. Not mentioned in the Opinion, this court was evidenced that there was no judgment entered after amended rulings awarding costs to both Kelman and Kramer of December 16, 2008; and that. Kramer, Pro Per, was sent a fraudulent document from the clerk of the court, Department 31 in January 2009 falsely

indicating there was judgment entered after rulings. What Kramer was sent was a false document awarding only Kelman costs.

- 3. On December 16, 2008 after oral argument of December 12th (which was Judge Schall's last day to preside over Department 31), an amended ruling after trial that differed from the judgment entered on October 16 (that had originally awarded only Kelman costs and not Kramer's as prevailing over GlobalTox) was issue. In the 12/16/08 ruling, Kelman was awarded costs and it was determined Kramer could motion for her costs. Kramer was later awarded costs in a ruling of April 3, 2009. There was no amended judgment entered or notice of entry after either of these two rulings.
- 4. On December 22, Kramer filed a motion for reconsideration to the presiding judge of the North County court, Judge Joel ("Pressman") in Schall's absence.
- 5. On January 7th, 2009, Kramer was mailed a denial for reconsideration based on the statement in the denial that the court had lost jurisdiction because a judgment was entered on December 18, 2008. (Appellate Appendix Vol.5, 1078)
- 6. Kramer had received no Notice of Entry of any judgment. On January 9, 2009, she physically went to the court house and checked the court record file. There was no evidence of any judgment entered on December 18, 2008. (And there still is not.)
- 7. Kramer went upstairs to Department 31. She was directed to go to Judge Thomas Nugent's Department 30 where Judge Schall's clerk, Michael ("Garland"), would come out to speak with her.

- 8. In front of two of Judge Nugent's court personnel, Kramer asked Garland why she was mailed a denial for reconsideration based on a judgment being entered, but there was no record in the court file of any judgment entered after amended rulings and she had received no notice of such.
- 9. Garland, in front of the Department 30 personal replied "We are all sick of you.". Kramer being a new Pro Per because she could no longer afford legal counsel to help defend the truth of her words for the public good, thought she had done something wrong, and questioned Garland no further.
- 10. On January 9, 2009, the new clerk of the court for Department 31 mailed Pro Per Kramer a false document indicating that a judgment was entered on December 18, 2008, awarding only Kelman costs contrary to the recent ruling mailed on 12/16/08. Next to the dollar amount it had a hand written "Michael Garland 12/18/08". This document with its "12/18/08" and mailed to Kramer from the court, is not in the court record. Kramer is the only one who appears to have any such document, as evidenced in her (Appendix, Vol. 5, 1081-1083)
- 11. As "Notice of Entry", the document mailed to Pro Per Kramer was attached to a yellow Post it that stated:
 - "Ms. Kramer 9-24-2008 judgment reflects costs of \$7252.65 entered as of 12-18-2008. See page 3 of highlighted [illegible]. This is the information you are seeking. Lynn D31". (Appellant's Appendix Vol.5, 1081)
- 12. "For example, courts have held that the 'document entitled 'Notice of Entry' 'mentioned in the rule must bear precisely that title, and the 'file stamped copy of the judgment' [citation] must truly be file stamped." (Id. At p. 903, quoting rule

8.104(a)(1).)" <u>Citizen</u>	for	Civic	<u>Accountability</u>	٧.	Town	of	Danville	(2008)	167
Cal.App.4th 1162.									

- 13. Based on a false date of entry of 12/18/08 of a purported judgment not found in the court records and not consistent with the amended rulings mailed December 16th; the lower court claimed they lost jurisdiction over the case.
- 14. On November 28, 2010, Kramer was served papers for an Injunctive Relief that she not be permitted to discuss the words "altered his under oath statements" and many others for which she was not even sued, which means she would gagged from this writing of this court ignoring her evidence of Kelman's perjury while strategically litigating and ignored Kramer was mailed a false document from the case of a judgment never entered in the court record after amended rulings. It is Case No.37-2010-00061530-CU-DF-NC Kelman v. Kramer, NC Superior Court Dept. 30, Honorable Thomas Nugent.
- 15. What is relevant on this point is that Kelman is now seeking an injunctive relief in a new case that Kramer be gagged of writing of this court's involvement in aiding insurer fraud, based on a fictional judgment that was never even entered in this case after amended rulings of December 16, 2008 and April 3, 2009.
- 16. On January 13, 2011, Scheuer submitted costs on appeal of \$762.30
- 17. Page 16 of the Opinion states, "Judgment affirmed. Respondents to recover their costs of appeal". "Respondents" is restated in the Remittitur.
- 18. Not mentioned in the Opinion, this court was evidenced, Bryan ("Hardin") is the sixth owner of GlobalTox. He is also a retired Deputy Director of CDC

NIOSH. As this court was evidenced he was an improperly undisclosed party to this litigation on the Certificate of Interested Parties in 2006 when denying Kramer's anti-SLAPP motion. When this court uses the plural term "respondents to recover costs" in the Opinion and Remittitur, is this court referring to undisclosed party, Hardin, as an additional party to recover costs and one who Kramer prevailed over in trial as one of the owners of GlobalTox? Because on the Certificate of Interested parties submitted to this court in 2009, there is only one disclosed respondent, Bruce Kelman.

- 19 . As such, this court needs to recall the remittitur to clarify what they mean by the term "judgment affirmed" and "respondents" (plural) of what costs are being awarded to whom; based on what date a judgment properly noticed as entered becomes the valid judgment; and whom they are referring to with the plural "respondents" being awarded costs on appeal.
- 20. California Rule of the Court 8278(a)(3) states, "If the Court of Appeal reverses the judgment in part or modifies it..., the opinion must specify the award or denial of costs."
- 21. "A remittitur can be recalled to permit the court to 'clarify and make certain' any matters that are implicit in the court's opinion and judgment. (Ruth v. Lytton Sav. & Loan Ass'n (1969) 272 Ca 2d 24, 25, 76 CR 926, 927" Witkins Rule of Law 14;41
- 22. "A recall may also be ordered on the ground of the court's inadvertence or misapprehension as to the true facts, or if the judgment was improvidently rendered without due consideration of the facts" McGee (1951) 37 C2d 6,9, 229 P2d, 780, 782" Witkins 14:38

IV.

RECALL REMITTITUR ADMINISTRATIVE PRESIDING JUSTICE "CLERICAL ERROR"

- 1. The Opinion was rendered on September 14, 2010 deeming Kramer a malicious liar for the word "altered"; in which the Opinion by inadvertence, neglect or error, did not mention Kramer's evidence within her Appellate Reply Brief of fraud on this court, ie, Scheuer again suborning Kelman's perjury on the issue of malice in his reply brief of September 2009; and the Opinion did not mention being evidenced of Scheuer's citing to trial transcript that did not support statements in the brief to falsely portray Kramer had been impeached in trial and was falsey portray she evidenced to have written with malice.
- 2. On September 17, 2010, Kramer filed a complaint with the Administrative Presiding Justice under Local Rules of the Court, Policy Against Bias 1.2.1. This policy states, "It is the policy of the court to provide an environment free of all types of bias, prejudice, any kind of discrimination, or unfair practice. All judges, commissioners, referees, court officers, and court attachés must perform their duties in a manner calculated to prevent any such conduct, either by court personnel or by those appearing in court in any capacity....Any violation of this policy by any judge, commissioner, referee, court officer, or court attaché should be reported directly to the presiding judge or executive officer, or assistant executive officer of the division in which the alleged violation occurred."
- 3. In error and in violation of California Rules of the Court; no acknowledgement of even receiving the date stamped complaint Kramer had submitted was sent to Kramer from the Administrative PJ
- 4.. Under California Rules of the Court 10.603(f)(3). "The presiding judge must give written notice of receipt of the complaint to the complainant."

1

2

3

- 5. California Rules of the Court 10.603(g)(4) states, "The court must maintain a file on every complaint received, containing the following:(A) The complaint;(B) The response of the subordinate judicial officer, if any;(C) All evidence and reports produced by the investigation of the complaint, if any; and(D) The final action taken on the complaint."
- 6. California Rules of the Court 10.603(i)(5) states, "If the presiding judge terminates the investigation and closes action on the complaint, the presiding judge must:(A) Notify the complainant in writing of the decision to close the investigation on the complaint. The notice must include the information required under (I)" which states: "When the court has completed its action on a complaint, the presiding judge must promptly notify the complainant and the subordinate judicial officer of the final court action.(2) The notice to the complainant of the final court action must:(A) Provide a general description of the action taken by the court consistent with any law limiting the disclosure of confidential employee information; and (B) Include the following statement: If you are dissatisfied with the court's action on your complaint, you have the right to request the Commission on Judicial Performance to review this matter under its discretionary jurisdiction to oversee the discipline of subordinate judicial officers. No further action will be taken on your complaint unless the commission receives your written request within 30 days after the date this notice was mailed. The commission's address is: Commission on Judicial Performance 455 Golden Gate Avenue, Suite 14400 San Francisco, California 94102"
- 7. As the Opinion failed to mention the fraud in Kelman's Reply brief that was evidenced by Kramer to falsely portray to this court that Kramer had been impeached in trial and falsely portray that Kelman had *not* committed perjury, when in fact he had; review for bias in the court is essential and the remittitur should be recalled and stayed for the Administrative PJ to perform her duty,

required actions and adhere to the policies against bias, as dictated under Local and California Rules of the Court.

- 8. "A recall may also be ordered on the ground of the court's inadvertence or misapprehension as to the true facts, or if the judgment was 'improvidently rendered without due consideration of the facts" McGee "A stay may be ordered only for 'good cause'. 'Good cause' for this purpose requires a showing of some extraordinary reason for retaining appellate court jurisdiction and further delaying lower court proceedings on the judgment (e.g., likely irreparable damage from immediate enforcement of the judgment) Reynolds v. E. Clemens Horst Co. supra, 36 CA at 530, 172 P at 624] Witkins 14:30
- 9. Clerical error of the Administrative Presiding Justice not acknowledging her subordinates bias that deemed a Whistle Blower of a fraud in policy to be a "malicious liar"; while ignoring the fraud in policy author's fraud in his Reply Brief; or not acknowledging she even received a complaint is "Good Cause" for this remittitur to be recalled and the Opinion re-evaluated. Irreparable damaged is being done to Kramer by having to answer to a new malicious litigation filed by Kelman and Scheuer seeking Kramer be gagged from discussing this case and the bias in the Opinion.

IV NEW MALICIOUS LAWSUIT TO GAG KRAMER FROM WRITING OF FRAUD IN OPINION Kelman & Scheuer Now Agents Of This Court

- 1. In a litigation where the sole claim of the case has been over the phrase "altered his under oath statements on the witness stand", Kelman is seeking injunctive relief that Kramer be:
 - "restrained from stating, repeating, publishing or paraphrasing, by any means whatsoever, any statement that was determined to be libelous

in an action titled <u>Kelman [sic & GlobalTox] v. Kramer San Diego Superior Court case no. GIN044539</u>. The libelous passage of the press release states:

'Dr. Bruce Kelman of GlobalTox, Inc., a Washington based environmental risk management company, testified as an expert witness for the defense, as he does in mold cases through the country. Upon viewing documents presented by the Hayne's [sic] attorney of Kelman's prior testimony from a case in Arizona, Dr. Kelman altered his under oath statements on the witness stand. He admitted the Manhattan Institute, a national political think-tank, paid GlobalTox \$40,000 to write a position paper regarding the potential health risks of toxic mold exposure.'

IT IS FURTHER ORDERED that, before this order may take effect, Plaintiff [sic Kelman] must file a written undertaking in the sum of \$______, as required by C.C.P. 529, for the purpose of indemnifying Defendants for the damaged they may sustain by reason of the issuance of this preliminary injunction if the Court finally decides that Plaintiff is not entitled to it. The preliminary injunction shall issue on Plaintiff's filing of such written undertaking."

Pacific Legal Foundation v. California Costal Comm'n, "The court can recall the remittitur if the appellate judgment resulted from a fraud or 'imposition' perpetrated upon the court. " Although this case says nothing of fraud or imposition perpetrated by the court, with an Administrative Presiding Justice ignoring she was evidenced of such and evidenced of her own involvement when denying an anti-SLAPP in 2006; and with the Fourth District Division One Appellate Court being the beneficiary of a new malicious litigation to gag Kramer; a recall of the remittitur in this case would appear to be legally required to stop the court from covering up that they have been aiding insurer fraud in health policy by aiding with a strategic litigation carried out by criminal means to silence a Whistle Blower. It is also

1	required so as not to put the Honorable Judge Thomas Nugent in a compromised
2	position when Kramer files a new anti-SLAPP motion in the new case while
3	detailing the fraud in the Opinion as the primary reason for strategic litigation
4	against public participation.

Sharon Kramer 2031 Arborwood Place Escondido, CA 92029 760-746-8026

Justice Judith McConnell Administrative Presiding Justice Fourth District Division One Appellate Court

Honorable Justice McConnell,

I am attaching a Motion to Recall and Rescind The Remittitur. I am filing a complaint under Local Rule of the Court, Policy Against Bias, 1.2.1. This policy states, "It is the policy of the court to provide an environment free of all types of bias, prejudice, any kind of discrimination, or unfair practice. All judges, commissioners, referees, court officers, and court attachés must perform their duties in a manner calculated to prevent any such conduct, either by court personnel or by those appearing in court in any capacity....Any violation of this policy by any judge, commissioner, referee, court officer, or court attaché should be reported directly to the presiding judge or executive officer, or assistant executive officer of the division in which the alleged violation occurred."

. I would like for you to review how it is even remotely possible that your court can repeatedly ignore evidence of criminal perjury in a strategic litigation by authors of fraudulent health policy for the American College of Occupational and Environmental Medicine (ACOEM) and the US Chamber of Commerce.

I would like for you to review how it is even remotely possible your court could deem one who has helped to change US public health policy for the good of the public to be a "malicious liar" without a shred of evidence ever presented that she was ever impeached as to the subjective belief in the validity of her words.

I would like for you to review how it is even remotely possible that a retired high level CDC NIOSH employee could be an undisclosed party to a litigation for six years; and still end up awarded costs by a party that prevailed over him and four other owners of the corporation VeriTox, Inc., in trial.

I would like an explanation of why your did not acknowledge a prior complaint on the same matter, filed on September 17, 2010; or take any action.

Under California Rules of the Court 10.603(f)(3). "The presiding judge must give written notice of receipt of the complaint to the complainant."

California Rules of the Court 10.603(g)(4) states, "The court must maintain a file on every complaint received, containing the following:(A) The complaint;(B) The response

of the subordinate judicial officer, if any;(C) All evidence and reports produced by the investigation of the complaint, if any; and(D) The final action taken on the complaint."

California Rules of the Court 10.603(i)(5) states, "If the presiding judge terminates the investigation and closes action on the complaint, the presiding judge must:(A) Notify the complainant in writing of the decision to close the investigation on the complaint. The notice must include the information required under (I)" which states: "When the court has completed its action on a complaint, the presiding judge must promptly notify the complainant and the subordinate judicial officer of the final court action.(2) The notice to the complainant of the final court action must:(A) Provide a general description of the action taken by the court consistent with any law limiting the disclosure of confidential employee information; and (B) Include the following statement: If you are dissatisfied with the court's action on your complaint, you have the right to request the Commission on Judicial Performance to review this matter under its discretionary jurisdiction to oversee the discipline of subordinate judicial officers. No further action will be taken on your complaint unless the commission receives your written request within 30 days after the date this notice was mailed. The commission's address is: Commission on Judicial Performance 455 Golden Gate Avenue, Suite 14400 San Francisco, California 94102"

Sincerely,

Mrs. Sharon Noonan Kramer

CC: California Commission On Judicial Performance

Court of Appeal

FOURTH DISTRICT, DIVISION ONE 750 B STREET, SUITE 300 SAN DIEGO, CALIFORNIA 92101-8196

CHAMBERS OF
JUDITH McCONNELL
PRESIDING JUSTICE

January 21, 2011

Sharon Kramer 2031 Arborwood Place Escondido, CA 92029

Dear Ms. Kramer:

I have received your letter dated January 19, 2011. The rules you refer to apply to the trial courts and not to the Courts of Appeal. We do not have subordinate judicial officers.

Because your complaint deals with dissatisfaction with legal rulings, I do not think it appropriate to comment further.

Very truly yours,

JUDITH McCONNELL

Presiding Justice

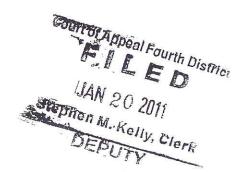

JM/jp

COURT OF APPEAL - STATE OF CALIFORNIA

FOURTH APPELLATE DISTRICT

DIVISION ONE

BRUCE J. KELMAN et al.,
Plaintiffs and Respondents,
v.
SHARON KRAMER,
Defendant and Appellant.
D054496
San Diego County No. GIN044539

THE COURT:

Appellant's "Motion to Recall & Rescind Remittitur" the remittitur which issued on December 20, 2010 is DENIED.

Acting Presiding Justice

cc: All Parties

Mrs. Sharon Noonan Kramer 2031 Arborwood Place Escondido, CA 92029

Tele: (760) 746-8026 Fax: (760) 746-7540 Email: SNK1955@aol.com

February 10, 2011

To the:

- Honorable Justice Judith McConnell, Chair of the CA Commission on Judicial Performance,. Admin Presiding Justice, Fourth District Div. One
- Honorable Justice Patricia Benke, Fourth District Division One
- Honorable Jerry Brown, Governor of California, President of the Regents of UC
- Honorable Kamala Harris, California Attorney General
- Honorable Tani Cantil-Sakauye, Chief Justice California Supreme Court
- Honorable Bill Hebert, President of the California State Bar,
- Honorable California Commissioners on Judicial Performance
- Honorable James Towery, Cal State Bar Chief of Trial Counsel, Intake Unit,
- Honorable San Diego County District Attorney, Bonnie Dumanis, Board Member Ca State Bar and Advisor to the Attorney General Harris
- Honorable Justice Richard Huffman, Fourth District, Division One and California Judicial Council Member
- Honorable Justice Joann Irion, Fourth District Division One
- Honorable Justice Cynthia Aaron, Fourth District Division One
- Honorable Justice Alex McDonald, Fourth District Division One
- General Counsel, Regents of the University of California, Mary MacDonald
- Honorable Judge Kevin Enright, Presiding Judge of the Superior Court of California, County of San Diego, Judicial Council Advisor
- Honorable Eric Holder, Attorney General of the United States

The Death Of Democracy In The California Legal System On Behalf Of The Affiliates Of The US Chamber Of Commerce, While Leaving California and US Workers & Citizens Maimed and Deceased

Re: Letter received from the Honorable Justice Judith McConnell, January 19, 2011, regarding her and the Fourth District Division One Appellate Court's role in aiding insurer unfair advantage in California policy, aiding strategic litigation carried out by criminal means, bias in the courts & using the courts to promote the political whims of the past Governor of California, Arnold Schwarzenegger, adverse to the public's best interest. The ongoing saga of Kelman v. Kramer,

Honorable Justice McConnell (and Honorable Justice Benke et. al.),

Thank you for your reply letter of January 21, 2011, in response to my January 19, 2011 letter. In your letter, you state that as the Presiding Justice of the Fourth District Division One Appellate Court you have no duty under Local Rule 1.2.1 Policy Against Bias because my "complaint deals with dissatisfaction with legal rulings" you "do not think it appropriate to comment further"; and the policy against bias "rules [I] refer to apply to the trial courts and not to the Court of Appeal".

With all respect due, I disagree. By law, it is more than appropriate that you comment further, Justice McConnell. It is not my "dissatisfaction with legal rulings". It is my dissatisfaction with your and Justice Benke's et. al., illegal rulings in your unpublished Opinions written in 2006 along with Justices McDonald & Aaron; and Justice Benke's in 2010 along with Justices Huffman and Irion. Your Opinions, when compared against the undisputed facts in the court records, are like reading tales of two different lawsuits.

Both of your unpublished Opinions ignored the undisputed evidence of the crimes of perjury and suborning of perjury by an author of environmental policy for the US Chamber of Commerce, Bruce ("Kelman") and his "legal" counsel, Keith ("Scheuer") to establish false yet needed reason for malice in a libel litigation. Both ignored there is no evidence in the case of me even once being impeached as to the subject belief in the validity of my words that Kelman "altered his under oath statements" to hide the true connection of how the ('US Chamber") of Commerce got their unclean hands into health policy over the mold issue, by being closely associated with the American College of Occupational and Environmental Medicine ("ACOEM"), to propagate biased thought based on scant scientific foundation for the purpose of limiting insurer liability for causation of illness and death.

Both Opinions ignored the fact that in this libel litigation, the courts cannot even state what is incorrect of my purportedly libelous writing of March 2005. Both ignored there is a stealth party to this litigation, Bryan ("Hardin"). He is the never disclosed on Certificates of Interested Parties, sixth owner of VeriTox, Inc and retired Deputy Director, Centers for Disease Control & Prevention, National Institute for Occupational Safety and Health, ("NIOSH"). VeriTox was formerly known as ("GlobalTox"). He is also a co-author of the fraud in policy on behalf of the affiliates of the US Chamber and ACOEM.

As you are both evidenced of being aware, this litigation has aided with the continuance of the false concept in California workers comp policy and US public health policy that it is scientifically proven water damaged buildings ("WDB") pose no harm to human health. Under the premise of workers comp "reform" Governor Schwarzenegger endorsed this false scientific concept into occupational medicine policy in October of 2005.

This endorsement came one month after the first lower court judge denied my anti-SLAPP motion over the first public writing (mine) to expose how the scientific fraud in health policy was being marketed. This was the first of many courts to ignore the evidence of perjury by the US Chamber & ACOEM policy author, Kelman, and suborning of perjury by his California licensed attorney, Keith ("Scheuer") to establish malice. As you are aware, Kelman claimed to have given a testimony in my own mold litigation of long ago that made me "launch into an obsessive campaign" to destroy his reputation. All of you have been provided direct and impeaching evidence proving he never even gave the purported malice causing testimony. He committed perjury to make up a reason of why I would write of the fraud in policy, and the courts turned a blind eye to the irrefutable evidence of the perjury for six years.

All of the judiciaries to have overseen this case have been evidenced of the criminal perjury to establish false extenuating circumstances for malice in a strategic libel litigation. One will find this referenced and evidenced extensively in the court records, on tape of oral argument before the Appellate Court and even on video in Kelman's own words while in deposition. But one will never find any mention of this irrefutable evidence in any ruling or Opinion.

This is called: Judiciaries aiding and abetting criminal activity in malicious litigation over a matter adverse to public health, while aiding enterprises of insurer unfair advantage in claims handling practice and litigation, interstate. This is also called: RICO.

As endorsed into policy by Arnold Schwarzenegger, Governor State of California, Kimberly Belshé, Secretary Health and Human Services Agency, Sandra Shewry, Director Department of Health Services, John Rea, Acting Director Department of Industrial Relations in October of 2005:

"Physicians can refer to the American College of Occupational and Environmental Medicine (ACOEM) statement, Adverse Human Health Effects Associated with Molds in the Indoor Environment. www.acoem.org/guidelines/article.asp?ID=52."

The following are falsehoods in science and policy as found within the ACOEM statement that have aided workers comp insurers to shift cost of illness from water damaged buildings ("WDB") onto state and federal taxpayer funded disability and social service programs, while adding to the debt burden on taxpayers in the State of California:

In recent years, the growth of molds in home, school, and office environments has been cited as the cause of a wide variety of human ailments and disabilities. So-called "toxic mold" has become a prominent topic in the lay press and is increasingly the basis for litigation when individuals, families, or building occupants believe they have been harmed by exposure to indoor molds. ... Except for persons with severely impaired immune systems, indoor mold is not a source of fungal infections. Current scientific evidence does not support the proposition that human health has been adversely affected by inhaled mycotoxins in home, school, or office environments.

There is no scientific foundation what so ever that only the severely immune compromised are harmed by molds and their toxins found in WDB's, nor was this ever current accepted science. It is a scientific fraud used by the insurance industry to deny liability for causation of illness. It was legitimized by ACOEM in 2002, who writes California workers comp policy occupational physicians must follow under Senate Bill 899. It was then mass marketed to the courts in 2003 by the US Chamber of Commerce in an insurer cost shifting scheme of epic proportion; of which you both are evidenced of being well aware.

Both ACOEM's and the US Chamber's papers carry the name "University of California" in implied credentialed endorsement that sways courts to believe the science is legitimate, intrastate and interstate. The Regents of the UC have been profiting from this scientific fraud for years. When their employees testify as insurer defense witnesses in mold litigations the Regents keep over half the monies generated from the expert witness fees, while families of the sick and deceased can receive no restitution for the true causation of illnesses and death.

The UC has also accepted federal funds from NIOSH used to hold mock mold trials in physician "educational" seminars at UCLA/UC Irvine, based on the teaching of the ACOEM mold statement. These seminars are taught by ACOEM members who are also employees of the Regents and who also generate income for the Regents by serving as expert defense witnesses in mold litigations.

The following are excerpts from my purportedly libelous writing of March 2005 that the California courts have done everything possible to try to discredit and gag me for *six years* for daring to write the truth of a fraud in health and workers comp policy that Governor Schwarzenegger endorsed, adverse to workers' and the public's best interest:

"Upon viewing documents presented by the Hayne's attorney of Kelman's prior testimony from a case in Arizona, Dr. Kelman altered his under oath statements on the witness stand. He admitted the Manhattan Institute, a national political think-tank, paid GlobalTox \$40,000 to write a position paper regarding the potential health risks of toxic mold exposure. Although much medical research finds otherwise, the controversial piece claims that it is not plausible the types of illnesses experienced by the Haynes family and reported by thousands from across the US, could be caused by "toxic mold" exposure in homes, schools or office buildings. In 2003, with the involvement of the US Chamber of Commerce and ex-developer, US Congressman Gary Miller (R-CA), the GlobalTox paper was disseminated to the real estate, mortgage and building industries' associations. A version of the Manhattan Institute commissioned piece may also be found as a position statement on the website of a United States medical policy-writing body, the American College of Occupational and Environmental Medicine."

The San Diego Reader recently ran an article titled "Well Behaved Women Rarely Make History". It writes of your pioneering role, Justice McConnell, in stopping bias against women in the legal profession. With all respect due, I did not walk into a restaurant in downtown San Diego with a couple of my girl friends in the seventies like you did; bluff and intimidate a maître d' by citing known irrelevant case law from New York; and demand that females in the legal profession in San Diego deserve a spot at the table in the local Good Ole Boys Club.

I walked into Washington DC in 2005, armed with legitimate legal documents; evidence of innocent people losing everything from a fraud in policy; and ethical scientists and knowledgeable physicians supporting that I was telling the truth. I demanded that the federal government stop Good Ole Boys and Good Ole Girls from promoting false science that one could apply math to data from a single rat study and prove health policy should be that thousands of sick and deceased workers and citizens were just liars out to scam insurers as to what caused their illnesses and deaths. From the new book "Surviving Mold" by Dr. Ritchie Shoemaker on the subject:

"That area of enquiry subsequently led to a request from Senator Kennedy's office in October 2006 to the General Accountability Office for a review of the Federal effort. Again, Sharon Kramer's incredible effort was instrumental in the GAO request that led in turn to the 2008 US GAO report that completely destroyed the defense or government Nay-sayers' credibility in mold illness issues. Thanks to Sharon and Senator Kennedy's staff, the longstanding idiotic arguments about mycotoxins alone being the problem from WDB have now been put to rest, with the exception of some really primitive defense attorneys who don't know that the old ACOEM-quoting defense and the old AAAAI quoting defense are a prescription for a loss in court."

My purportedly libelous writing of March 2005 speaks for itself as being completely accurate, as you are both evidenced of being well aware. Double speak used in Opinions, when one reads between the lines, the courts cannot even cite what is inaccurate in the writing. As accurately stated in my writing, Kelman and GlobalTox were paid by the Manhattan Institute to write a paper that was mass marketed by the US Chamber of Commerce. A version of this think-tank paid for hire work was another marketing piece of propaganda in medical science legitimized by ACOEM. ACOEM mass marketed into health policy.

As evidenced above, I knocked the scientific fraud that was caused by White Collars teaming up with White Coats to perpetrate a fraud in policy, out of federal ball park by being instrumental in causing a Federal Government Accountability Office audit into the true current understanding of the health effects of mold. You are both evidenced of being made aware of this fact many times over. Although one would never know that from reading your Opinions and letters.

In your unpublished Opinion of 2006, Justice McConnell, covered up by your unpublished Opinion in 2010, Justice Benke, you deemed that a prima facie showing of the falsehood of my writing had been established; while interpreting Kelman's testimony in question, *exactly* how I had written it. From your 2006 anti-SLAPP Opinion, page 10, Justice McConnell:

"This testimony supports a conclusion Kelman did not deny he had been paid by the Manhattan Institute to write a paper, but only denied being paid by the Manhattan Institute to make revisions of the paper issued by ACOEM. <u>He admitted being paid by the Manhattan Institute to write a lay translation...</u> In sum, Kelman and GlobalTox presented sufficient evidence to satisfy a prima facie showing the statement in the press release was false" And on page 20, "The order is affirmed. Kelman is awarded costs on appeal". McConnell, McDonald, Aaron, November 16, 2006.

From my purportedly libelous writing of March 2005 stating the same thing:

He admitted the Manhattan Institute, a national political think-tank, paid GlobalTox \$40,000 to write a position paper regarding the potential health risks of toxic mold exposure... A version of the Manhattan Institute commissioned piece may also be found as a position statement on the website of a United States medical policy-writing body, the American College of Occupational and Environmental Medicine."

From your unpublished Opinion of 2010, Justice Benke, covering up for what Justice McConnell et al, did in 2006, that has aided with insurer unfair advantage remaining in California workers comp policy and US public health policy since 2006, now five years:

"In our prior opinion, we found sufficient evidence Kramer's Internet post was false and defamatory as well as sufficient evidence the post was published with constitutional malice. We also found there was sufficient evidence to defeat Kramer's claim she was protected by the fair reporting privilege provided to journalists by Civil Code section 47, subdivision (d)(1). Under the doctrine of the law case, these determinations are binding on us and compel us to find there is sufficient evidence to support the jury's determination Kramer libeled Kelman and was not entitled to the fair reporting privilege.

We find no error in the trial court's award of costs. Accordingly, we affirm the judgment....

Application of the law of the case doctrine disposes of Kramer's initial argument on appeal that the trial court erred in relying on our prior opinion in framing the issues tried on remand. The trial court was bound by our determinations of law and thus did not err in relying on those determinations in framing the issues for trial...

We do not propose to catalogue or to attempt to conjure up all possible circumstances under which the 'unjust decision' exception might validly operate, but judicial order demands there must at least be demonstrated a manifest misapplication of existing principles resulting in substantial injustice before an appellate court is free to disregard the legal determination made in a prior appellate proceeding."...

Our review of our prior opinion does not show our analysis of the evidence of falsity and malice or our application of the fair reporting privilege were in any sense manifestly incorrect or radically deviated from any well-established principle of law. Thus any disagreement we might entertain with respect to our prior disposition would be no more than that: a disagreement. Given that circumstance and the fact that only nominal damages were awarded against Kramer, the value of promoting stability in decision making far outweighs the value of any reevaluation of the merits of our prior disposition. Benke, Huffman, Irion September 13, 2010.

In the case of <u>Kelman v. Kramer</u>, GIN044539/ D054496, the sole claim of the case was that my phrase "altered his under oath statements" was a maliciously false accusation of perjury (coincidentally in the first public writing to expose how ACOEM and the US Chamber were connected to market a fraud in health policy that gives insurers unfair advantage, interstate). Now we have a new malicious lawsuit, Case No. 37-2010-00061530-CU-DF-NC <u>Kelman v. Kramer</u>, North San Diego Superior Court, Department 30, the Honorable Judge Thomas Nugent presiding, filed November 4, 2010.

As you are both evidenced of being aware, Kelman is now seeking an injunctive relief that I be gagged from "stating, repeating, publishing or paraphrasing, by any means whatsoever, any statement that was determined to be libelous in the action titled <u>Kelman v Kramer</u>, San Diego Superior Court Case No. Gin 044539" As you both are evidenced of being aware, he then goes on to deem that I should be gagged from writing words far beyond only the five for which I was sued, "altered his under oath statements."

To quote from the injunctive relief motion, the following is what Kelman and his California licensed attorney, Scheuer, are seeking I be gagged from ever writing again:

"The libelous passage of the press release states: 'Dr. Bruce Kelman of GlobTox, Inc, a Washington based environmental risk management company, testified as an expert witness for the defense, as he does in mold cases through the country. Upon viewing documents presented by the Hayne's [sic} attorney of Kelman's prior testimony from a case in Arizona, Dr. Kelman altered his under oath statements on the witness stand. He admitted the Manhattan Institute, a national political think tank, paid GlobalTox \$40,000 to write a position paper regarding the potential health risks of toxic mold exposure."

I was only sued for five words, "altered his under oath statements". I am published in a peer reviewed medical journal using most of the above words that are of how it became a fraud in US (and California health policy) that WDBs do not harm people. From my writing that was published in the International Journal of Occupational and Environmental Health, September 2007, "ACOEM A Professional Association In Service To Industry" that you have both seen:

"In the spring of 2003, Veritox, [formerly known as GlobalTox] a risk-management company that provides defense testimony in mold litigation, and of which two of the authors of the JOEM article are principals, was paid \$40,000 by the Manhattan Institute to convert the ACOEM Statement on Mold into a "lay translation" to be shared through the United States Chamber of Commerce with stakeholder industries—real estate, mortgage, construction, and insurance. The authors unfairly presented the essence of the mold controversy as, 'Thus the notion that 'toxic mold' is an insidious secret 'killer' as so many media reports and trial lawyers would claim is 'junk science' unsupported by actual scientific study."

So who benefits from seeing me gagged from writing of this case and for words which I was never even sued, in this new malicious litigation? Answers:

Those California judiciaries who have established new stealth case law in the State of California that if one is an author of policy for the US Chamber and it aids the insurance industry under the whims of governors to shift cost onto the public, they and their attorneys are permitted to maliciously and strategically litigate by criminal means to silence, vex, harass, demean discredit and financially cripple anyone who speaks out of fraud in the governor's policy that is harming the public.

Those judiciaries who have established new stealth case law that if a California citizen dares to speak and write of the fraud in policy that has been aided to continue by the courts; the courts will deem them a liar and malicious aid to force them into silence without a shred of evidence required impeaching them of the subjective belief in the validity of their words; or even any evidence required to establish that their words are incorrect.

Those judiciaries who have sold the First Amendment of the Constitution to the US Chamber of Commerce; and the California legal system policing agencies who have turned a blind eye in incestuous Deliberate Indifference.

"Well behaved women rarely make history". Justice McConnell and Justice Benke, what your misbehavior is pioneering as your future legacy in history is fear of retribution from Good Ole Girls in black robes for any California citizen who dares to speak out for the public good against the interests of the affiliates of the US Chamber of Commerce. You are pioneering fear of retribution for any California judiciary who dares to try to follow the law for the public good and for the sake of Democracy, if it is adverse to your interests and the interests of the US Chamber of Commerce.

You both took an under oath pledge to uphold the Constitution on behalf of the citizens of California and the United States. As taken from the website of the San Diego Lawyer's Club which you, Justice McConnell, helped to form forty years ago to stop bias in the courts:

"Section 3 of article XX of the California Constitution requires that judges, among others, take and subscribe an oath that, in pertinent part, reads as follows: "I,_______, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of California against all enemies, foreign and domestic; that I will bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of California; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter."

You have now both become threats to the cherished Democracy you were elected and appointed to uphold and protect. Once you have given your robes to whims of politicians and the political fervor of the moment, they will never let you wear them again without always monitoring and influencing your actions as judiciaries in reviewing courts and on reviewing committees. Your robes will show as being soiled in your future rulings and reviews of the works of other judiciaries until the day you step down from the bench.

What you have both proven along with four other justices of the Fourth District Division One Appellate Court, is that you are not concerned of protecting the public's health and safety; or protecting women or children from bias; or upholding the Constitutions of California and the United States; or protecting speech for the public good. You are only concerned of keeping your seats at the table of the Good Ole Boys Club that has now also become the Good Old Girls Club. You have become the epitome of what you set out to change many, many, long years ago.

By law, Justice McConnell, it is more than appropriate that you comment. Our courts (including the California Supreme Court that refused to hear this case, *twice*, as signed by Chief Justice Ron George) and the state agencies that are to police our courts are not playgrounds for those who would put the whims of politicians over the best interest of the public, over the Constitution of California and the over the Constitution of the United States. It is wrong of you and it is *illegal*, Justices McConnell and Benke, to put others in positions of having to choose between loyalties to you in your good ole positions of power and influence; or of upholding the Constitutions of California and of the United States.

You need to fall on your political swords as you step down from the bench, Sisters. Because of you, some good people are unnecessarily dying while other good people and Democracy are being dragged along by you down a murky, twisted path of no return.

The Honorable Thomas Nugent who as been assigned this newest malicious litigation is soon to retire. He has a long and distinguished career and is well known as being an honest, ethical judge. The tangled web you have woven places him in the precarious position in this newest malicious litigation of either following Constitutional law and protecting my First Amendment rights; or covering up for the two of you by ordering I should be gagged from writing the truth of the fraud in policy and the truth of your fraudulent Opinions in lawsuit of Kelman v. Kramer.

I did not even bother filing an anti-SLAPP motion in this newest litigation. I could not, as any anti-SLAPP appeal would go right to you, Justice McConnell, as the Fourth, One, Administrative Appellate Presiding Justice. You, the one who would benefit most by seeing me be gagged by this newest Strategic Litigation Against Public Participation.

I cannot even get an attorney to represent me in this newest malicious litigation. They are afraid of you and retaliation by the Good Ole Boys and Girls Club when the interests of the US Chamber of Commerce are involved. They know that once you have shared your Black Robes with the White Collars and White Coats, you never fully own them again. It could ruin their careers and their families' lives to become involved in this case. Democracy and freedom of speech for the public good in California have been strangled to death by your unclean hands.

California Rules of the Court ,10.1004(b) states, "The administrative presiding justice is responsible for leading the court, establishing policies, promoting access to justice for all members of the public, providing a forum for the fair and expeditious resolution of disputes, and maximizing the use of judicial and other resources."

Canon 3D(1). Disciplinary Responsibilities states, "Whenever a judge has reliable information that another judge has violated any provision of the Code of Judicial Ethics, the judge shall take or initiate appropriate corrective action, which may include reporting the violation to the appropriate authority".

Canon 3D(2) states, "Whenever a judge has personal knowledge that a lawyer has violated any provision of the Rules of Professional Conduct the judge shall take appropriate corrective action."

The court records and the certified letters I have sent to you and others, speak for themselves of how many times you, in the capacity of Chair of the California Commission on Judicial Performance and elected Administrative Presiding Justice of the San Diego courts, have been provided irrefutable evidence of the crimes of perjury and suborning of perjury by Kelman and his lawyer, Scheuer, going ignored in your courts. The court rulings and Opinions also speak for themselves by their willful omission of the undisputed and irrefutable evidence found in the court records of crime in a strategic litigation over a matter of public health. Your Opinions are fraudulently beneficial to the interests of the affiliates of US Chamber of Commerce.

This crime and the California courts' *illegal rulings* have cost my family everything we own for me not to be silenced of a deceit in science and policy that aids with a multibillion dollar intrastate and interstate insurer cost shifting scheme, while leaving the sick nowhere to turn for help. I have no intention of being forced into silence by your illegal rulings and Opinions going ignored in the California "legal" system.

Justice McConnell and Justice Benke (along with the other Justices of the Fourth, Div. One), you now have personally vested interests in seeing me be *illegally gagged* by the courts from ever being able to write of this case and the following truthful words that are at the heart of how it became a fraud in policy that mold does not harm; and involving a California medical policy writing body and a paid for hire endeavor on behalf of the affiliates of the US Chamber of Commerce:

"He admitted the Manhattan Institute, a national political think-tank, paid GlobalTox \$40,000 to write a position paper regarding the potential health risks of toxic mold exposure.... A version of the Manhattan Institute commissioned piece may also be found as a position statement on the website of a United States medical policy-writing body, the American College of Occupational and Environmental Medicine."

If I showed you that other pioneering women in the legal profession are dying, would you and the State of California then be interested in following the laws that govern proof of libel and what courts and legal system governing bodies are required by law to do when a litigant is irrefutably evidenced to be litigating by criminal means adverse to the public's best interest? Because judges *are* dying and you and your courts' willful disregard for the laws that govern proof of libel with actual malice used to discredit a truthful whistle blower are aiding and abetting it to continue. From the Miami Herald, January 11, 2011:

"Concerning that a 52-year-old Florida jurist's death from lung cancer last month may have been linked to courthouse mold, three of Judge Cheryl Aleman's colleagues on the ninth floor have moved their chambers out of the Broward County Courthouse and are seeking environmental testing. 'There were issues with a serious illness with one or more judges in the area,' Judge Patti Englander Henning tells the Miami Herald. 'Prudence suggested that we request to be moved until they can test and determine what the problem is and how it can be remedied. And obviously, it was a valid enough claim that they were good enough to move us."

Odds are that this deceased judge just needed some anti-fungals to kill the mold growing in her lungs and she would still be here today. But by aiding with a malicious litigation carried out by criminal means by authors of the ACOEM and US Chamber policies on mold; you have aided in keeping the physicians misinformed of this fact. You have aided to promote the continuance of fraud in medical teaching universities that aids insurers to deny proof of causation of illness and death, that "Except for persons with severely impaired immune systems, indoor mold is not a source of fungal infections" ACOEM Mold Statement 2002, authors, Bruce Kelman and Bryan Hardin of VeriTox, Inc along with Andrew Saxon, UCLA.

I am a citizen of the State of California who went above and beyond for my fellow man and who has been maliciously and falsely deemed a "malicious liar" by the courts with not a shred of evidence to support this finding, adverse to the public's best interest and to the benefit to the financial interests of the affiliates of the US Chamber of Commerce, primarily the insurance industry.

I am a victim of crime in the California courts that judiciaries have aided for six years by repeatedly pretending they were not undisputedly evidenced of the crimes of perjury and suborning of perjury to try to silence me of a fraud in health policy.

The Commission on Judicial Performance has not stopped it. The State Bar has not stopped. The California Supreme Court has not stopped it. The San Diego County District Attorney, Bonnie Dumanis, has not stopped it.

As such, I am now being victimized again by a new malicious prosecution that would gag me of writing of the courts' involvement in aiding insurer fraud by aiding with a malicious litigation carried out by criminal means; of which not only the courts would now benefit from seeing me gagged; but all the California government legal system policing agencies who have turned a blind eye to crime in the courts by author of policy for the US Chamber of Commerce and ACOEM, in incestuous Deliberate Indifference.

Canon 2 A. Promoting Public Confidence

A judge shall respect and comply with the law* and shall act at all times in a manner that promotes public confidence in the integrity and impartiality of the judiciary.

Canon 2 B. Use of the Prestige of Judicial Office

(1) A judge shall not allow family, social, political, or other relationships to influence the judge's judicial conduct or judgment, nor shall a judge convey or permit others to convey the impression that any individual is in a special position to influence the judge.

Canon 3 B. Adjudicative Responsibilities

- (2) A judge shall be faithful to the law* regardless of partisan interests, public clamor, or fear of criticism, and shall maintain professional competence in the law.
- (5) A judge shall perform judicial duties without bias or prejudice. A judge shall not, in the performance of judicial duties, engage in speech, gestures, or other conduct that would reasonably be perceived as (1) bias or prejudice, including but not limited to bias or prejudice based upon...disability.... [Sic, bias against a class of people those disabled by molds who are costly for insurers and affiliates of the US Chamber of Commerce; along with bias to the point of aiding criminal activity in legal proceedings against their advocates].
- (8) A judge shall dispose of all judicial matters fairly, promptly, and efficiently. A judge shall manage the courtroom in a manner that provides all litigants the opportunity to have their matters fairly adjudicated in accordance with the law.

Canon 3 C. Administrative Responsibilities

(1) A judge shall diligently discharge the judge's administrative responsibilities impartially, on the basis of merit, without bias or prejudice, free of conflict of interest, and in a manner that promotes public confidence in the integrity of the judiciary.

Canon 3 D. Disciplinary Responsibilities

- (1) Whenever a judge has reliable information that another judge has violated any provision of the Code of Judicial Ethics, the judge shall take or initiate appropriate corrective action, which may include reporting the violation to the appropriate authority.
- (2) Whenever a judge has personal knowledge that a lawyer has violated any provision of the Rules of Professional Conduct, [sic, a defendant's uncontroverted evidence of willful and repeated suborning of perjury by the plaintiff's attorney to create false extenuating circumstances, false theme of personal malice to inflame the courts for *six years* in the San Diego Court system] the judge shall take appropriate corrective action.

Again, from your 2006 unpublished anti-SLAPP opinion, Justice McConnell, falsely deeming my truthful whistle blowing as evidence of personal malice for Kelman; and as evidenced for you in 2010, Justice Benke, but not mentioned in your Opinion:

"Further, in determining whether there was a prima facie showing of malice, the trial court also relied on the general tone of Kramer's declarations. These declarations reflect a person, who motivated by personally having suffered by mold problems, is crusading against toxic mold and against those individuals and organizations who, in her opinion, unjustifiably minimized the dangers of indoor mold. Although this case involves only the issue of whether the statement "Kelman altered his under oath statements on the witness stand" was false and made with malice, Kramer's declarations are full of language deriding the positions of Kelman, GlobalTox, ACOEM and the Manhattan Institute. [Sic, the Appellate Court neglected to mention the US Chamber of Commerce and US Congressman Gary Miller (R-Ca)]

For example, Kramer states that people 'were physically damaged by the ACOEM Statement itself' and that the ACOEM Statement is a document of scant scientific foundation; authored by expert defense witnesses; legitimized by the inner circle of an influential medical association, whose members often times evaluate mold victims o[n] behalf of insurers and employers; and promoted by stakeholder industries for the purpose of financial gain at the expense of the lives of others.' (Appellant Appendix Vol.1 Ex.12:256, 257) [from the McConnell unpublished anti-SLAPP Opinion, 2006]

Both the Honorable Judge Michael P. ("Orfield") (retired) and the Appellate Court violated Kramer's constitutional rights of freedom of speech right out of the gate by deeming her a liar for her truthful words written in her defense within her declarations that are to be protected in a legal proceeding under review by a judicial body. C.C.P 425.16(e) (2) states, 'As used in this section, 'act in furtherance of a person's right of petition or free speech under the United States or California Constitution in connection with a public issue' includes: (2) any written or oral statement or writing made in connection with an issue under consideration or review by a legislative, executive, or judicial body, or any other official proceeding authorized by law'. Are litigants who are trying to blow a whistle not permitted to state their defense without fear of retribution?" (My Reply To Court's Query, Justice Benke, January 2010, page 3)

In summary, Tom Donahue's mother could not have written more biased, flawed, illegal and insurance industry beneficial Opinions. Please let me know how the new California Attorney General, the new Governor, the new Chief Justice of the California Supreme Court, the new President of the State Bar, the new State Bar Chief of Trial Intake Unit, the new US Attorney General, the CJP and the Regents of the University of California, will be addressing this. It has cost my family all we own to defend the truth of my words for the public good in the face of unbridled criminality in malicious litigations that are politically motivated and have been aided by the California courts.

I especially look forward to your replies to this letter, Honorable Justice McConnell and Justice Benke; and yours, District Attorney Dumanis, who refused to take action against sisters in the San Diego Lawyers' Club. Your courts have stolen six years from me as I have been forced to watch in horror as innocent people lose everything, sometimes even their lives. You have willfully ruined my good name in the process by avoiding rules of law you are *all* in place uphold on behalf of the public you have been elected and appointed to serve. You have stolen my First Amendment rights and given them to the US Chamber of Commerce.

Now, if none of you, who have been sent this letter, move to stop this new malicious litigation; then *you are all aiding* with the California courts being *illegally used again* to try to gag me from ever writing of this shameful history made by misbehaving women in the California legal system; while aiding the Regents of the UC and the insurance industry to profit off of the misery and death of others at the expense of California and US taxpaying citizens. Now that you know what I know, for you to remain silent could only be deemed more Deliberate Indifference.

Your silence on the matter is not silent when you are where you are to implement actions that protect the public from corrupt judges, corrupt lawyers and corrupt professional witnesses with connections to write frauds policy that support their expert witnessing enterprises, favorable to the interests of insurance industry and the US Chamber of Commerce. Your jobs are to protect me from corruption and to protect Democracy in California and the United States.

If there is any evidence in existence that refutes my above well evidenced statements, now would be a good time to bring it to my attention. I will not be silenced. It is not going to happen. On behalf of myself, my family, and the citizens, workers and taxpayers of California and the United States and their families; I look forward to your prompt replies with your intents of how you will be rectifying this gravely serious matter.

Sincerely,

Mrs. Sharon Noonan Kramer
Thirty-three year resident, San Diego
County
Citizen of the State of California,
Citizen of the United States of America

CHAMBERS OF
JUDITH McCONNELL
PRESIDING JUSTICE

January 21, 2011

Sharon Kramer 2031 Arborwood Place Escondido, CA 92029

Dear Ms. Kramer:

I have received your letter dated January 19, 2011. The rules you refer to apply to the trial courts and not to the Courts of Appeal. We do not have subordinate judicial officers.

Because your complaint deals with dissatisfaction with legal rulings, I do not think it appropriate to comment further.

JUDITH McCONNELL

Presiding Justice

Sharon Kramer 2031 Arborwood Place Escondido, CA 92029 760-746-8026

Justice Judith McConnell Administrative Presiding Justice Fourth District Division One Appellate Court

Honorable Justice McConnell.

I am attaching a Motion to Recall and Rescind The Remittitur. I am filing a complaint under Local Rule of the Court, Policy Against Bias, 1.2.1. This policy states, "It is the policy of the court to provide an environment free of all types of bias, prejudice, any kind of discrimination, or unfair practice. All judges, commissioners, referees, court officers, and court attachés must perform their duties in a manner calculated to prevent any such conduct, either by court personnel or by those appearing in court in any capacity....Any violation of this policy by any judge, commissioner, referee, court officer, or court attaché should be reported directly to the presiding judge or executive officer, or assistant executive officer of the division in which the alleged violation occurred."

. I would like for you to review how it is even remotely possible that your court can repeatedly ignore evidence of criminal perjury in a strategic litigation by authors of fraudulent health policy for the American College of Occupational and Environmental Medicine (ACOEM) and the US Chamber of Commerce.

I would like for you to review how it is even remotely possible your court could deem one who has helped to change US public health policy for the good of the public to be a "malicious liar" without a shred of evidence ever presented that she was ever impeached as to the subjective belief in the validity of her words.

I would like for you to review how it is even remotely possible that a retired high level CDC NIOSH employee could be an undisclosed party to a litigation for six years; and still end up awarded costs by a party that prevailed over him and four other owners of the corporation VeriTox, Inc., in trial.

I would like an explanation of why your did not acknowledge a prior complaint on the same matter, filed on September 17, 2010; or take any action.

Under California Rules of the Court 10.603(f)(3). "The presiding judge must give written notice of receipt of the complaint to the complainant."

California Rules of the Court 10.603(g)(4) states, "The court must maintain a file on every complaint received, containing the following:(A) The complaint;(B) The response
