

## Lectures by Frances

### The Accidental Quilter

This lecture tells the story of how I accidentally became a quilter and not just any quilter but an obsessed quilter. Quilting has changed my life and gives me the opportunity to affect the lives of others. While free motion quilting is my forte I love all aspects of quilting. During the lecture I will have a trunk show with many quilts using various techniques and experiences that I will share with the audience.

## Lecture and Workshop Fees

- Travel expenses to and from event. If within driving distance, current IRS reimbursement rate will be charged.
- Lecture... Fee of \$275 covers a lecture of 45-60 minutes. Trunk show will include many quilts showing various techniques.
- Workshop... Fee of \$375 covers a 6 hour workshop. Maximum number of students is 25.

### Additional Information

Workshop can be tailored to suit your group's needs.

Available for private workshops and retreats.

## Frantastic Quilts

### Quilt Instructor

**“A day spent quilting is a good day, but a life spent quilting is a good life”**

## Workshops

**Swimming with the Fishes**

This is an advanced beginner project but complex enough to keep even the most experienced quilter interested. With this technique you get 2 blocks with every cut and construction.

**Wheel of Mystery**

This is a good introduction to curved piecing and the use of templates. Complete a unique quilt in very little time.

**Free Motion Quilting**

Drop those feed dogs and lower that tension dial! This class introduces the beginner to free motion quilting using a domestic machine, no frame and no marking. This can be a 4 hour class or 2-3 day retreat for more intensive learning experience.

**Feathering**

Spend a day learning how to quilt various types of feathers to use in borders, all over designs, sashing's, and unusual shapes on your quilt. No marking used. This class requires experience in free motion quilting.

**Improvitational Curve Piecing**

Learn how to cut these gentle curves and piece without clipping or using pins. A day spent with improvisation and very little use of rulers. It's a good thing!

**Card Tricks**

Make fun easy greeting cards using fabric and free motion quilting techniques.
