

YOUR NAME HERE IF:

.....you are one who understands that what California Court Officers and Clerks, Mr. Kelman and his attorney, Mr. Scheuer, have done in the SLAPP suits of Kelman & Veritox v. Kramer, is criminal and has aided the scientific fraud of Veritox's falsely claimed proof that these illnesses "Could not be" caused by microbial toxins to continue in policy and courts, but you stay silent while people are being devastated because....

Fear of retaliation. Everyone knows that people who speak out of mass fraud, get what they deserve.

Personal interest over that of your fellowman. If you speak out, it may cost you something.

You are way too cool to speak directly of the fraud. You'd rather just sit back and let others do that part.

You'd rather see it take 20 years to advance the science by political correctness, instead of just knocking out the fraud now. You sit on committees with some naysayers and would not want to offend them.

You've done too much mean spirited gossiping about Mrs. Kramer, which aided to confuse what's at stake with her case and the retaliation she has experienced to be horrific, to let it be known that you were wrong and your gossip helped to harm thousands by making it look like she doesn't know what she's talking about.

If it came to light that Mrs. Kramer was right about the courts, Mr. Kelman and Mr. Scheuer falsifying court documents and continuing to use them – particularly the 2008 Void Judgment and suborning of Mr. Kelman's perjury to manufacture a reason for personal malice; you might look like a professional fool for not understanding that this is the key to stopping the scientific fraud of Veritox in policy; thereby allowing true science to move forward more readily to save many lives.

If it came to light that Mrs. Kramer was right about them retaliating against her by criminal means, you would have to explain your role in making her appear to be wrong. So better it doesn't come to light even if thousands are still being harmed – who you profess to champion. (This one is mainly for a big time, self professed Christian, Mold Plaintiff attorney and a few non-profit directors)

You did something --like delete investigating who has conflicts of interest over this issue from a federal audit -- when the answer was known that it was federal contractors Veritox; the nation's biggest lobbyist, the US Chamber; and a federal legislator; thereby aiding the retaliation in the CA court to continue along with the scientific fraud in policy and all courts. So better for you if this matter stays hidden from light. Who gives a damn about all those sufferers.

Mrs. Kramer is friends with someone you don't like and don't want your name associated with, so you can't speak out of the fraud and the wrath she has experienced because it might help her friend; or God forbid, someone may think you agree with her friend on the science. Of the foremost importance is your reputation – much more so than stopping mass fraud. Therefore, your name can never be associated with certain others on anything, no matter how many lives are at stake.

Mrs. Kramer has said she doesn't like your friends. So you would rather support them more that you would like see the fraud out of policy which harms thousands you profess to be helping.

Mrs. Kramer can be a real ball breaker. So you would prefer to see the retaliation of her continue more than you would like to see the fraud stopped. Not liking her is a good reason to let thousands suffer and scientific fraud in policy continue.

You are more concerned of complaining about being sick and unable to get help, than you are actually concerned about doing anything to change that for yourself and many.

You don't think she can take down the corrupt courts of California for what they have done to aid Veritox's mass public defrauding to continue, so you remain silent while making it much harder for her and others to get the truth out.

If you are silent and you didn't know better or don't know what you can do to help or really are in a position to be unable to help, THAT is a different story!

And to those of you who have helped in the past and will in the future, THANK YOU!!!!
