Signature

During the months of November and December the market will host a Christkindlmarket on Saturdays from 9 to noon. We welcome guests who would like to demonstrate and/or give samples of favorite holiday recipes. The health department permits non-hazardous baked goods and candies (in other words, baked goods and candies that do not have to be refrigerated) to be sampled at the market even though they were prepared in a home kitchen. Any other dishes – meats, side dishes, appetizers, must be prepared in an inspected kitchen which the market has on site. The market will reimburse ingredient costs, if you desire, if you provide us with receipts. We will also provide any set up – tables, hand washing station, burners, serving cups/plates/napkins etc that might be needed and can photocopy the recipe if provided to us prior to the market. We look forward to celebrating the season with you!
