

Dear Mr Jefferson

I refer to your freedom of information request from Mid Ulster District Council reference no. 212-16.

The Council confirms that since its establishment on 1st April 2015 it has not closed any of its buildings within its existing building estate.

Mid Ulster Council was established on 1st April 2015 following a period of local government reform in Northern Ireland and as such its response refers to this period to date. As a Northern Ireland based local authority with a statutory remit that does not extend to same level of services as that provided by local authorities in the rest of the UK the council confirms that its Building Estate does not include those buildings/properties referenced in your request.
