

Hartlepool Council

Dear Lee

Please accept my apologies for the delay in responding to your request and your subsequent need to request an internal review. I have looked in to this matter and unfortunately, although the department provided the information to the FOI team, it was incomplete and had to be chased numerous times before we have finally received the information today. I'm sorry that this has happened and have spoken with the management team within the Regeneration and Neighbourhoods department to ensure staff are reminded of their duties in relation to the Freedom of Information Act 2000. I must also apologise that your reminder requests were not acknowledged, this is not usual practice and I had asked a member of staff to look in to your request and let you know that we were looking in to it, however this obviously didn't happen and again I must apologise.

The information we hold is as follows:

Financial LOCATION POSTCODE USE WHEN IN  
Year COUNCIL OWNERSHIP
