EARWIG ASSESSMENT

REBOUND THERAPY

**the low cost way to gather evidence and
measure and record pupil progress**

Rebound Therapy have negotiated a special deal for schools who want to use the resources of the Earwig software package to enable them to EVIDENCE, ASSESS and REPORT on the progress of each student using the Rebound Therapy development programme.

The Rebound Therapy training course teaches two methods of measurement of progress: the conventional 'tick' system for relatively able students, and the Huddersfield Functional Index for those with more profound or complex needs. Both methods are accommodated within the Earwig package.

The full Earwig Assessment package costs £1,000 p.a. plus £2 per pupil each year. But for those who only require it for Rebound Therapy and trampolining, a cut-down version of the package is available.....

for only **£250** +VAT per year

You get the full Earwig evidence capture, assessment and reporting facilities but limited to one single teacher login which can be used by any teacher. There are no limits to the number of pupils or the amount of video and photo evidence you wish to upload.

INCLUDED WITH THE EARWIG REBOUND THERAPY PACKAGE:

- 1 An app for fast evidence capture.
- 2 A dashboard to manage everything.
- 3 A timeline for each school and pupil.
- 4 Expectation setting & performance measurement.
- 5 Analysis, pupil and group reporting.
- 6 Video instruction for teachers at every stage.
