

Le Collezioni

Chardonnay - Grillo

Terre Siciliane

Indicazione Geografica Tipica

ORGANIC

Geographic Area

Western Sicily, in the area of Mazara del Vallo, province of Trapani.

Soil

Clayey.

Grape Varieties

Chardonnay, Grillo.

Harvest

It stretches over as long as four weeks, allowing for healthy, fully ripe grapes of distinct freshness and high aromatic expression. All the grapes are hand harvested.

Winemaking

Reductive vinification. This type of vinification is a new trend, which is increasing in Europe for the production of white and rosè wines. It is particularly suited to grape variety rich in varietal aromas that are sensitive to oxidation. The reductive vinification makes use of new systems able to ensure the protection against oxidation, especially during must extraction, by using inert gases such as CO₂ and N₂.

Style

Deep straw yellow in colour, this wine shows fruitness of citrus, grapefruits and ripe apples with a touch of ripe peaches and almonds. A crisp acidity guarantees a long and harmonious aftertaste.

Food Pairings

Great with a variety of fish and seafood dishes, mildly spiced chicken or white meat, fresh salads or just to be enjoyed by its own.

Serving temperature: 10-12 °C.

Alcohol: 13% vol.
