Subject: GIHN Newsletter for November 16, 2012
To: Cheryl Wisecup <cw7790@msn.com>

Our Newsletter for November 16 is attached.[<http://freepdfhosting.com/be4960f071.pdf>]
Our next Newsletter was scheduled for December 1, but we want to publish this now in order to be more timely because there are several articles relating to Superstorm Sandy. We have also included the announcement about the two corrections in our Position Statement.

Be sure to check out our Member Profile on Benedikt Sigurjonsson who is currently working with the World Health Organization in Bonn, Germany (see page 4).

Please join me in welcoming our newest member--Sharon Malone (Texas).

There are dozens of additional articles posted on our Facebook page and on our Twitter feed. Please be sure to "Like" our page on Facebook and follow us on Twitter (@GlobalIHN).

We are continuing to see a high level of traffic to our website from visitors around the world and an increased level of traffic from locations affected by Superstorm Sandy.

Thanks again for all you do to spread the truth about this important public health issue.
