Dear Ms. Cheadle and Ms. Spero,

I just went on the Judicial Council website. My public comment that you all told me would be part of the public record [via the direction of Justice Douglas Miller](#), Chair of the Executive and Planning Committee, is [not there in its entirety](#).

My written communication, "[second letter](#)" is cut off on your website. Missing are the public comments I relayed on behalf of many others regarding how extrinsic fraud and AOC employee document falsifications in SLAPP, are aiding federal contractors, Veritox, Inc. to fleece and devastate the public with scientific fraud - and what act is necessary by AOC Director, Judge Stephen Jahr to stop the public fleeing.

Please update your website to reflect the entire second letter that was sent by me to be read by the Judicial Council members and the Director of the AOC, Jahr.

My "second letter" is [attached to an email, again](#), for you be able to print and share with the California Court leaders.

Please send me confirmation, signed by Justice Miller, to verify that my correspondence has been shared with the Judicial Council members and AOC Director Jahr in its entirety.

These games must cease. There is no way around it. Until the Judicial Council and Director Jahr acknowledge the felonious falsifications of material court documents by AOC employees in the matter of Bruce J. Kelman & GlobalTox, Inc. v Sharon Kramer, San Diego Superior Court, many lives will continue to be unnecessarily devastated by the scientific fraud that the document falsifications are aiding to continue. .

Thank you for your prompt attention to this matter,  
Sharon Kramer
