

Mr Jefferson

I apologise for the delay in providing the information. It has taken longer than expected to confirm retrospectively the reasons for building vacations.

NYCC reviews regularly its service provision taking into account changes to good practice, service delivery philosophy, customer expectations, demographics, need and also the County Council's 2020 North Yorkshire initiative. These reviews are undertaken in the context of the financial situation, but building running costs are rarely the determining factor in a service changing and a building being vacated. The building vacations that nearest meet your criteria are set out below.
