

ONLINE ASSESSMENT AND ATTENDANCE TOOL

the low cost way to measure and record pupil progress

Winstrada have negotiated a special deal for schools, clubs, leisure centres and individuals who want to use a new online tool for **ATTENDANCE**, **ASSESSMENT** and **REPORTING** on the progress of students who attend any of these recognised courses:

1. **Rebound Therapy** - which teaches two methods of measurement of progress: the conventional 'tick' system for relatively able students, and the Huddersfield Functional Index for those with more profound or complex needs. Both methods are accommodated within this tool.

2. **Trampoline Proficiency Scheme** - which is the internationally recognised Winstrada development and award programme for trampolining across 10 grades, plus 3 more advanced grades.

3. **Gymnastics Proficiency Scheme** – the Winstrada development and award programme for gymnastics across 10 grades.

This 'tablet friendly' package costs £400 plus £2 per pupil each year but a discounted rate to existing Winstrada customers is available.....

for only £150 +VAT per year per framework
