

Assembly Instructions for Balcony Kit Buildings 3 & 4

Contents: (Part Count this kit 8)

Balcony x1

Front Railing x1

Side Railing x2

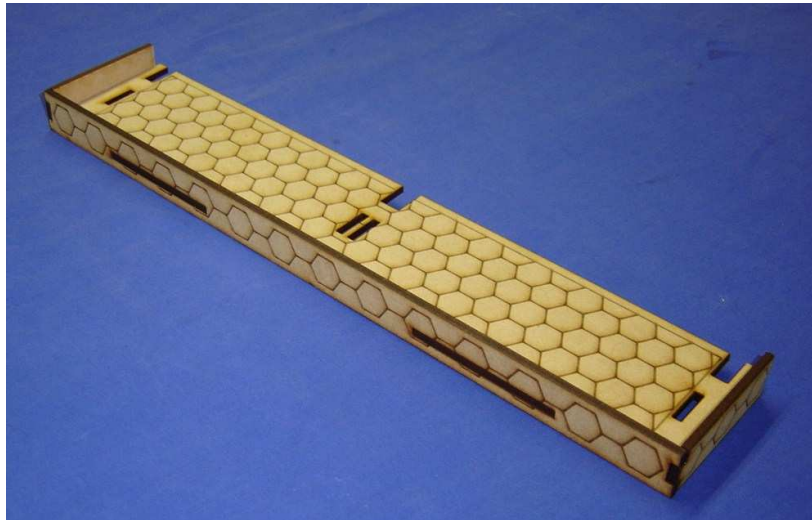

Balcony Truss x2

Balcony Clips x2

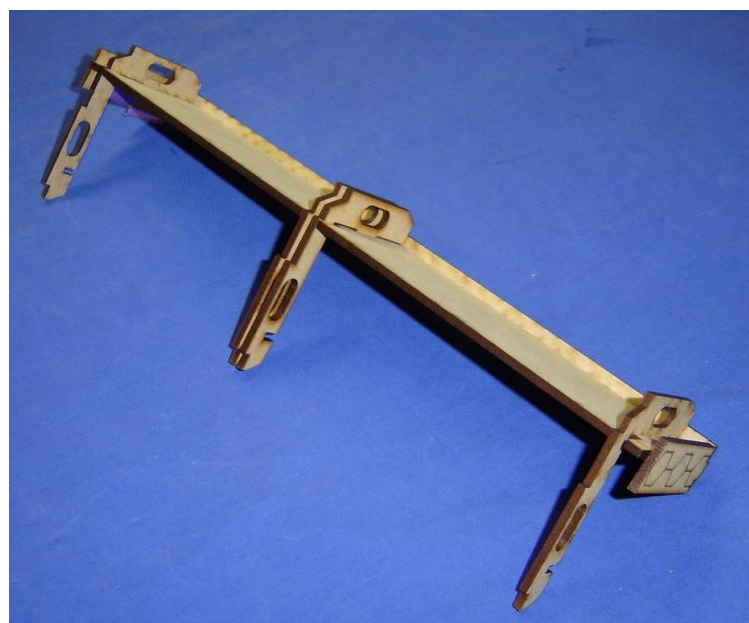

Assembly Instructions:

We recommend using PVA (or white) glue and that some parts are best painted **PRIOR** to gluing the building together.

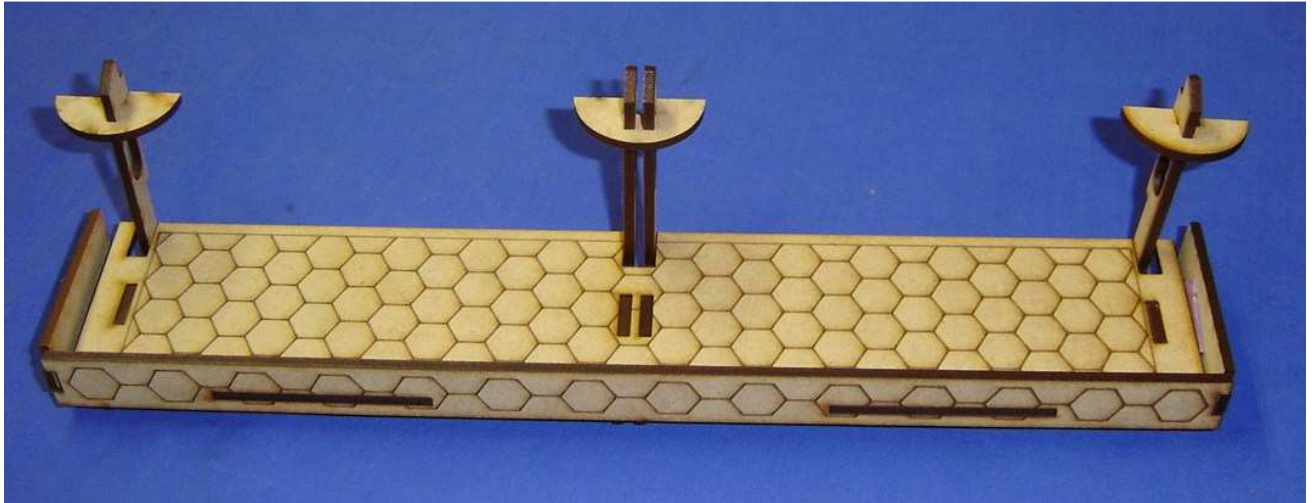

1. Glue the **Balcony Railing** and Side Railings onto the corresponding slots and positions as shown.

2. Glue the **Balcony Trusses** into the slots on the underside of the **Balcony** as shown.

3. Insert the **Balcony Clips** into the corresponding slots in the **Balcony Trusses** as shown.

4. The **Balcony Trusses** and **Balcony Clips** attach to **Side Decorations** on BPLaser 28mm Sci-Fi Buildings as shown. The longer part of the **Balcony Clips** is situated on the inside, along the wall. The **Balcony Clip** with the wider notch secures the centre **Balcony Trusses** to the **Wall Centre Decoration**.
