California Senator, Darryl Steinberg
Senate as President pro Tempore
State Capitol, Room 205
Sacramento, CA 95814
Phone: (916) 651-4006
Fax: (916) 323-2263

Honorable Senator Steinberg,

I was extremely dismayed to learn today that you have SHELVED AB1208 in the Senate. I am a never impeached US citizen who has been instrumental in reshaping US public health policy. I am to be incarcerated on February 10, 2012 in San Diego for Civil Contempt of Court, for refusing silence of CORRUPTION among the leadership of California's judicial branch. In order to seek help of the Chief Justice & Judicial Council, I had to violate an unlawful court order that is in place for the purpose of trying to keep me quiet

My impending incarceration is for placing the DIRECT EVIDENCE on the Internet on September 13, 2011, that the Chief Justice of California, Senator Noreen Evans, Assemblyman Mike Feuer and several Judicial Council members were provided DIRECT EVIDENCE on September 11, 2011, that there are literally criminal actions taking place by members of the inner circle of the leadership of the judicial branch.

They have been using their courts and CCMS to practice politics from the bench favorable to the interest of insurance industry and others. This, while suppressing uncontroverted and direct evidence that they have been trashing the Constitution and ignoring the harm to the people by their continued criminal actions that are aiding other criminal actions of others.

I know from personal experience and can prove that these people are severely compromised. As such, they have no business controlling the purse strings for the entire California judicial branch. I literally fear for my physical safety because of their desire to keep control of the money and keep it quiet of what they have done to me for now seven years and thus continue to do that is harmful to the public.

I fear for the future of justice in California when those who would commit criminal actions are allowed to control our judicial system. That they would even go so far as to jail an honest citizen who dared to evidence the truth of their actions on the Internet, makes them involved in exactly the type of organized crime that judicial systems are meant to protect citizens against.

Please directly ask Judicial Council member, SENATOR NOREEN EVANS to support the bill and that it be allowed to be brought to the Senate floor for vote. She was a recipient of my September 2011 LETTER seeking her help while providing evidence of CRIMINAL falsification of court documents & CCMS entries by the Clerk of the Appellate Court along with the fixing of Appellate Opinions by inner circle justices.

The Clerk, who is a member of the Judicial Council, called me on October 5, 2011 after the information was placed on the Internet and THREATENED me that the Presiding Judge of the Fourth District Division One Appellate Court would simply deem me vexatious if I pursued legal action for the GOVERNMENT CODE 6200 violations. Falsifying court documents is criminal and punishable by up to four years in prison. .

So why am I going to jail instead of Senator Evan's & ASSEMBLYMAN FEUER's fellow Judicial Council member who is Clerk of the San Diego Appellate Court and the inner circle justices who fixed appellate opinions?

You may listen to my January 20, 2012 radio INTERVIEW to understand why. You may find this fax and the link to listen to the interview at Katy's Exposure Blog under the post title of, *"Senator Steinberg, please keep me out of jail & stop corruption among the judicial branch leadership. Allow AB1208 to be heard by Senate members"*. Words that are capitalized in this fax are the linked evidence within the newest Internet post on Katy's Exposure Blog.

I urge you to reconsider your decision of not permitting your fellow Senators to vote on AB1208. Please help remove control of our tax dollars and control of the judicial branch finances from those who have proven themselves not trustworthy and as such, have proven themselves to be a danger to society. Please allow a Vote on AB1208 to come to the Senate floor.

For the sake of my personal safety and for the welfare of the people, please recognize that this is critical situation of compromised ethics among the leadership of the judicial branch reaching a criminal level. Thank you for your prompt attention to this gravely serious matter.

Sincerely,

Mrs. Sharon Noonan Kramer

FC: My Senator, Mark Wyland (916) 446-7382
My Assemblyman, Marty Block (916) 319-2178
Senator Noreen Evans (916)-323-6958
Assemblyman Mike Feuer (916) 319-2142
Assemblyman Charles Calderon (916) 319-2158
Assemblyman Nathan Fletcher (916)-319-2175
Chief Justice Cantil-Sayauke (415)-865-4586
AOC Director, Ron Overholt (415)-865-4205

Enclosure: 9.11.11 Letter to Senator Evans, Assemblyman Feuer, Chief Justice Cantil-Sayauke, Mr. Overholt, et. al.

West Hollywood, CA 90069

Re: CCMS entries in Appellate and Superior Court being used by Clerks to conceal judicial indiscretions in violation of Government Code 6200. *Kelman & GlobalTox v. Kramer* Case No GIN044539 San Diego Superior Court, *Kramer v. Kelman* Defendant/Appellate v. Plaintiff/Respondent, Fourth District Division One Appellate Court D054496.

Chief Justice Cantil Sayauke, Justice Miller, Senator Evans and Assemblyman Feuer,

I am a whistle blower of how it became a fraudulent concept in US public health policy in the early 2000s; that it was scientifically established moldy buildings do not harm. I am the catalyst that caused a Federal GAO audit over the issue in 2006, which has aided tremendously to remove the fraud from Federal policy. My co-writing on a blog, *Katy's Exposure*, was recently cited as reference for a Federal OSHA occupational safety publication over the issue in April of 2011. I am published in medical journals regarding the marketing of misinformation over the issue in the medical community and to the courts.

My endeavors to reshape public health policy have been adverse to the interests of those who sell doubt of causation of illness for a living and their clients; such as the insurance industry. In October of 2005, Governor Schwarzenegger endorsed the fraudulent concept into California Workers' Compensation policy under the platform of Workers Comp Reform that it had been proven moldy work environments pose little to no health threat to workers.. This has aided many California workers comp insurers to be able to shift the cost and burden of worker injury onto the taxpayer funded, state and federal, disability and social services, when insurers have a bogus legitimizing factor written into policy aiding them to deny responsibility.

In May of 2005, I was sued for libel for the phrase “*altered his under oath statements*” used in the first to publicly writing, mine, to expose who was involved and how they were connected to mass market the scientific fraud into policy as I named names. The US Chamber of Commerce; the Manhattan Institute think-tank; the American College of Occupational and Environmental Medicine; US Congressman Gary Miller (R-CA); the corporation of GlobalTox, Inc., and their president, Bruce J. Kelman. The authors of the scientifically void concept are the plaintiffs who sued me, Kelman and Globaltox, Inc – now known as VeriTox, Inc.. They make a substantial portion of their livings as professional toxic tort insurer defense witnesses.

Their sole claim was that the use of my phrase “*altered his under oath statements*” was a maliciously false accusation of perjury. Bruce Kelman then proceeded to use perjury to establish needed reason for purported malice. Each and every judiciary to oversee the case has been provided the uncontroverted evidence of the plaintiff’s perjury. In six years time, there is no evidence of me ever being impeached as to the subjective belief in the validity of my words. The California courts framed me for libel with actual malice over the first public writing to expose how it became a fraud in policy that it was proven moldy buildings do not harm – while aiding insurer cost shifting written into California workers comp policy by Governor Schwarzenegger.

If that were not bad enough, the California Court Case Management System (CCMS) has been used in violation of Government Code 6200 by Clerks of the Court to conceal these and other judicial indiscretions.

There is a Remittitur awarding costs to undisclosed parties on Appeal. Instead of recalling and correcting the Remittitur as requested; a name was added to the Appellate online Case Summary falsely portraying via the Internet that the unidentified party was disclosed on the Certificate of Interested Parties in the Case File. This aided to conceal that the Appellate Opinion awarded costs to “*Respondents*” on Appeal, as did the Remittitur – when there is only one named “*Respondent*” on the Certificate of Interested Parties. This makes the second time in the Fourth District Division One Appellate Court that a retired Deputy Director of CDC/NIOSH and sixth owner of a corporation, GlobalTox, was an undisclosed party, with the Appellate Court being fully evidenced of the omission both times while awarding an undisclosed party costs on appeal.

There were judgment dates added to the “stealth Case History” of judgments never entered and not found in the Case File in the Superior Court CCMS Case Record. These do not print on the Register of Action (ROA). There is no way to determine who made these entries in the stealth CCMS Case Record that judges share; or on what date they made them. I have asked for a complete print out of the Case History, not just those that show on the ROA. I am told the court legal department says they are not available to me; a litigant who is being impacted by false entries in CCMS that I am not even able to view.

After the Remittitur issued back to the lower court, someone entered a false date of entry of judgment not supported by the Case File in the ROA. This is not supported by the prior sequentially numbered entries in the ROA. However, this make the lower court CCMS consistently false with the Appellate Court CCMS.

There was an entry made after the Remittitur issue back deeming the wrong parties to be the prevailing parties to the litigation. This made the ROA and Case History consistent with the fasle Abstract of Judgment entered. From reading the ROA (and most like stealth Case History), one would never know that I prevailed over GlobalTox in trial and the case is still pending in the lower court after the issuance of the Remittitur.

There is an Abstract of Judgment in the Case File of the lower court, based on a not valid and not properly noticed entry of judgment that is never mentioned in the Appellate Opinion as a date of entry of judgment. It, like the stealth Case History entries, deems the wrong parties as the prevailing parties. There is a judgment lien on my home based on this void Abstract of Judgment, based on the void judgment – that the CCMS was edited to provide false validation after the Remittitur issued.

There are three data entry numbers removed from the ROA that were entered within three days after the plaintiff submitted his costs and a judgment by the Clerk of the Court should have been entered. There is no judgment document after the plaintiff’s costs were submitted in the Case File.

It has cost me well over three million dollars to defend the truth of my words and to refuse to be silenced of what the courts are doing over a matter of public health – including the misuse of CCMS. The amount of costs shifted from insurers to taxpayers in California while the courts have maliciously aided Strategic Litigation Against Public Participation (“SLAPP”) is in the multi-millions, if not billions.

Unfortunately, some of the judiciaries and court clerks involved in this fiasco are leading judiciaries and court officers in the state of California. They are present and past members of the Judicial Council. They have aided and abetting an insurer cost shifting scheme that was endorsed by Governor Schwarzenegger by being willing participants in a malicious litigation carried out by criminal means. CCMS is being used by the clerks to conceal this.

Is this the intended usage for a computer system that will eventually link all courts in California with all actions to a litigation being electronically recorded?

From what I have witnessed, CCMS is being used against the best interest of the citizens and taxpayers of California – not *for* their best interests. Adding insult to injury for the tax payers of California, I am aware that CCMS deployment is being funded by the use of tax dollars; while diverting needed funds away from our beleaguered trial courts who are fighting to open to serve the public.

I shudder to think what would happen to my child and me if I was a single mother in a custody battle with a well connected abusive ex-husband; and some Clerk of the Court decided the CCMS should be altered to appear favorable to my ex-husband. I would have no way to determine who made false entries in the CCMS impacting the case; on what date they made them; or if they were even a Clerk involved in the case. Most single mothers, fighting to keep their children, would not even know an electronic ROA and stealth Case History even existed and was impacting their lives. In its current form, CCMS is a blank slate that is asking for special and conflicted interests to be able to enter false data, should the motivation and opportunity arise.

As such, I am requesting that the Judicial Council review the Court Records, including those that are in the CCMS, in Kelman & GlobalTox v. Kramer Case No GIN044539 San Diego Superior Court, Kramer v. Kelman Defendant/Appellate v. Plaintiff/Respondent, Fourth District Division One Appellate Court D054496.

This is needed to help the Judicial Council understand how their computer system can and is being used to aid judiciaries who chose to breach their judicial vows to practice politics instead of law; and how their clerks are able to add, edit, delete, remove and falsify CCMS records in the Case Record in violations of GC 6200, while aiding to conceal of the actions of the compromised judiciaries.

Please let me know, in writing, how and when the Judicial Council will be addressing these gravely serious shortcomings in the CCMS; and what action the Judicial Council will be taking to aid with corrections that are in violation of GC6200 in this specific case. This is necessary to stop the fleecing of the California taxpayer in egregious violation of my Constitutional rights.

Attached is a rather lengthy letter to Clerks of the Court and Judicial Council Members, Stephen Kelly and Michael Roddy. It details and evidences *some* the altered, erred and edited CCMS entries and the impact they are having in a litigation over a matter of public health. This letter, the letter to the Clerks and linked evidence may be read online at the Federal OSHA cited blog, "*Katy's Exposure, Exposing Environmental Health Threats and Those Responsible*" Simply search the blog title to find it. Title:

"Is The California Court Case Management System (CCMS) Being Misused For Politics In Policy & Litigation....And The Fleecing Of The California Taxpayer?"

Thank you for your prompt attention to this gravely serious matter.

Sincerely,

Mrs. Sharon Kramer

CC: Mr. Michael Roddy, Clerk of the Court, San Diego Superior Court;
Mr. Stephen Kelly, Clerk of the Court, Fourth District Division One Appellate Court;
Justice Judith McConnell, Presiding Judge of the Fourth District Division One Appellate Court;
Judge Kevin Enright, Supervising Judge of the San Diego Superior Court;

Enclosures: Letter to **Judicial Council Members**, Mr. Kelly & Mr. Roddy (Clerk of the Court in Kelman & GloablTox v. Kramer; Letter to **Judicial Council Member** Judge Enright; Letter to **Chair of Advisory Committee of Judicial Council**, Justice Huffman & (concurring justice in 2010 Appellate Opinion); and Letter to Justice McConnell, **Chair of the California Commission on Judicial Performance &** (author of the 2006 anti-SLAPP Opinion).
