Subj: Notice Intent To File Federal Suit For Aiding and Abetting Federal Contractors, Veritox, Inc., to Fleece the U.S. Public

There are [Ninety-Nine Persons](#) named in the NOTICE as receiving a copy. All ninety-nine notices will be sent no later than October 20, 2013. You are those among the ninety-nine who are receiving your copy by email. Just because one is receiving a copy, does not mean they are going to be named as aiding and abetting Federal contractors, the six owners of Veritox, Inc., to fleece the United States public over illnesses caused by Toxic Mold. Although many of you may be, should California Administrative Offices of the Courts Director, Judge Stephen Jahr, and California Judicial Council Chairwoman Chief Justice Cantil-Sayauke, continue to obfuscate from addressing subordinates' falsifications of material court documents, and concealment of the falsified documents in Strategic Litigation Against Public Participation (SLAPP). Their obfuscating is causing the false concept to remain in U.S. public health policies and in U.S. courts that it is scientifically proven by Veritox, Inc. and Andrew Saxon, MD/UCLA, that mold toxins are not killing or even harming U.S. citizens. Your copy is slightly different than what was mailed on October 12, 2013, to 455 Golden Gate Ave. San Francisco, CA. Since some of your email addresses are unable to accept attachments, you may read this NOTICE in pdf form at the blog site of:

RE: *Kelman & Veritox v. Kramer* and JC/AOC Legal Services letter 7/11/13. Kindly cease further obfuscation from addressing AOC employee felony document falsifications aiding federal contractors to defraud the U.S. public.

Hon. Chairperson Cantil-Sayauke, Director Jahr, Justice Kaufman & Counselor Roberts,

You hold the key to stop those responsible for causation of much U.S. environmental disabilities, from being able to shift their liability costs onto Social Security Disability Insurance (SSDI). To turn that key, you must admit that AOC employees falsified documents in SLAPP; and that AOC supervisors, JC members, court officers and plaintiffs concealed the falsifications as they continued to use the legally invalid documents to harass me.

As such, I was stunned when I received a form letter from JC/AOC Legal Services dated 7/11/13.¹[1] It was in response to direct evidence that I sent on 6/27/13²[2] to the JC Chair and AOC Director. A San Diego AOC employee mailed a document to me from a non-existent “The Court” on 6/12/13³[3] This, while abusing the court to aid a judge to obfuscate from answering questions about misuse of prior AOC falsified documents, coram non judge.⁴[4] A form reply to direct evidence of yet another AOC employee Penal Code 134 violation is not an acceptable response.

Deflecting your responsibilities to address AOC employee document falsifications onto complicit San Diego Superior Court supervisors, must surely be an oversight. And as you know, contrary to your directive to me, the Commission on Judicial Performance

4[4] 5/29/13 My letter to 18 CA judiciaries, CJP and JC/AOC heads requesting proof that falsified AOC documents in SLAPP suits have not been concealed to defraud the public <http://freepdfhosting.com/592844a365.pdf>

(CJP) does not discipline AOC employees and complicit AOC supervisors for AOC document falsifications. This key aspect of the sordid matter is the responsibility of AOC's Director.

If I have misstated fact that AOC employees have falsified material court documents, then why do you not just provide the direct evidence that they are valid? -or- In lieu of being able to prove me wrong; mitigate the damage for concealment of evidence and obstruction of justice while abetting scientific fraud to continue in U.S. policies to mislead U.S. courts? I.e. Federal contractor Veritox's, scientifically void "proof" for the US Chamber that mold toxins cannot not kill or even harm people.5[5] 6[6] Their "Scientific View" paid for by a think-tank, was the subject policy paper of my 2005 writing.7[7] Court officers framed me for libel to hide I exposed a massive U.S. defrauding.8[8]

Pg 1

Kindly correct the record to reflect truth and mitigate the ongoing damage. As the JC Chair and AOC Director, it is you who are ultimately responsible for AOC employee falsification of material court documents and concealment of them by JC members and AOC supervisors. The fact is, Chairperson Cantil-Sayauke, Director Jahr, Chief Counsel Roberts, and Justice Kaufmann; upon your personal acknowledgements of the AOC falsified documents in two SLAPP suits; the false concept that it has been scientifically proven by Veritox's Mr. Bryan Hardin and Mr. Bruce Kelman that microbial toxins could never reach a level indoors to harm anyone, will cease to exist in public health policies, courts, medical schools, medical practices, and in workers' comp, property/casualty insurer cost shifting schemes. U.S. physicians and policy setters will no longer be misled to parrot the false proof of lack of causation. The key to stopping Veritox's scientific fraud lays with your acknowledgment that AOC employee falsified documents have been concealed by AOC supervisors, court officers - including Veritox's attorney, and JC members, in SLAPP over my writing exposing how the scientific fraud became policy to mislead U.S. courts – rather than the environmentally injured's counsels needing to know how to discredit the fraud, one mold case at a time, when used by defense witnesses as false proof of lack of causation of illness and death.

5[5] 7/17/03 US Chamber's "**A Scientific View of the Health Effects of Mold**" by Veritox's Bruce Kelman & Bryan Hardin w/ forged UCLA physician authorship. Paid for by a think-tank <http://freepdfhosting.com/a8baea5e37.pdf>

6[6] 10/27/02 **ROOT OF PROBLEM** Veritox's bougs extrapolations misused in U.S. policies & courts as false proof of lack of causation of microbial poisonings, used to deny causation liability <http://freepdfhosting.com/74478c4cad.pdf>

7[7] 3/09/05 "Jury Finds Toxic Mold Harmed Oregon Family", my writing which names names and for which California court/AOC employees assisted federal contractors, Veritox, to **frame me for libel for the five words, "altered his under oath statements" to cast undue doubt on all my words** <http://freepdfhosting.com/3866e8e4ab.pdf>

8[8] 4//13 Except from denied Writ, Direct evidence of judiciaries framing for libel <http://freepdfhosting.com/ffbed1c779.pdf>

Continued litigation usage and concealment of known AOC employee falsified documents are felonies. Penal Code 134 states, “*Every person guilty of preparing any false or ante-dated book, paper, record, instrument in writing, or other matter or thing, with intent to produce it, or allow it to be produced for any fraudulent or deceitful purpose, as genuine or true, upon any trial, proceeding, or inquiry whatever, authorized by law, is guilty of felony.*” Direct evidence cannot be erased by stalling and obfuscations. I cannot be silent or silenced of the felonies. I cannot unknow what I know, and neither can you. Far too many lives remain at stake for one to be willfully blind.

Therefore to curtail any further obfuscation, for economy of mailing, and for brevity of establishing that it has been known for quite some time by the JC and AOC heads of material AOC employee document falsifications in SLAPP being used to aid federal contractors, including but not limited to Veritox, to fleece the public; this notice may be read by you and others at ContemptOfCourtFor.ME <http://wp.me/p20mAH-qJ>
Blog Title:

ODE TO TOXIC MOLD SUFFERERS

by Sharon Noonan Kramer

To those harmed by the US Chamber Institute for Legal Reform’s (ILR) & the Manhattan Institute Center for Legal Policy’s (CLP) “[A Scientific View of the Health Effects of Mold](#)”; and by CA Judicial Council (JC) members’ concealment of court employee (AOC) falsified documents in Strategic Litigation Against Public Participation (SLAPP); and by the Silence of All Those Who Know

If you’re poisoned by microbe toxins and no one will listen think of the [largest lobbyist and coins which glisten](#). Know why elected officials will not give them a di\$\$in’, as the fleeced public continues to feel it.

A [retired Assistant Surgeon General](#) took a [think-tank’s bribe](#). His [written words](#) and [true science](#) do [not jibe](#). They’re spewed in U.S. courts as [false denial diatribe](#), and [U.S. Senate HELPEd](#) to conceal it.

A Citizen exposed how [policy fraud came to be](#). She named those involved as she blogged of the fee. Cal courts [framed her for libel](#) so no one would see, and [repeatedly refused to repeal it](#).

They [jailed her and hurt her and falsified docs](#). She was [terrorized](#) for example so no one else balks. Excuses abound of why [no one talks](#), CAUSING environmental injuries til a Loud Voice squeals it.

JC/AOC Heads seem political to the core. They shield court employee crimes hiding frauds of more. They may need to be shown the jailhouse door! and the Citizen knows how to reveal it:

USDOJ's witness, Veritox, took Manhattan Institute's bribe. They forged UCLA doctor authorship as the US Chamber lied. Feds, Politicians, Regents, Cal Court leaders came along for the ride, and mass silence as defense can't conceal it.

Veritox's extrapolations alone are not scientific proof. Expert witnessing that they are, causes cost-shifting by spoof. Falsifying court docs in Cal SLAPP puts culpability through the roof!! The admission of AOC's frauds will seal it.

Uncontradicted evidence are considered as truths. Feigning they're not are lies, court fraud and abuse. JC/AOC Heads' refuting evidence would prove its not ruse. Since there is none, Mea Culpa to the defrauded must heal it!!!

JC Chair Cantil-Sayauke & AOC Director Jahr, If Sharon Noonan Kramer is lying about the AOC employee material document falsifications; then why don't you just provide the direct evidence they a valid, and prove her wrong?

Pg 2

Contrary to your form letter of July 11, 2013, in order to stop mass, multifaceted fraud, it is not necessary for me to provide anymore evidence of it. The four of you have the direct evidence of subordinate AOC employees' falsified documents in SLAPP and of your subordinate AOC supervisors along with JC members, presiding judges and justices, and other court officers willfully covering up that they are fraudulent and void, while continuing to use them to harass me without subject matter jurisdiction, for now many years. You all have law degrees, are JC/AOC legal counsel, are heads of the JC/AOC, and heads of the entire California judicial branch.

It is your jobs to ask your subordinate AOC employees and JC members to provide (the impossible) refuting evidence to my direct evidence of falsified court documents – not mine. It is high time that you either hold your subordinates and JC members accountable for falsified documents in SLAPP; while aiding federal contractors, including but not limited to Veritox; and workers' comp and property casualty insurers, to skirt liability for causation of environmentally disabling people by the proliferation of Veritox's scientific fraud -- or -- be held accountable for the poisonings continuing by unpunished felony document falsifications in your courts in SLAPP.9[9]

Therefore, this is a notice to the four of you. Either: A.) Have JC/AOC Legal Services provide the direct evidence to me that the following five material court documents have not been falsified by AOC employees and/or officers of the court; and concealed as such by those who were/are Judicial Council members at the times of their hands on involvement in the debacle -- including the former Chairman of the JC Executive Committee, Justice Richard Huffman along with the former Chairwoman of the CJP, Justice Judith McConnell; or B.) Issue a mea culpa to me and to the defrauded public by punishing your AOC employees, JC members and other court officers for

collusive felonies aiding the SLAPP plaintiffs' continuance of never vetted, scientific fraud in policy and courts.

If A. or B. does not occur, I be will forced to name you personally in a federal lawsuit for obstruction of justice, concealment of evidence and failure to stop judicial branch employees' defrauding the public with US DOJ expert witnesses, Veritox, and their counsel in SLAPP. This is assuming that the CJP will remain complicit and not publicly admonish any of the judiciaries involved in order to stop the defrauding even with Justice Judith McConnell no longer chairing or even on the CJP; and assuming that San Diego District Attorney Dumanis, CA Attorney General Harris and U.S. Attorney General Holder all remain glaringly mum of the felonies in the CA courts causing the fleeing of the U.S. public. This is not a minor matter.

Not only are Veritox's bogus extrapolations causing severe environmental injury by physicians and the public being left uninformed of what is causing symptoms, aiding the exposures to continue and the symptoms becoming irreversibly debilitating in some cases; they are used by workers compensation insurers and others to deny financial responsibility for the damage of disabling people by the continued exposures. The disabled must then turn to SSDI for survival. The term for this is "Cost Shifting". Thus, the interest of many in wanting to see me falsely deemed a malicious liar allegedly for the words, "altered his under oath statements" – but in reality, for exposing how Veritox's scientific fraud became policy and who was involved in mass marketing it as legitimate science, including the U.S. Chamber of Commerce and a U.S. Congressman from California, Gary Miller (R-31st).

I have the direct evidence that you have the following documents from the SLAPP suits in your possession; and that you have the direct evidence that they are fraudulent, how they were falsified and how they have been used by AOC employees, JC members and other court officers including Veritox's "legal" counsel, Mr. Keith Scheuer, in eight years of vicious SLAPP and coran non judice retaliatory litigation. (An additional fleeing, these years of wrath have been funded by the use of wasted tax dollars paying court employees, while trying to pummel me into silence of how those who work within the Cal courts have aided Veritox's scientific fraud to continue).

Pg 3

See my April 2013 Emergency Petition for Writ of Mandamus.10[10] The JC/AOC heads and involved JC/CJP members are proven to have been made aware on September 11, 2011 of the AOC falsified documents in the first SLAPP suit, concealed by JC members and former CJP Chair, when in their courts.11[11] Please, no more delaying the inevitable of having to address your subordinates aiding to cause

environmental injury of U.S. citizens and mass cost-shifting onto SSDI, via document falsifications and concealment of them by those who work under your supervision of the California legal system. I am not going away until this massive fraud is stopped.

1. The December 2008 Void Judgment in *Kelman & GlobalTox v. Kramer*, Case No. GIN044539. (Attached as Exhibit) Void on its face, it states a date of cost award not possible to have occurred to conceal it was ante-dated, twice. **California Chief Justice Cantil-Savauke and Director of the Administrative Offices of the California Courts Judge Jahr, admitting that this one court document is fraudulent and void to be used for any purpose; will cause the fleecing of the public by Veritox, et.al, to immediately cease.**

2. The December 31, 2008 Abstract of Judgment & January 20, 2009 Lien in *Kelman & GlobalTox v. Kramer*, Case No. GIN044539. (Attached as Exhibit) It states interest accruing costs awarded on its face to Mr. Kelman before costs were even submitted by plaintiffs' counsel, Mr. Scheuer. It is founded on the Void Judgment before it was backdated the second time and is contradictory to the current face of the Void Judgment.

3. The December 20, 2010 Remittitur in *Kelman & GlobalTox v. Kramer*, Appellate Case No. D054496. It awards costs to undisclosed "Respondents" when only one "Respondent" was a disclosed, Mr. Kelman. It conceals that retired US Asst Surgeon General, Bryan Hardin, is a party, and has been known to the appellate justices to be improperly undisclosed since June of 2006, when he also was not disclosed in the anti-SLAPP.

4. The April 5, 2012 Minute Order in *Kelman v. Kramer* Case No. 37-2010-00061530 CU-DF-NC. It was used to give me a false FBI record to conceal I was incarcerated and first given a false criminal record for refusing to commit criminal perjury, by order of a judge who knew his court had no subject matter jurisdiction.

5. The June 12, 2013 Notice sent by an AOC employee from a non-existent "The Court", used to aid a judge to obfuscate from providing impossible evidence of his prior court having subject matter jurisdiction.

Greater Detail of How the Five Documents Were Falsified and Falsifications Used

1. The December 2008 Void Judgment in *Kelman & GlobalTox v. Kramer*, Case No. GIN044539.12[12] A legal document that has been signed by a judge cannot be changed by an AOC employee without dating and initialing the change. It becomes a void legal document not able to be used for any purpose should this occur. This Void Judgment states on its face that costs were awarded on a date not possible, "\$7,252.65 12/18/08 mgarland". Falsifications to the document via two back datings by the AOC employee deputy clerk Michael Garland were used by the lower court employees.

12[12]2008 Void Judgment in its current form. Amended 10/28/11, one year after the second harassing litigation began, to acknowledge I was a trial prevailing party. It is still void on its face "\$7,252.65 mgarland 12/18/08 ", yet numerous court officers have refused to vacate it as they continue to use it, coram non iudice
<http://freepdfhosting.com/786b95b2bf.pdf>

First, it was changed to aid Mr. Kelman, the five additional owners of Veritox, and Mr. Scheuer, to record a fraudulent 1/20/09 Lien on my property with interest accruing from a date not possible, 09/24/08. Then back-dated again by Mr. Garland for the lower court presiding judge to falsely claim loss of jurisdiction on 01/07/09. I was not noticed by Mr. Garland or Mr. Scheuer of Judge Schall's signing the document on 9/24/08.

Pg 4

The undisputed direct evidence proves that the Lien recorded by Mr. Kelman and Mr. Scheuer is contradictory to the face of the Void Judgment. Concealed as void by the appellate justices in their 9/14/10 Appellate Opinion; on 11/04/10 Mr. Kelman and Mr. Scheuer submitted the Void Judgment as the sole foundational document to a second harassing litigation *Kelman v. Kramer* Case No. 37-2010-00061530 CU-DF-NC. The Lien they recorded states that interest accruing costs were first awarded by judgment on 9/24/08. The Void Judgment, sole foundational document to the second harassing case, states 12/18/08.

Contrary to what is written on the face of the Void Judgment, the sole foundational document to the second harassing case; the electronic case record, Register of Action (ROA), establishes by sequential numbering that nothing occurred in the case of *Kelman & GlobalTox v. Kramer*, GIN044539 on 12/18/08.13[13] (Attached as Exhibit)

What gave Mr. Scheuer and his clients, Mr. Kelman and the five additional owners of Veritox, the ability to record the fraudulent Lien, is that the dollar amount of \$7,252.65 was filled in on the Void Judgment by AOC employee, Mr. Garland, without initialing or dating. This occurred after Mr. Scheuer submitted his clients' costs on 10/14/08, including \$3,626.33 incurred by his trial losing client, Veritox', commingled as being costs of Mr. Kelman's.

Mr. Garland's addition of the dollar amount of \$7,252.65 awarding the costs to Mr. Kelman without initialing or dating, made the Void Judgment appear that the interest accruing costs were awarded on 9/24/08 when Judge Schall signed Mr. Scheuer's proposed judgment, with a blank left for the awarding of costs to Mr. Kelman.

Nowhere on the judgment was there a place for my costs as trial prevailing party over Veritox to be filled in. I was a trial prevailing party, noticed to the court and Mr. Scheuer as being self represented on 9/15/08, nine days before Judge Schall signed the Void Judgement. In violation of C.C.P.664.5(b), AOC employee Mr. Garland failed to notice me that Judge Schall signed the proposed judgment on 9/24/08. I have yet to see any Notice of Entry of Judgment that was sent to Mr. Scheuer from Mr. Garland of Judge Schall's signature, 9/24/08.

The way I became aware that Judge Schall signed it, was by an acquaintance who had seen it posted on Veritox's website. To lawfully record an Abstract of Judgment of that date, there needs to be a Notice of Entry of Judgment of that date. No such document exists and the fact that post trial motions were heard on 12/12/08, more that 60 days later,

establishes that 9/24/08 is not the Judgment Date. Mr. Scheuer attached a differing dated Notice several times throughout these litigations. In May of 2011, he mailed the Void Judgment and the differing dated Notice, to a blog owner in Texas to threaten her with litigation should she continue to blog of the matter.

Sometime on or after 12/22/08 when the Void Judgment was submitted back to the court for Abstract recording by Mr. Scheuer; “mgarland 12/18/08” was added by AOC employee Mr. Garland next to the dollar amount that he had filled in earlier in mid October 2008, without initialing or dating to make it appear that costs were awarded on 9/24/08. The on/after 12/22/08 backdated addition of “mgarland 12/18/08” on the Void Judgment was then used for the presiding judge of the lower court, Judge Joel Pressman, to claim loss of jurisdiction to be able to hear my timely filed 12/22/08 motion for reconsideration under the false pretence that an amended judgment had been entered on 12/18/08.

There is additional evidence that you have in your possession corroborating the material AOC employee judgment falsifications concealed by officers of the courts including by JC members. I.e. date of Presiding Justice Judith McConnell’s acceptance of appellate court jurisdiction on 1/14/09, etc. Acts of lower court officers relying upon the falsifications of the Void Judgment by acts of AOC employee, Mr. Garland, which forced me to have to file an appeal in January of 2009.

14[13] 12/18/08 CCMS Register of Action (ROA)

<http://freepdfhosting.com/64f7288471.pdf>

Pg 5

This is in the same appellate court where Presiding Justice Judith McConnell went out of her way to frame me for libel for the words, “altered his under oath statements” in her 2006 anti-SLAPP opinion. She suppressed the direct evidence that the plaintiff, Mr. Kelman, committed perjury to manufacture reason for personal malice. She concealed the direct evidence that Mr. Hardin was an undisclosed party. She concealed that Veritox’s bogus science had been thrown out of a Sacramento court in April of 2006 by absurd stated reason that the evidence had not been presented in the lower court in 2005. (See fn.8,10,11,16)

2. The December 31, 2008 Abstract of Judgment & January 20, 2009 Lien in *Kelman & GlobalTox v. Kramer*, Case No. GIN044539 with the interest accruing costs awarded on its face before costs were even submitted by Mr. Scheuer15[14]. Recorded in San Diego County by Mr. Kelman and Mr. Scheuer, they award interest accruing costs of \$7,253.65 to Mr. Kelman from the date of 9/24/08. This is three weeks before Mr.

15[15] Int J Occup Environ Health. 2007 Oct-Dec;13(4):404-26. American College of Occupational and Environmental Medicine (ACOEM): a professional association in service to industry. LaDou J, Teitelbaum DT, Egilman DS, Frank AL, Kramer SN, Huff J. <http://freepdfhosting.com/621823a111.pdf>

Scheuer submitted his clients' commingled costs as being those of Mr. Kelman's on 10/14/08. In order to obtain the Lien, Mr. Scheuer received the Abstract from the court and would have seen that it was fraudulent before he recorded the fraudulent Lien. He already knew the Abstract would be fraudulent. He submitted the Void Judgment to obtain the fraudulent Abstract. This alone proves that Mr. Scheuer knowingly record a fraudulent Lien on my property.

The fraudulent Lien was recorded on 1/20/09. It is based on the false 12/31/08 Abstract of Judgment issued by an AOC employee, based on Mr. Scheuer submitting the known Void Judgment for abstract recording on 12/22/08, based on a dollar amount being added in mid 10/08 to the Void Judgment by AOC employee Mr. Garland without initialing or dating the change to the document signed by Judge Schall on 9/24/08 without legally noticing me under C.C.P.664.5(b). Noted in item #1 above, the Void Judgment with "mgarland 12/18/08" added next to the dollar amount on/after 12/22/08 when Mr. Scheuer submitted it for abstract recording, was submitted by Mr. Scheuer and Mr. Kelman as the sole foundational document for the second litigation, *Kelman v. Kramer* Case No. 37-2010-0006-1530 CU-DF-NC, 11/04/10. The Void Judgment is contradictory to 1/20/09 Lien. The Lien and ROA both substantiate that "mgarland 12/18/08" is fraudulent and the Judgment is Void.

Corroborated by the case file, the felony Penal Code 134 violations by Mr. Kelman and Mr. Scheuer, establish by the discrepancy between the known fraudulent Lien they recorded and the face of the Void Judgment proves that Mr. Scheuer and Mr. Kelman knowingly submitted an AOC employee falsified, Void Judgment as the sole foundational document to the second harassing litigation, *Kelman v. Kramer* Case No. 37-2010-00061530; and that they knowingly submitted an AOC employee falsified Abstract of Judgment to record a fraudulent Lien on my property with the San Diego County Recorder.

You also have the direct evidence that three Appellate Justices of the Fourth District Division One Appellate Court (4th1st), including Justice Huffman who was Chairman of the Executive Committee of the JC at the time, concealed that the 2008 judgment was void in their 9/13/10 appellate opinion. Chief Justice Ronald George, refused for the California Supreme Court to hear the matter in December of 2010 (for the second time).

You have the direct evidence that officers of the courts, Mr. Kelman and Mr. Scheuer then used the Void Judgment as the sole foundational document to the second case to try to silence me of the frauds upon the court; and the AOC falsified court documents in the first SLAPP suit; and to conceal the harm to me and the public. No court has had subject matter jurisdiction in either case while concealing, yet continuing to use, the Void Judgment since it was change in mid-October 2008 by AOC employee, Mr. Garland, without initialing or dating -- actually as of 9/24/08, when he failed to notice all prevailing parties under C.C.P.664.5(b) of Judge Schall's signature.

All judges and justices to oversee the matter since, along with AOC employee/CEO of the San Diego Superior Court Michael Roddy, AOC employee/Clerks of the Appellate Court and Presiding Judges and Justices, have suppressed the evidence that the judgment is fraudulent and void. No refuting evidence is ever provided in response to my direct evidence that the judgment is void. See your obfuscating form letter reply of July 11, 2013 to my direct evidence of an AOC employee falsified court document, as a prime example of how it works.

Additional evidence of willful intent to defraud by AOC employees, San Diego Administrator, Mr. Michael Roddy, issued a double-speak audit of the file in November of 2011 upon its completion of review by AOC lawyers. It avoids addressing the direct evidence that the 2008 judgment is void. It offers no explanation for the discrepancies between material court documents and in CCMS ROA entries. You may want to request that Mr. Roddy provide you with his case review file. I would also like a file copy. How do I obtain one?

I did not become aware until July of 2011 of the fraudulent 12/31/08 Abstract and its serving as solid proof that Mr. Kelman and Mr. Scheuer knowingly recorded a fraudulent lien on my property; and its proof that they knowingly submitted an AOC employee falsified Void Judgment as the sole foundation to the second litigation. The statutes for my ability to sue you all are still tolling. If you let this public defrauding continue by Veritox, via document falsifications and concealment of them by AOC employees; and force me into yet another David and Goliath situation of having to sue you all in federal court for concealment of AOC employee, court officer and federal contractor felonies to fleece the public; it will most likely be prior to 2014 mid-term elections. (See pages 19-21 for names of some willfully blind and selectively mute elected, appointed and hired government officials from California to Washington DC)

After eight years of numerous fraudulent acts, including false hearsay documents not discussed in trial somehow making their way past Mr. Garland and into a jury room to cause a verdict for Mr. Kelman, (See fn 16 for juror and attorney affidavits); Justice McConnell had the audacity to deem the matter closed on 5/29/13, while knowing of the massive continuing damage to the public and to me by the collusion. The matter is far from closed.

People are still losing everything and are unable to obtain viable medical treatment from misled U.S. physicians directly because of your court officers', AOC employees', Veritox's, and their attorney's collusive criminalities in SLAPP and retaliatory litigations. I have tens of thousands of dollars of fraudulent, interest accruing liens on my property at the hands of those employed to uphold the law in your compromised courts. It has cost me millions and driven my husband and me into poverty and the verge of homelessness, while you obfuscate from addressing felony falsifications of material court documents.

SSDI is near collapse, in large part from mass Cost Shifting by workers' comp insurers aided by medical frauds written into policies by "non-profit" medical associations – who are contracted by state and federal agencies to write guideline. I' am a medical journal published author on the subject of bogus exposure assessment models by white coats in policy, to aid white collars' avoidance of liability for causation of

environmental illnesses.16[15]. Apparently, black robes also need to be added to the equation.

“Fraud upon the court’ has been defined by the 7th Circuit Court of Appeals to ‘embrace that species of fraud which does, or attempts to, defile the court itself, or is a fraud perpetrated by officers of the court so that the judicial machinery can not perform in the usual manner its impartial task of adjudging cases that are presented for adjudication.” *Kennerv. 3. The December 20, 2010 Remittitur in *Kelman & GlobalTox v. Kramer*, Appellate Case No. D054496, concealing that a retired US Asst Surgeon General, Bryan D. Hardin, is a party and has been known to the appellate justices to be improperly undisclosed since June of 200617[16]. It awards costs against me to undisclosed “Respondents” when only one “Respondent”, Mr. Kelman, was disclosed as a party on appeal on the plaintiff/respondent’s 10/10/09 Certificate of Interested Persons submitted by Mr. Scheuer.

On the 2006 Certificate of Interest Persons in the anti-SLAPP portion of the case, five Veritox owners were disclosed. The fraudulent 12/20/10 Remittitur conceals that your court employees concealed that the sixth owner, US Asst. Surgeon General Bryan Hardin (retired), has been an undisclosed party to this malicious SLAPP all along. (See fn.11; 9/11/11 letters, for my proof of how long you have known of the 12/20/10 Remittitur being falsified by JC member/AOC employee, the late Mr. Stephen Kelly, Clerk of the 4th1st and his deputy clerk)

To reiterate the evidence that you already have, of how they concealed Mr. Hardin’s involvement and the **implications of the US DOJ employing criminals’ services as expert defense witnesses.**18[17] Mr. Hardin was also a Deputy Director of CDC NIOSH prior to his retirement from the federal government in 2001. Like Mr. Kelman, he is not a physician and has ZERO research background of mold and its toxins. He is an undisclosed owner of Veritox in this eight years of malicious litigation. Veritox is reported by FedSpending.org to have over \$1.3M in federal contracts, over \$900K with the US DOJ for expert defense witnessing in toxic torts.

Officers of the 4th/1st framed me for libel in the 2006 anti-SLAPP opinion and suppressed the evidence that Mr. Kelman, who is Mr. Hardin’s co-owner of Veritox, committed criminal perjury to manufacture reason for personal malice in SLAPP (See fn 8, 10, 11 & 16 for direct evidence that you already know this). At this same time, Veritox

principals, including Mr. Kelman, were serving as federal expert defense witnesses in mold litigation. Their client was the US DOJ and the plaintiffs were a sick military family living in moldy military housing.

In 2011, I also turned to Governor Jerry Brown to assist with stopping the concealment of Mr. Kelman's perjury in the CA SLAPP suit, while also serving as an expert witness for the US DOJ and using the bogus science that was concealed via felony acts in the California courts in the SLAPP suit. Governor Brown's office directed me to the State Bar. Jill Sperber and Wonder Li-ang of the State Bar claimed to have lost my complaint file while simultaneously claiming it was proven that California licensed attorney, Mr. Scheuer, did not suborn perjury because Mr. Kelman did not commit it. Mr. Li-ang retired the very next day after making this finding, 12/05/11.

For the US DOJ, Mr. Kelman was using his and Mr. Hardin's bogus extrapolations to claim that the individual military family members could not have been harmed by mold toxins, even though science holds that extrapolations cannot be used alone as proof of lack of causation of individual's illnesses. He was being paid by the federal government for his "expert" opinion. He was simultaneously committing criminal perjury as a plaintiff in CA SLAPP over my writing of how his expert opinion for the US DOJ is based on his scientific fraud that was mass marketed into policy and to courts by federal contractors ACOEM; and by U.S. Chamber ILR lobbyists and the Manhattan Institute CLP; and by U.S. Congressman Gary Miller (R-CA).

The second appellate Remittitur of 12/20/10, awarding costs to non-disclosed "Respondents", was signed and mailed by AOC employee/appellate deputy clerk, Rita Rodriques in violation of Penal Code 134.

Pg 8

Prior to the issuance of the fraudulent 12/20/10 Remittitur, the appellate justices were made aware (they already knew) that the 2010 appellate opinion fraudulently stated "Respondents" awarded costs on appeal; yet the Certificate of Interested Persons submitted by Veritox's and Mr. Kelman's attorney, Mr. Scheuer, on 9/14/09, disclosed only one "Respondent", Mr. Kelman. This too, is a Penal Code violation of submitting known false documents to the court.

Concealed Veritox owner, Mr. Hardin, was not a government employee during these litigations which began in 2005. He became a co-owner of Veritox in 2003. The lower court was made aware of his ownership in 2005. No legal justification for him, his business partners, his counsel, appellate justices or AOC employees to conceal that he was an undisclosed party to SLAPP by falsifications of Certificates of Interested Persons and Remittiturs has ever been provided to me or to my prior legal counsels.

When officers of the court and AOC employees have been legally challenged numerous times regarding concealment of retired U.S Asst Surgeon General, Mr. Hardin's, involvement via falsified Certificates and Remittiturs; no explanation is given for the collusive non-disclosures. Additionally, no explanation has ever been given for the non-disclosure of the four additional owners of Veritox: Ms. Robbins, Ms. Swenson,

Mr. Clark and Mr. Schreibe, as being non-disclosed parties on appeal in 2009-10. The four were never federal employees. They were disclosed as Veritox owners in 2006, but not 2009. This is another piece of evidence establishing that the 12/20/10 AOC employee authored Remittitur awarding costs to "Respondents" is a fraudulent court document.

By law, if appellate justices discover improperly unnamed parties on appeal, they are to request a new Certificate from the counsel. This was never done prior to the AOC Appellate Clerk issuing a Remittitur awarding costs to "Respondents"; after acceptance a Certificate disclosing on one "Respondent". Justice Benke has repeatedly refused to recall and rescind the fraudulent 12/20/10 Remittitur awarding costs to unidentified parties, with no reason stated for denial to rescind the AOC employee falsified court document and fraudulent cost award.

The damages from more AOC employee falsifications to conceal prior ones continue to mount. More AOC employees have gotten entangled into committing felony document falsifications in order to conceal prior ones. You may want to speak to Scott Bushkoll, Deputy Clerk of the 4th/1st regarding his known issuance of yet a third fraudulent Remittitur in 2013. Mr. Bushkoll's known falsification; AOC employees using the United States Postal Service to mail a fraudulent document to me from a non-existent "The Court"; and JC/AOC Legal Services form letter; and are in direct result of the 2008 Void Judgment being concealed by JC members and AOC supervisors. The circle of liability for AOC employees grows, by prior obfuscations. (See fn 11, my notice from 9/11/11) . And it is quite telling of the state of the ethics in the California Judicial Branch that this many court officers and AOC employees could be involved, with no punishment or concern of punishment.

Numerous court officers, including Justice Patricia Benke, have repeatedly refused to vacate the AOC employee falsified 2008 Void Judgment, being fully aware that the AOC falsified document was being used as the foundation to a second harassing case by Mr. Kelman and Mr. Scheuer. Judge Thomas Nugent was aiding them to harass and terrorize me in the second case, with known lack of his court having subject matter jurisdiction.

As you know, under California law a judgment, void on its face, cannot be used for any purpose. Certificates of Interested Parties are to assure that appellate justices have no conflicts of interest in the cases they are reviewing. Glaring concealment of a retired U.S. Asst Surgeon General; the framing of me for libel with actual malice; suborning plaintiff and plaintiff counsel perjury on the malice prong of SLAPP; the State Bar losing a file proving the federal contractor's perjury in SLAPP; and the continued court officer usage of the AOC employee voided Judgment; with the US DOJ needing me discredited to protect their own toxic tort defenses; provides glaring direct evidence collusive conflicted interests, not in the public's best interest -- but in the federal government's interest to defraud the public. (Moldy military housing. Many lawsuits. Veritox's nonsense cited often)

Concealment of the fraudulent Remittitur and continued usage of the Void Judgment includes by court officers and AOC employees who were JC members at the time of their involvement: Justice Huffman, AOC employee Appellate Clerk Mr. Kelly, Superior Court CEO Mr. Roddy, and Presiding Judges Kevin Enright and Robert Trentacosta. The CJP, chaired at the time by Justice McConnell, refused to intercede in early 2011 to stop the harassment by court officers and plaintiffs using AOC falsified court documents while trying to silence me of their frauds by hook or by crook(s).

4. The April 5, 2012 Minute Order in Kelman v. Kramer Case No. 37-2010-00061530 CU-DF-NC use to give me a false FBI record.¹⁹[18] It was hand signed by Judge Thomas P. Nugent and hand couriered to the San Diego Sheriff Department. I had to file five exparte motions for my being given a false criminal record, with this additional falsehood then being the end result in abuse of a court with no subject matter jurisdiction.

The evidence indicates that it was intentional that I was given a false criminal record. Judge Nugent kept trying to force a public defender on me, Tracey Sang, for civil contempt of court. Without being my retained egal counsel, Ms. Sang testified at the Contempt Hearing. She, Judge Nugent (and Mr. Scheuer prior to the hearing according to Ms. Sang) discussed that I needed to be charged with a misdemeanor. Ms. Sang stated in the Contempt Hearing, which I refused to attend because of court lack of jurisdiction, that a psychological examination of me under Penal Code 1368 may be in order.

According to the law, in order for a Penal Code 1368 to be implemented, the criminal's retained counsel must bring it to the attention of the court. When I received the transcript of the 1/06/12 Contempt Hearing, I immediately scheduled a psych exam of myself to stave off this malicious, conspiratory attack. It was obvious that they wanted me deemed a mentally incompetent criminal, so Ms. Sang could then become my forced silenced voice in order to assist sweeping the collusive fraud under the rug.

The April 5, 2012 Minute Order was used to give me a false FBI record under C.C.P.1218(a). This occurred while removing the false criminal record I was given under Penal Code166 while jailed for civil contempt of an uncivil judge – not a civil court. The false imprisonment, bodily harm, emotional distress and relentless character assassination I have sustained, never would have occurred had AOC supervisors, JC members, other court officers, Mr. Scheuer and Mr. Kelman, not tried to conceal that the predicate case 2008 Judgment, was void on its face via AOC employee ante-datings; with additional malicious concealments by those involved.

I was jailed in March 2012 for my refusal to commit perjury of publishing a false confession on the Internet of being guilty of libel for a sentence I never even wrote²⁰[19] to conceal how appellate officers framed me for libel for an different and accurate sentence; and for my refusal to sign a false confession that was crafted by Mr. Scheuer and presented to Judge Nugent on 2/10/12.

²⁰[19] 1/19/12 Contempt Order that I publish a false confession of libel for a sentence I never even wrote(See fn 7 & pg 17 for my actual March 9, 2005 writing that I published on the Internet) <http://freepdfhosting.com/8f4bda9454.pdf>

His proposed false confession contains the sentence “I do not believe Dr. Kelman committed perjury.”²¹[20] 22[21]

All judicial officers involved in this case since 2005, have been provided, yet suppressed, the direct evidence that Mr. Kelman committed material perjury to manufacture reason for malice. Mr. Scheuer repeatedly suborned it and used it to cause Judge Schall to limit the scope of the 2008 trial so Veritox’s scientific fraud could not be discussed in front of the jury; and my expert witness could not testify. (See fn. 10, 11,16 for direct evidence)

Pg 10

Issued from a judge coram non iudice feigning it was from a court with subject matter jurisdiction, the 4/05/12 Minute Order is an instrument that was used to cause production of false state and federal records without judicial immunity for the felonious acts of Judge Nugent; while also concealing the AOC employee falsified court documents from the foundational SLAPP suit and much Penal Code 134 collusion by plaintiffs, AOC employees and numerous court officers coram non iudice.

The April 5, 2012 minute order character assassinate me to conceal that I was unlawfully jailed, physically harmed and terrorized for refusing to be coerced to commit perjury to conceal criminal collusion in your courts involving judiciaries whose courts had no subject matter jurisdiction, JC members, CJP Chair, AOC employees, federal contractors and their counsel. (See fns. 11-15, 2008 Void Judgment; conflicting Abstract; conflicting ROA; and JC Chair & AOC Director notification of AOC falsified documents on 9/11/11).

I was found in contempt by Judge Nugent by order on 1/19/12, via motion of Mr. Scheuer, 10/10/11, for letting it be publicly known on the Internet that I sent the JC Chair, AOC Director, and involved JC/CJP members, the direct evidence on 9/11/11 of AOC employee falsified material documents, suborned plaintiff perjury, etc. Mr. Kelman was awarded over \$19,000 in the contempt order of 1/19/12, and Mr. Scheuer recorded a second fraudulent Lien on my property. Judge Nugent gave no stated reason orally or in writing for the \$19K; making this provably the second fraudulent Lien that Mr. Scheuer and Mr. Kelman recorded with the County Recorder.

As I explained to U.S. Senate HELP Legislative Assistants in a meeting in DC earlier this year; “I feel like I have fly-paper stuck to me”. If I did not respond to Mr. Scheuer’s, Mr. Kelman’s and court officers’ aggressions; court officers would proceed like they had subject matter jurisdiction and rule against me without my input. If I did

respond, they ignored the evidence of their lack of subject matter jurisdiction and frauds upon the court without providing any contradictory evidence -- and while abetting Mr. Scheuer's and Mr. Kelman's relentlessly, terrorizing attempts to silence me of Veritox's maiming and killing people through the proliferation of their scientific fraud --a cost-shifting scheme -- in U.S. policies and U.S. courts. While courts had no jurisdiction, I have had to respond as a harassed U.S. citizen. Indicative that the problem originates at the top of the judicial branch, I now have to respond to your obfuscating form letter of July 11, 2013 as a harassed U.S. citizen while you stall from addressing the AOC employee issued and JC member concealed, fraudulent documents.

5. The June 12, 2013 Notice sent by AOC employee, Browder, from a non-existent "The Court"^{23[22]} As you are aware via my correspondence of June 27, 2013 to which you mailed the obfuscating form letter reply on July 11, 2013; a fraudulent June 12, 2013 reply (to my May 27, 2013 request that 18 judiciaries provide evidence they have not participated in fraud upon the court and concealed AOC employee falsified material court documents) was mailed to me by AOC employee, Jay Browder, on behalf of a fictional "The Court". This is an additional court abuse enabling Judge Nugent to obfuscate providing the (impossible) evidence which would prove he did not knowingly preside over *Kelman v. Kramer* 37-2010-00061530 CU-DF-NC, coram non iudice; while he practiced physically, financially, libelously devastating, and emotionally terrorizing malicious acts.

As you know, Judge Nugent's prior assignment was in Department 30 of the North San Diego Superior Court when he oversaw *Kelman v. Kramer* Case No. 37-2010-00061530-CU-DF-NC, with known lack of subject matter jurisdiction. Department 60 is in the San Diego courthouse. Mr. Browder clerks for Judge Nugent in this court. Judge Nugent is now a mediator. Contrary to the June 12, 2013 AOC employee USPS mailed notice from the non-existent "The Court"; Judge Nugent never oversaw Case No. GIN044539. This matter was never in San Diego Superior Court, Department 60. It was overseen by numerous judges in Departments 28 and 31 – but never Judge Nugent.

Pg 11

"The Court" notice from the clerk of San Diego Department 60 was issued from the North County, indicative of multiple AOC employees' involvement. No reply or refuting evidence was received from the other 17 judiciaries who were also asked by me in writing on 5/29/13, to provide evidence that AOC employees did not falsify court documents that they continued to use to harass me as they practiced fraud upon the court.

Chief Justice Cantil-Sayauke was also sent the request for production of evidence because her hands on involvement from the bench and as the JC Chair in receipt of notification of falsified court documents on 9/11/1. No reply to my May letter, or refuting evidence to prove lack of concealment of AOC employee falsified documents and frauds

upon the court by JC members, was received from Chief Justice/JC Chair Cantil-Sayauke.

As you know, while presiding without subject matter jurisdiction in Case No. 37-2010-00061530-CU-DF-NC, Judge Nugent attempted to terrorize me into silence, jailed me and caused me bodily harm and emotional distress to the point that I became painfully, physically ill. As you know, Mr. Roddy and Judge Trentacosta were well aware of the terrorizing which was occurring in Judge Nugent's prior court. They did nothing to address the AOC employee falsified documents that Judge Nugent was using, coram non judice; while knowing I was terrified that Judge Nugent would jail me again and cause me more bodily harm. Instead, they shielded Judge Nugent, Mr. Kelman and Mr. Scheuer, by moving Judge Nugent to another court in San Diego and making him a mediator.

In the fall of 2012, a new judge, Robert Dahlquist, was assigned the case by Mr. Roddy and Judge Trentacosta, to feign ignorance of the collusively criminal matter, after they whisked Judge Nugent away. I feel certain you can understand why I was so offended by your form letter of July 11, 2013, on behalf of the JC Chair and AOC Director, directing me to Mr. Roddy and Judge Trentacosta to address your responsibilities.

Judge Dahlquist had the nerve to hold a Vexatious Litigant hearing by motion of Mr. Scheuer, knowing his court had no subject matter jurisdiction because of the AOC employee altered 2008 Void Judgment from the first case, being the sole foundational document that Mr. Scheuer and Mr. Kelman had submitted to commence the second harassing case. Disturbingly wicked, Judge Dahlquist literally laughed out loud as he held the vexatious litigant hearing, coram non judice. I and anyone who has ever been to law school, know that a void judgment cannot be used for any purpose; that it is void even prior to vacating; that litigants cannot give a court subject matter jurisdiction to hold hearings based on a known void judgment; and that judiciaries who knowingly use void judgments to issue rulings have no immunity for malicious, defrauding, and not the least bit funny, acts.

Judge Dahlquist did not follow through on deeming me a vexatious litigant for filing motions as a U.S. citizen for someone, anyone, to vacate the 2008 Void Judgment and stop harassing me for telling the truth of a massive fraud in America. Judge Dahlquist denied Mr. Scheuer's motion without prejudice.

I take that as a thinly veiled threat that should I, as a defendant in California courts with no subject matter jurisdiction, try again to have now two void judgments/contempt orders 24[23] vacated and thus Mr. Kelman's fraudulent liens removed from my property; I will be deemed a vexatious litigant by judges with no immunity and no concern of punishment by the CJP or anyone else. This, in collusive retaliation for my refusal of silence of your severely compromised subordinates' roles in the fleecing the public over environmental disabilities with federal contractors, Veritox, and their "legal" counsel, Mr. Keith Scheuer.

Even though no court had subject matter jurisdiction, I had to file another appeal at the beginning of 2013 or it would have all been swept under the rug while thousands continue to suffer and costs for their disabilities continue to be shifted onto SSDI. I waited for Justice McConnell to knowingly and fraudulently accept her court's jurisdiction; then challenged it as is my legal right to do as a U.S. citizen being harassed by "fly paper" court officers with no subject matter jurisdiction. I also filed an appellate motion for the predicate case 12/20/10 Remittitur to be recalled and rescinded and the 2008 Void Judgment, sole foundational document to the second case, to be vacated.

As anticipated, Justice Benke again refused to recall and rescind the AOC employee undeniably fraudulent Remittitur and vacate the AOC employee undeniably voided judgment from the foundational case – knowing that Justice McConnell was relying upon them in the same appellate court for feigned subject matter jurisdiction. So, Justice Benke refused to vacate the felonious fraud. Presiding Justice McConnell refused to prove that it was not fraud. Justice McConnell dismissed the case without establishing that her court had subject matter to do so, when I refused to file an opening brief in her court --which provably had no subject matter jurisdiction, concealed again by Justice Benke's umpteenth denial to rescind and vacate AOC employee falsified court documents.

California Chief Justice Cantil-Sayauke refused to intercede being made fully aware of the incestuous frauds in her courts aiding to fleece the United States public for no less than two years. (See fn. 8, 10, 11) JC/AOC Legal Service sent a form letter to obfuscate on behalf of AOC Director Jahr and JC Chair Cantil-Sayauke from addressing AOC felony document falsifications being covered up by JC members and other court officers – while causing the public fleecing to continue via Veritox's scientific fraud being able to still be parroted in U.S. policies and courts;25[24] by acts of severely compromised leading officers, JC members and AOC supervisors of the California courts.

U.S. Congressional & Other Government Employee Involvement in the Debacle

In addition to rampant fraud upon the court in this CA SLAPP aspect of the mold issue; the mass fleecing of the public would have been put to bed long ago were it not for a February 2007 act of the Democrat U.S. Senate Health, Education, Labor and Pension (HELP) Committee. They aided to conceal what was occurring in the California courts by a deletion of an aspect of investigation from a federal audit of the mold issue.

As noted on page one, I sent a letter on June 27, 2013 to the JC Chair and AOC Administrator26[25] containing the direct evidence of the latest AOC employee falsified document from a non-existent "The Court" regarding a judicial officer trying to run from

his involvement in the fiasco. It and a cover letter^{27[26]} were faxed on July 11, 2013. to twenty-three US Senators including California Senators Boxer and Feinstein and to President Barack Obama.

The cover letter, which many were faxed on the same day that JC/AOC legal services coincidentally chose to mail the stalling form letter; discusses some of the federal and California government employees' involvement in aiding and abetting Veritox's scientific fraud to continue. Two HELP members, Senators Paul and Kirk, did not have working faxes. They did not receive the letter with the direct evidence that your courts are teeming with those who would commit criminal acts to defraud the public via "Speak With One Voice" and forked tongue, Stare Decisis, to cover for criminal actions of others'.

All other Senate members of HELP along with Senators Feinstein and Boxer, did receive the evidence. Not One of these elected officials has bothered to respond, to ask questions, or to offer to help stop the fraud; while many U.S. citizens are losing everything, some are becoming permanently disabled and some are dying from it.

Pg 13

The late U.S. Senator Edward Kennedy ordered a Federal Government Accountability Office (GAO) audit of the mold issue in October of 2006. At the time of HELP's 2007 deletion from the federal audit of looking into conflicts of interest; I was not aware that the USDOJ was using Veritox and their bogus science for defense in mold cases.

I believed in my government and the courts enough to think that Justice McConnell's November 2006 anti-SLAPP opinion must have just been a grave mistake -- one that accidentally framed me for libel by deleting 14 key lines from the middle of a court transcript making it appear that I failed to investigate (See fn 8, 16); concealed Mr. Kelman's perjury and Mr. Scheuer's suborning of it to manufacture reason for malice; concealed retired Asst. Surgeon General Hardin's involvement; and stated false reason for suppressing the evidence of Veritox's bogus science being thrown out of a 2006 Sacramento case -- while her "mistakes" aided the scientific fraud of Veritox to continue.

In 2006, I had no idea just how politically compromised the California judicial branch really is. With great saddens, I no longer believe in the integrity of those who govern this country I love, the USA -- another thing stolen from me by the compromised in the California legal system and complicit politicians. In relevant parts, my July 11, 2013 cover letter to U.S. Senators of HELP, Senator Feinstein, Senator Boxer, et.al., states,

In October of 2006, the late Senator Edward Kennedy was the Democrat chairman of Senate HELP. He ordered a Federal Government Accountability Office (GAO) audit of

the mold issue at my urging.[28[27]] This is because I and others had sounded the alarm to Senate HELP of the mass marketing of scientific fraud in policy and courts claiming false scientific proof that these environmental illnesses were not occurring, and the harm it was doing to the public.[29[28]]

As I am sure you can imagine, it was no small feat for a Plain Jane average citizen to walk into DC armed only with proof of scientific fraud marketed into policy, be able to moderate a Senate Staff Briefing with a panel of true scientists on the subject, and walk out of DC with a federal GAO audit.

Unfortunately, in February of 2007 [less than three months after Justice McConnell framed me for libel in her November 2006 anti-SLAPP Opinion] the following was deleted from the scope of the GAO audit by Senate HELP which gutted the possibility of anyone being punished for their role in the mass marketed scientific fraud or it being shut down completely from policy and courts any time soon.

“What medical and scientific standards are used in determining the admissibility of evidence of both acute and persistent health consequences resulting from exposure to mold? Which individuals and organizations have promulgated these standards and what, if any, conflicts of interest exist regarding these standards?”

This deletion also left me vulnerable for horrific, relentless, politically motivated retaliation for exposing the mass fraud and its usage in U.S policy and courts. For my efforts to shed light upon and try to stop **what must be one of the dirtiest tricks ever played on the American public**, I have been framed for libel in California for the 100% accurate words, “altered his under oath statements” in the first public writing, mine in 2005, of how the scientific fraud became policy; driven to the brink of poverty; jailed for refusing to sign a false confession of being guilty of libel; caused bodily harm; terrorized with threat of more jailing and more bodily harm; character assassinated; given a false FBI record; and court ordered to commit criminal perjury on the Internet by publishing a false confession of libel for a sentence I never even wrote -- by a judge whose court had no subject matter jurisdiction. I was also court ordered to choose between signing a paper which contains the sentence “I do not believe Dr. Kelman committed perjury” or go to jail. I went to jail rather than betray my fellow Americans....

Pg 14

I currently have tens of thousands of dollars of fraudulent and interest accruing liens on my property by those who “promulgated these standards” but were spared investigation in a federal GAO audit, USDOJ contractors Mr. Kelman, Mr. Hardin and their four co-principals of Veritox, Inc. The California courts have provably falsified documents to continue to harass me. I am unable to work in my profession as a Rancho Santa Fe, CA, real estate agent as this profession requires a reputation of solid integrity. Being falsely

deemed a malicious liar by the courts has ruined my career and livelihood. This, while I am forced to watch lives continue to be devastated to this very day from the “Lies Behind The Toxic Mold Issue” I first exposed in 2005 to Senate HELP and to Senator Barbara Boxer, remaining in policy and courts -- in large part because Senate HELP took direct measure to stop the GAO from shutting it down.

At the time of deleting the aspect from the GAO investigation, “Which individuals and organizations have promulgated these standards and what, if any, conflicts of interest exist regarding these standards?” Senate HELP knew of the SLAPP in California and that Mr. Kelman, an individual who “promulgated these standards”, committed perjury to manufacture a reason for my alleged personal malice. Check your files. One month before the deletion from federal audit, Mr. Kelman, Mr. Hardin and ACOEM [also federal contractors] were the subject of a front page, above the fold Wall Street Journal article titled, *“Court of Opinion. Amid Suits Over Mold Experts Wear Two Hats, Authors of Science Papers Also Work For the Defense in Mold Litigation.”*[30[29]]...

As Senate HELP has known since 2005, it is pure nonsense that such a conclusion of proof of lack of causation of illness could be formed on such limited data. [Toxicologists with only PhDs – not medical degrees – Mr. Hardin and Mr. Kelman of Veritox, Inc., came up with a bogus risk assessment model and claimed this proved mold toxins indoors could never harm anyone. They have made millions in U.S. courts while providing false witness that their extrapolations prove mycotoxicosis from indoor exposures **“Could not be”**.] As one more piece of proof that I am telling the God’s honest truth of mass marketed scientific fraud by the federal contractors; NIESH/NTP in conjunction with NIOSH, now claim to have come up with a method that more accurately reflects mold exposure in water damaged buildings, via inhalation mechanistic research. Released by NIEHS, June 2013:

“With NTP support, NIOSH has developed a device known as an acoustical generator that can create and disperse molds for rodent studies that closely mimic real world human exposure. Until now, it has been extremely difficult to aerosolize dry mold for laboratory studies, so that the exposure is similar to what humans may experience.”

.....In addition to being federal contractors who write the workers comp guidelines for the US Department of Defense, ACOEM writes the workers comp guidelines for the State of California. DA [Bonnie] Dumanis is well aware of how their fraudulent mold statement, penned by Mr. Kelman, Mr. Hardin and UCLA physician Andrew Saxon, has been used by insurers in San Diego county to deny liability for causation of worker injury from moldy buildings. (Dr. Saxon did co-author the ACOEM Mold Statement with Mr. Kelman and Mr. Hardin. He claims under oath that he did not co-author the paid for hire U.S. Chamber one, even though he is listed as an author.)

DA Dumanis is well aware of Mr. Kelman's perjury in SLAPP as concealed by judiciaries when aiding and abetting the FELONY workers comp fraud to continue. I am on approximately 3 hours of tape explaining it to the DA's office and have much documentation to and from her office. She knows of the retaliation I have experienced, including but not limited to, cyberstalking by "The Courthouse Gang".

DA Dumanis knows how the scientific fraud is used in workers comp insurer fraud in San Diego county, because I helped her office with a case (in which she ultimately did nothing), before she knew of the SLAPP/suborned perjury aiding the scientific fraud to continue on its way. [A notorious political animal according to the local police who are not supporting her re-election bid, she continues to accept approximately \$5M per year from the California Fraud Assessment Commission (FAC) and uses a portion of the money for false billboard advertising with her picture on it to promote that she prosecutes felons in Workers Compensation – apparently, just not her friends in the local courts who are responsible for millions, if not billions, in workers comp insurers' costs being shifted onto SSDI nationwide, for environmentally induced work disabilities.]

...If 25% of the entire U.S. Senate can't put their heads together to remove a simple twist of mass marketed scientific fraud from policy and the courts – that two guys armed solely with a calculator & think-tank money and their clients use to deny people are being maimed and sometimes even killed by biotoxins in water damaged buildings -- then I justifiably have little faith that the current make up of U.S. Senate is functional enough to accomplish anything of more complexity on behalf of the public.

If eighteen California judiciaries, including two Chief Justices along with numerous clerks, cannot provide direct evidence to prove they have not suborned US DOJ contractor perjury in SLAPP, coram non iudice via document falsification, while adversely impacting the health and safety of thousands; then I justifiably have little faith in the ability of the current make-up of California legal system to uphold the law....

No one denies the above is true or provides refuting evidence. They just proceed on like Emperors and Empresses with New Black Robes – while the science fraud of Veritox plays on to harm many.

Helloooooo???? SILENCE IS NOT A DEFENSE

Enough already!!! The use of trumped-up libel charges in SLAPP for my undeniably accurate sentence containing the words, "altered his under oath statements", to stop free speech and peaceful dissent of politics causing bogus, deadly science in the courts and in public health policies, makes a mockery of the rule of law.

Ask yourselves this: If Sharon Noonan Kramer is lying about the scientific fraud, think-tank bribery of a retired Asst Surgeon General, forgery of university affiliated physician authorship on a key policy paper, insurer fraud, cost-shifting onto SSDI, AOC falsified court documents, US DOJ contracting with criminals who commit perjury when a plaintiff in SLAPP, concealment of parties, fraudulent FBI records, unlawful jailing,

bodily harm, attempted coercion into perjury by a judge whose court had no subject matter jurisdiction, false liens, multiple judges practicing and concealing coram non judge act, false advertising by the local DA while she aids felony cost-shifting onto SSDI, political and sectarian misuse of the UC name in litigation, Senate HELP stopping investigation of who mass marketed the scientific fraud, discrimination of environmentally disabled written into fraudulent polices to mislead courts, causation of death and disability through proliferation of scientific fraud abetted by criminal acts of AOC employees and JC members, etc.

Pg 16

Then why has she only ever been sued for the words “altered his under oath statements” and framed for libel for those? Why do court officers, JC Chair and AOC Director, direct AOC employees to send obfuscating replies, rather than provide direct refuting evidence to the allegations of AOC employee document falsifications in SLAPP? Why do Holder, Harris and Dumanis all remain mum when provided direct evidence of felonies in a massive cost shifting scheme to fleece the public? (See **ODE TO TOXIC MOLD SUFFERERS** for probable cause)

The “Manhattan Institute commissioned piece” for the US Chamber was the subject policy paper of my 2005 writing. It is undeniable that you all have terrorized me for exposing fraud. From my 100% accurate 2005 writing:

Dr. Bruce Kelman of GlobalTox,Inc, [Veritox’s former name] a Washington based environmental risk management company, testified as an expert witness for the defense, as he does in mold cases throughout the country. **Upon viewing documents presented by the Hayne's attorney of Kelman's prior testimony from a case in Arizona, Dr. Kelman altered his under oath statements on the witness stand.** He admitted the Manhattan Institute, a national political think-tank, paid GlobalTox \$40,000 to write a position paper regarding the potential health risks of toxic mold exposure. Although much medical research finds otherwise, the controversial piece claims that it is not plausible the types of illnesses experienced by the Haynes family and reported by thousands from across the US, could be caused by "toxic mold" exposure in homes, schools or office buildings.

In 2003, with the involvement of the US Chamber of Commerce and ex-developer, US Congressman Gary Miller (R-CA), the GlobalTox paper was disseminated to the real estate, mortgage and building industries' associations. A version of the Manhattan Institute commissioned piece may also be found as a position statement on the website of a United States medical policy-writing body, the American College of Occupational and Environmental Medicine. [ACOEM]

Only a willing fool could believe that Mr. Kelman and Mr. Hardin proved mold toxins could never reach a level to harm or kill any individual, as they claimed they did in 2003 for the U.S. Chamber Institute for Legal Reform (ILR) and Manhattan Institute Center for Legal Policy (CLP). To quote their fraudulent “Scientific View” conclusion for ILR/CLP, founded upon their nonsense risk assessment model:

“Thus the notion that toxic mold is an insidious secret killer as so many trial lawyers and media reports would claim, is Junk Science unsupported by actual scientific study.”

FORGED UNIVERSITY OF CALIFORNIA PHYSICIAN AUTHORSHIP

Additionally, Mr. Kelman provided the direct evidence in the SLAPP suit of *Kelman & GlobalTox v. Kramer*, Case No. GIN044539, that he and Mr. Hardin forged University of California physician co-authorship on the ILR/CLP “A Scientific View of the Health Effects of Mold”; that and the CLP knew of the forged authorship. The proof came in the form of the CLP contract with Veritox³²[30]; billable hours for only Mr. Kelman and Mr. Hardin ³³[31]; cancelled CLP checks for only the duos’ billable hours³⁴[32]; and Mr. Kelman’s direct statements in deposition testimony, July 2008, claiming Dr. Andrew Saxon of UCLA co-authored the scientific fraud for the CLP/ILR but was not paid for his work.³⁵[33] Yet in 2006, CLP/ILR listed co-author, Dr. Andrew Saxon of UCLA, stated under oath that he did not author the ILR/CLP’s unscientific “Scientific View”.

Pg 17

To quote Dr. Saxon three years after the U.S Chamber ILR’s “Scientific View” was published with him named as co-authoring it, “I’ve never seen that version. I’ll call it an unscientific piece that has my name on it.”³⁶[34]

Had Dr. Saxon also contracted to co-author the CLP/ILR "Scientific View", the Regents of the University of California would have received payment for their employee's work. Under the by-laws that govern the UC, he would not have been able to give the UC name away for free, if he, like Bruce and Bryan, contracted with the CLP to co-author “A Scientific View of the Health Effects of Mold”.

All involved state that no one was paid for Dr. Saxon to co-author this paper -- because he did not - or someone is lying about the payment and contracts. His name is forged on it to make the policy paper appear to have university affiliation; and thus to give false credibility to Veritox's scientific fraud written to mislead the courts. Although

36[34] 11/06 Deposition testimony of Andrew Saxon stating he did not author the Chamber’s Scientific View and had not even read it, three years after its publication. <http://freepdfhosting.com/daf7d27e86.pdf>

I did not know of the forged authorship when I wrote of the scientific fraud of the U.S. Chamber ILR's "Scientific View, this evidence alone proves scientific fraud that they were trying to stop from coming to public light via these malicious SLAPP suits aided by your severely compromised AOC subordinates and JC member peers. Justices Huffman, Benke and Irion, had and suppressed this evidence when issuing the 2010 Appellate Opinion; and of how the "Scientific View" was being used to lend false credibility to Mr. Kelman's expert opinion in a mold case in Arizona involving two deceased infants.

Mr. Kelman also stated under oath in July of 2008, that he and Mr. Hardin were paid by the CLP (while forging physician co-authorship on the CLP/ILR policy paper) because the ILR/CLP wanted "something judges could understand".^{37[35]} Forging authorship and university affiliation on science papers to lend false credibility in U.S. courts is also a legal matter of fraud. UC Legal Counsel on name usage, Mary MacDonald, Esq., along with the Regents and former UC President have had knowledge of this since 2010.^{38[36]} You may want to confer with Ms. McDonald regarding what all evidence she has.

**It Is Your Responsibilities, Chairwoman Cantil-Sayauke, Director Jahr, JC/AOC
Litigation Manager Kaufmann, & JC/AOC Chief Counsel Roberts to Stop the
Defrauding of the U.S. Public**

Over two years ago, I turned to the JC Chair, AOC Director and other JC members to stop the defrauding and stop the harassment of me in order to help save lives. I provided the evidence of AOC employee falsified documents, court officers' suborning of perjury, etc, including by JC members. Two years later, your form letter of July 11, 2013 is indicative that systemic willful blindness to criminalities in your courts originates in the leadership of the courts, namely within the leadership of the AOC/JC, namely you. Please, no more excuses and delays.

Having obfuscating letters sent from the AOC/JC Legal Services on your behalves when provided with the latest AOC employee penal code violation in the eight year debacle, does it negate your legal obligations to address AOC employee felonies, Judge Jahr. Concealment of the felonies by Judicial Council members, a committee of which you select the members to steward the direction of the California judicial branch, is your responsibility to address, Chief Justice. If you are going to provide legal services to the JC/AOC heads, Ms. Roberts and Justice Kaufmann, then advise that they act to stop felonies by JC members, other court officers and their AOC employee – not obfuscate by directing me off on a wild goose chase via an insulting form letter.

This must stop by acts of your hands. The last thing I would want to do as a sole U.S. citizen is have to sue the powerful Chief Justice of California, Director of the Offices of the Courts, and the JC/AOC Legal Services Department/Committee Chair for conspiring to defraud the United States public. If you all do not rectify this massive and ever-damage mounting problem yourselves, I will have no choice but to sue you for the public good; and **all I must do is provide the irrefutable evidence of the 2008 Void Judgment, to prove the mass fraud.**

I would prefer that you take this matter as an opportunity, yourselves, to timely clean up some inherited severe ethics problems occurring under your watch of the courts. Everyday that you obfuscate addressing the AOC employee falsification of material court documents is another day that someone, somewhere, is being harmed by Mr. Hardin's and Mr. Kelman's bogus, naysaying science remaining in some U.S. policies, courts, medical schools, medical practices and claims handling, cost shifting practices. It is another day that you, personally, are causing the circle of deceit to grow, adverse to your peers' and subordinates' best interest. Example: Now the Hon. Ira Kaufman and Mary Roberts, Esq. will have proven unclean hands should the JC Chair and AOC Director choose to continue to feign ignorance.

THE POINT IS THIS

Now that you have once again been shown the massive damage occurring by the concealment of falsified AOC employee documents in SLAPP suits over a matter impacting thousands of your fellow human beings:

Chief Justice Cantil-Savauke, Judge Jahr, Justice Kaufman, and Counselor Roberts: You will be unable to prove that Judicial Council (JC) members, court officers and Administrative Offices of the Courts (AOC) supervisors did not commit felony concealment of AOC employee falsified material court documents in Strategic Litigation Against Public Participation; with the SLAPP suits being initiated by federal contractors of the US DOJ, and their California counsel against an advocate for truth in U.S. health marketing. Therefore under Penal Code 134, as JC/AOC governors, it is your legal responsibilities to not also commit felonies by concealment of your subordinates' concealments; and to mitigate the damage to the truth advocate and to the United States public for whom she advocates.

If there is anything you do not understand about what you must do to stop the public fleecing over the mold issue; and stop causing environmental disabilities, deaths and cost-shifting via concealed AOC employee document falsifications in SLAPP abetting the proliferation of Veritox's scientific fraud that I first exposed in 2005; please ask for my input. I would be more than happy to assist you – rather than have to sue you.

No amount of falsified documents in your courts can stop me from writing the truth of this, and what those who work under you have done by criminal means to aid the fleecing of the public to continue over the mold issue. And for my exposing a mass marketed fraud in policy for the purpose of misleading U.S. courts; my husband and I certainly do not deserve to be financially ruined to the point that we teeter on the verge of losing our home; and me horrifically character assassinated, jailed, caused bodily harm, and terrorized by criminal acts of those who are to protect the right to speak the truth

guaranteed to all U.S. citizens under the Constitution, and who work under your supervision.

Pg 19

If I have made any errors in this Notice of Intent to sue you, such as dates, typos, etc, please let me know. I will correct them on the blogs of “ContemptOfCourtFor.Me”, “Katys Exposure” and “[Just Answer The Damn Question!](#)” The blogs, where you can click on the links of evidence in this letter, will all be live by no later than 10/20/13.

Good men and women who make mistakes of this magnitude, no longer make the mistakes or they are no longer good men and women. If you are good men and women, kindly let me know as soon as possible how you intend to rectify the damage and to bring this matter to lawful resolution for the health and safety of the United States public; for the promotion of future integrity in the California judicial branch and its Administrative Offices of the Courts; and for the protection of the Constitutional right to speak the truth in America. The fleeced taxpayer; the environmentally disabled; and my devastated husband and I would sincerely appreciate your prompt, earnest attention to this gravely serious matter.

Sincerely,
Mrs. Sharon Noonan Kramer

All total, 103 past and present government employees, lobbyists and federal contractors along with Veritox's SLAPP counsel, Mr. Keith Scheuer, are receiving a copy of this letter. Given the magnitude of the fraud I am accusing has been aided to continue by criminal acts in California Strategic Litigation Against Public Participation; if it existed, surely no less than one of you could provide or cause to be provided refuting, direct evidence that the 2008 Judgment, 2008 Abstract of Judgment and 2010 Remittitur from the SLAPP suit of *Kelman & GlobalTox v. Kramer* Case No. GIN044530/D054496 in the San Diego Superior and Appellate courts are valid legal documents that have been lawfully used by officers of the California judicial system – in the face of my direct evidence that they are not valid and are being used to fleece the U.S. public. My direct evidence establishes they were used by federal contractors, Veritox; their attorney, Mr. Scheuer; and California court officers to harass me to defraud the public over the mold issue and environmental disabilities.

This, with numerous judiciaries having no subject matter jurisdiction, and thus no judicial immunity for defrauding the United States public via malicious litigation instigated by toxic tort defense witnesses for the United States Department of Justice, owners of Veritox; and AOC employees never having immunity for document falsifications.

If it existed, surely one of you could provide refuting evidence proving that federal contractors, Mr. Kelman and Mr. Hardin of Veritox, Inc., did not accept a bribe from the Manhattan Institute CLP think-tank in 2003 to forge UCLA physician co-authorship on the influential U.S. Chamber ILR's scientifically bogus "A Scientific View of the Health Effects of Mold". – in the face of my direct evidence that this did indeed occur; and that the UC Regents have permitted the UC name to be misused in mold litigation in political and sectarian violation of Article IX of the California Constitution.

This, while aiding and abetting insurers to cost shift for environmental disability and death; and while leaving the sick and dying nowhere to turn for informed medical help by the practice of educating US physicians with false science. It should be noted that the Regents have received funding from the CDC/NIOSH to teach the scientific fraud of Veritox to UC physicians; and have generated income when these misinformed physicians serve as expert witnesses for the defense in mold litigations while parroting the scientific fraud of Veritox.

Pg 22

If not able to provide (impossible) refuting evidence, surely not less than one of you could cause the Chief Justice of California, Tani Cantil-Sayauke; and Director of the Administrative Offices of the Courts, Judge Jahr, to stop the continuing damage to the U.S. public and to me, via their admission of concealment of AOC employee falsified court documents in SLAPP. In reality, they only have to admit the falsification of one legal document to stop Veritox's massive fleecing of the public. The 2008 Void Judgment from *Bruce J. Kelman and GlobalTox, Inc. v. Sharon Kramer* Case No. GIN044539, North San Diego Superior Court, Department 31, the Hon. Lisa Schall presiding. In multiple violations of Penal Code 134, it was ante-dated twice by her clerk, AOC employee Michael Garland, and continued to be used by numerous court officers, the plaintiffs/US DOJ expert defense witnesses Veritox & Bruce J. Kelman, and their "legal" counsel Mr. Keith Scheuer to harass a United States whistleblower – without courts having subject matter jurisdiction.

Should no one in government from California to Washington DC choose to act to shut down this fraud while U.S. citizens are losing everything, some are being disabled and some are dying; this letter is to serve as notice of intent to sue the Chair of the Judicial Council Tani Cantil-Sayauke; the Administrative Director of the Courts Stephen Jahr; Judicial Council/Administrative Offices Chief Legal Counsel Mary Roberts; and Chair of the Judicial Council and Administrative Offices of the Courts Committee on Litigation Management, Ira Kaufmann; et.al. I will be forced to file a David & Goliath federal suit for obstruction of justice, concealment of evidence and conspiring to defraud -- if no government employee does their elected, appointed or hired job.

NO ONE is above the law. SOMEONE needs to explain to the United States public and to my husband and me, why I was able to be so horrifically targeted for telling the truth of a massive fraud in America; with the matter sinking to new unconstitutional lows of felony concealment of legal document falsifications by judicial branch employees and federal contractors; along with why I was able to be falsely imprisoned in the USA, coram non judio, for refusing to be coerced into perjury – long after I first exposed the fraudulent health marketing scheme and its proliferation of the deadly scientific fraud, to U.S. Senators. This letter serves as just the tip of the iceberg of what I can prove of collusion to defraud the United States public by falsely claimed proof of lack of biotoxin poisonings occurring, via the use of scientific fraud in policy and courts.

I declare under penalty of perjury under the laws that govern the State of California and the United States that the foregoing is true and correct to the best of my knowledge. This NOTICE OF INTENT TO FILE FEDERAL LAWSUIT, if government employees do not move to protect U.S. citizens from scientific fraud in U.S. policies and courts abetted by the compromised in the California legal system, is executed by me on October 12, 2013 in Escondido, California.
