Journaling

The word interests can be used in several ways. Today we'll look at two uses of the word. You can choose either or both to journal about today.

Interests = hobbies

What hobbies do you enjoy? Are there any hobbies you've had in the past that you no longer do?

Are there other things that interest you that you'd like to try?

Interests = concerns

How do you look after your concerns and the concerns of others? How do you feel when you put the interests of others before your own?

Technique Challenge

Add metal to your page. This could be in the form of embellishments or use some metal foil. You could try using a used aluminium drinks can and cut out shapes with your scissors or with a die cutter.
