

Replacing the converter kit

Versatile version

After installing Kit

SPARE PARTS

You will need a Phillips screwdriver .

Make sure that you use the correct sized head, as the screw is soft and can be damaged.

Tip Turn machine on its back, make sure that you remove the water tank and plug out first.

1. Remove the small screw in the centre of the brewing screen, the screw and shower screen will fall away.

2. Insert the new brass converter kit and new shower screen
Insert long screw and tighten using screwdriver,
Now your machine is ready for ground coffee.

Tip If you use the old Crema baskets, you will have to replace with new crema baskets
Or the standard Ascaso baskets.

Please Note:

Your new kit is now lower than it was, so you will have a little less room in the filter baskets, so you may have to put less coffee in.

This may require you to make the coffee ground finer

Kit contents

1. Stainless Steel shower holder
2. Stainless steel brew group screw
3. Stainless steel shower screen

Fits the following machines:

Ascaso Arc, Basic, Dream, Steel and Ellipse, versatile versions

Fits models:

This kit is only compatible with Ascaso machines that were purchased as "Versatile".

You can check the label on your machine for "Versatile". Works only with 57mm group heads.

Will not fit:

This kit is NOT compatible for Ascaso commercial machines such as "Pro" or "Professional" on machine's label, nor any Ascaso machines that have 58mm group heads, nor will this kit convert a pod-only Ascaso machine with a fixed arm for pod only use.
