

Source: STAT-Harris Poll

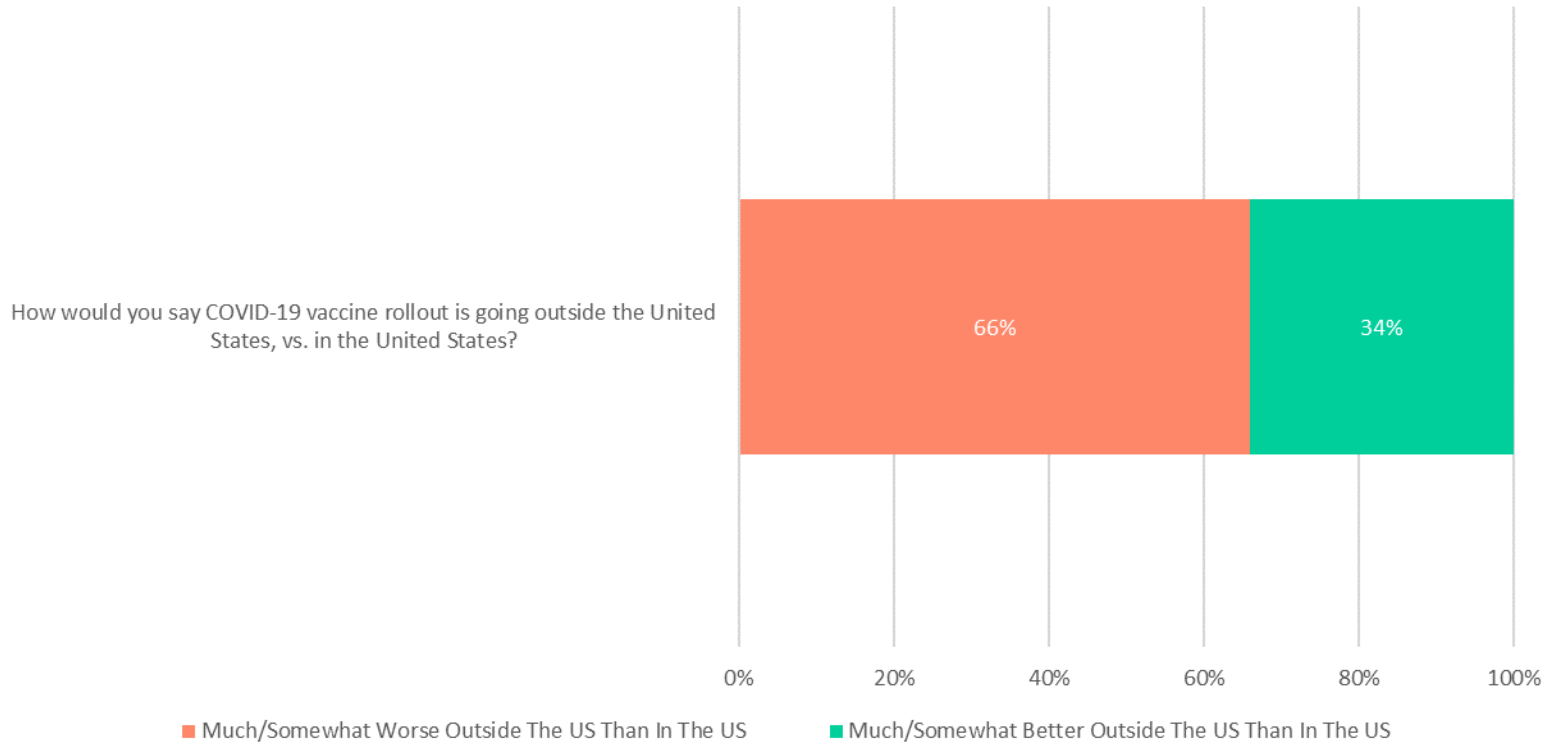

Weighted To The U.S. General Adult Population - Propensity

Fielding Period: April 9-11, 2021

- n=1,963 US Public

All data highlighted in **RED** is significantly higher, between subgroups (e.g., between White Americans vs. Black / African Americans or Republicans vs. Democrats), based on statistical significance testing using a Student's t-test at the 95% confidence level. See more information on sample and statistical testing below*.

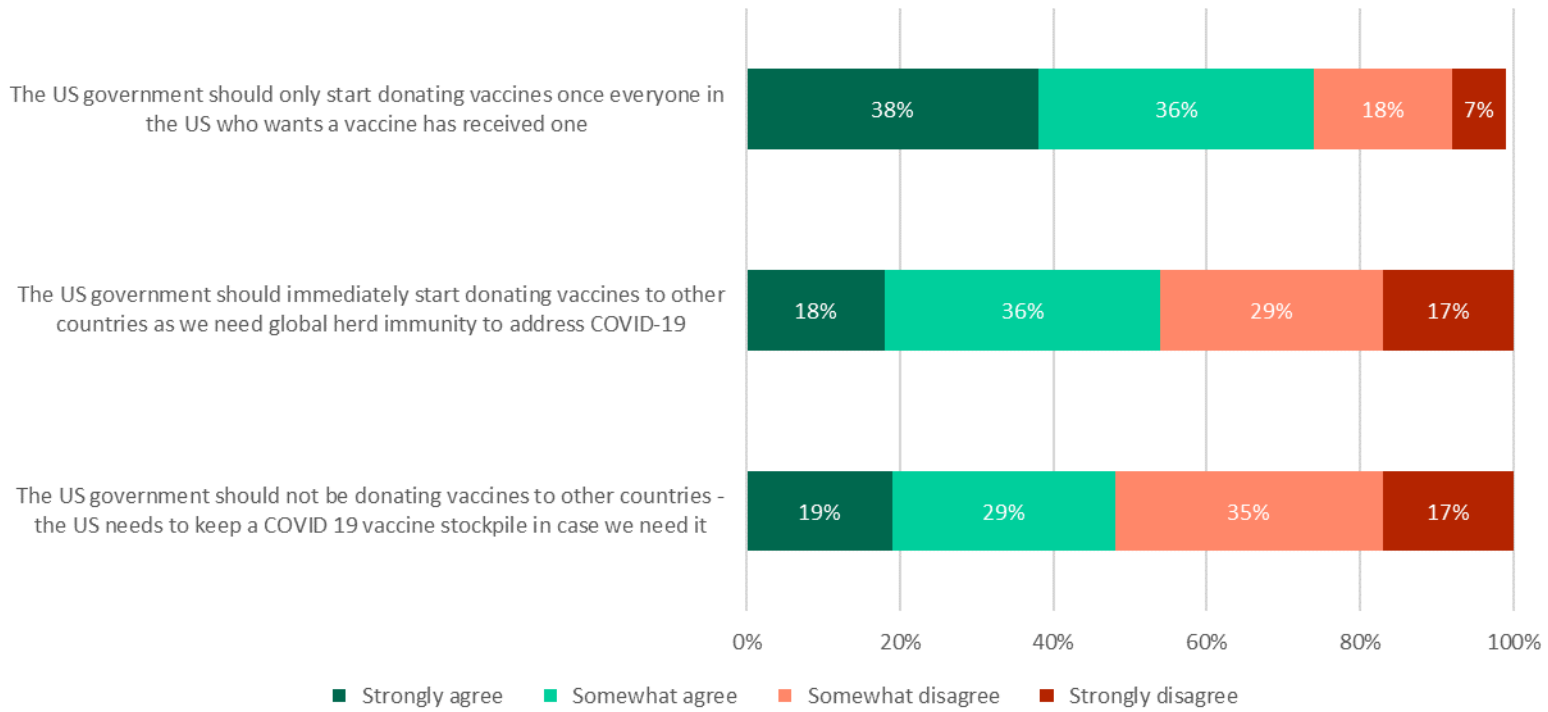

Vaccine Rollout

How would you say COVID-19 vaccine rollout is going outside the United States, vs. in the United States?

	US Public	Gen Z (age 18-24)	Millennials (age 25-40)	Gen X (age 41-56)	Boomer+ (age 57+)	GOP	DEM	White	Black or African American	Asian or Pacific Islander	Hispanic
% Much/Somewhat Better Outside The US Than In The US	34%	58%	44%	33%	19%	31%	35%	31%	39%	44%	41%
% Much/Somewhat Worse Outside The US Than In The US (Net)	66%	42%	56%	67%	81%	69%	65%	69%	61%	56%	59%

How much would you agree or disagree with the following statements related to the US government donating vaccines to other countries

How much would you agree or disagree with the following statements related to the US government donating vaccines to other countries?

% Strongly Agree	US Public	Gen Z (age 18-24)	Millennials (age 25-40)	Gen X (age 41-56)	Boomer+ (age 57+)	GOP	DEM	White	Black or African American	Asian or Pacific Islander	Hispanic
The US government should only start donating vaccines once everyone in the US who wants a vaccine has received one	38%	21%	34%	42%	46%	42%	40%	40%	30%	50%	33%
The US government should immediately start donating vaccines to other countries as we need global herd immunity to address COVID-19	18%	19%	29%	15%	10%	14%	25%	16%	23%	20%	24%
The US government should not be donating vaccines to other countries - the US needs to keep a COVID 19 vaccine stockpile in case we need it	19%	14%	21%	18%	19%	24%	19%	20%	16%	10%	20%

% Somewhat/ Strongly Agree	US Public	Gen Z (age 18-24)	Millennials (age 25-40)	Gen X (age 41-56)	Boomer+ (age 57+)	GOP	DEM	White	Black or African American	Asian or Pacific Islander	Hispanic
The US government should only start donating vaccines once everyone in the US who wants a vaccine has received one	75%	61%	71%	76%	82%	79%	77%	78%	62%	81%	70%
The US government should immediately start donating vaccines to other countries as we need global herd immunity to address COVID-19	54%	59%	65%	50%	45%	43%	63%	52%	56%	57%	60%
The US government should not be donating vaccines to other countries - the US needs to keep a COVID 19 vaccine stockpile in case we need it	48%	42%	50%	49%	47%	58%	44%	49%	42%	42%	50%

***Sample and Statistical Testing**

We adhere to rigorous sampling and weighting methods on the front- and back-ends of the data collection process to ensure that our samples are as representative of the target population as possible. For US public surveys, our weight targets are based on US Census data. Per AAPOR guidelines, we don't report on a "margin of error" as online surveys are not based on probability samples. For subgroup differences (e.g., between White Americans vs. Black / African Americans), we conduct statistical significance testing using a Student's t-test at the 95% confidence level.
