

When people commented my 10 year old daughter looked more beautiful than the bride, I knew I was on to something!

I still remember it this day; my daughter and I were attending a cousin's wedding. My daughter, who was 10 at the time, was dressed in an outfit I had made her. At first, I didn't think there was anything more special to the outfit than the fact that I had made it with my own two hands. But soon after arriving to the wedding, other guests were raving about how beautiful the outfit was and were completely fawning over my daughter (who loved the attention)!

Who knew that a simple pair of floral-inspired capris with heirloom lace trim and peasant top with matching lace trims on the hem would be so well received? While I already knew my daughter was beautiful, the attention over her outfit made her simply glow!

That's when I knew I was on to something. What mother doesn't want her children to look beautiful-perfect, even, when going to special events? Even better, what mother doesn't want her children to look beautiful all of the time?

~Choices~

The fact is there aren't many choices for stylish, stunning children's clothes that hold up well, wear well, and look amazing all at the same time. Sure, you can find practical clothes at all the major super-mart stores, but what about when you want something special? Something original, unique and different? Where do you go for that?

I realized that what made my daughter's outfit so attractive that day is the fact that it was completely different than anything to be bought locally or even online. It was an original...as original as my child.

I'm sure as a mother, you want that too. Of course you want your child to feel amazing, comfortable and free to jump and play. You want quality and originality, and let's face it, a great price on your children's clothing.
