

### **New Fall 2014 Compromise Language**

Within a reasonable time following the dispensing of a biological product, the dispensing pharmacist or the pharmacist's designee shall communicate to the prescriber the specific product provided to the patient, including the name of the product and the manufacturer. The communication shall be conveyed by making an entry in an interoperable electronic medical records system or through an electronic prescribing technology or a pharmacy record that is electronically accessible by the prescriber. If no such system is available between the pharmacist and prescriber, the pharmacist shall communicate the biologic product dispensed to the prescriber, using facsimile, telephone, electronic transmission, or other prevailing means, provided that communication shall not be required where:

- There is no FDA-approved interchangeable biologic for the product prescribed; or
- a refill prescription is not changed from the product dispensed on the prior filling of the prescription.
