

## Accredited Gas Flow Calibrations

CATLab utilizes the Fluke MolBox 1+™ with Molbloc Elements and COMPASS Software for Gas (Air and N<sub>2</sub>) Flow, providing among the lowest measurement uncertainties in the industry for air/gas flow calibrations

CATLab offers ISO/IEC 17025 Accredited and NIST Traceable calibrations for Gas (Air and N<sub>2</sub>) Flow meters, thermal mass flow controllers (MFCs), rotameters, turbine meters, bubble meters, and other flow measurement devices from the industries top brands from 0.01 to 120 SLPM.

- Aalborg
- ABB
- Agilent
- Alicat Scientific
- TSI Alnor
- AP Buck
- Bosch
- Bronkhurst
- Brooks
- Cole Palmer
- Dakota
- Dwyer
- Flocat
- Hastings
- King
- Omega
- Sierra Instruments
- Thermo Scientific
- MKS Flow
- & more

Mass Flowmeters

Flow Controllers

Variable Area Flowmeters

Gas Flowmeters
