Date of incident/event:	February 10, 2012
Briefly provide a description of the incident/event:	This Rapid Response claim is the result of a sewer backup that occurred on February 10, 2012. On that date, Sewer Maintenance Division (SMD) received a service request at 6834 La Presa Drive in unincorporated San Gabriel. The responding SMD crew observed signs of a floodout in the claimant's bathrooms, bedrooms, and hallways. The floodout was caused by a heavy root blockage in the sewer mainline between Manhole Nos. 70 and 71 of Sewer Maintenance District Map E-2017. The crew broke down the stoppage by rodding the sewer mainline between these manholes. Upon completion of these actions, the sewer mainline was left flowing normally.

1. Briefly describe the root cause(s) of the claim/lawsuit:

The flood out was caused by a heavy root blockage in the County-maintained sewer mainline.

2. Briefly describe recommended corrective actions:
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

The sewer mainline was placed on a quarterly rodder periodic to prevent recurrence of a flood out. A backwater valve allowance was credited to the Claimant's Statement of Loss. A backwater/backflow valve should be installed and maintained as part of a code-compliant plumbing system, and is a condition of the settlement agreement.
