St. John Providence Mobile Heart & Vascular Screening Center

For many people heart disease does not present symptoms until it is a problem. That's why getting screened gives you the best chances for better health in the future.

The screening center will be at:

Highland Activity Center

Thursday, August 22, 2019

We use state-of-the-art technology and all diagnostic studies that are performed are evaluated and reviewed by board-certified physicians. Results of each study are sent directly to the patient/employee's home to share with their primary care physician.

The St. John Providence screening creates a comprehensive heart and vascular profile for only **TBD**. It includes:

- Health Risk Assessment
- Blood Pressure
- Body Mass Index (BMI)
- 12-Lead Electrocardiogram (EKG)
- Ankle Brachial Index (ABI)
- Abdominal Aortic Ultrasound
- Carotid Arteries Ultrasound

Additional information:

- A physician referral is not required.
- Additional blood testing is available for **TBD**. This includes a "fasting lipid panel" which measures cholesterol, triglycerides, and glucose.
- Screenings are not typically covered by medical insurance plans.
- All tests will be patient paid on an individual basis at the time of registration (credit card or personal check).

To schedule your on-site screening, please call us at Highland Center (248) 887-1707
REGISTRATION IS REQUIRED
