And what did your stepmother give you to eat, my little wee croodin' doo?  
She gave me but a wee, wee, fish all covered with green and blue.

And what did you do with the bones of the fish, my little wee croodin' doo?  
I gave them to my wee, wee, dog, marmee, oh make my bed noo!

And what did your dog when he'd ate up the fish, my little wee croodin' doo?  
He stretched his wee, wee limbs and died, marmee, as I do noo!
