

Articles on Q and 8chan: ~1350 articles thru August 2019

Last report was the end of June 2019, next report end of Oct 2019

Since March, have included relevant articles on both Q and 8chan, because the two are now closely linked since Christchurch and Poway shootings (whatever affects 8chan, affects QResearch too). Dramatic increase in articles in August was due to someone posting El Paso shooter's manifesto on 8chan.

ATTACHMENTS:

1. 1350 articles by NAME, PUB, DATE (three MS-WORD docs).

4. Total number of platforms in descending order (PDF).

July 2019 themes in rough time order

- * Month started slow with usual stuff on Q as conspiracy theory, hate speech source, how Q destroys relationships, etc. Stuff we see every month--very negative but not unusual. Lies.
- * Social media summit at WH
- * Mob boss' atty tries to blame Q for his client's extremism
- * Omar's opponent is into Q (yawn)
- * Q baby at Trump rally
- * Q & Jeffrey Epstein news
- * Q & Gilroy event (shooter not linked to Q so MSM can't say much)
- * Dale Beran book: psychology of the alt right (4/8chan)

Aug 2019 themes in rough time order

- * Yahoo report claiming the FBI considers Q a domestic terrorist org (probably not true)--MANY reports from other MSMs
- * 8/03: El Paso shooting causes explosive increase in articles on 8chan & shootings
- * Reports on 8/03 through 8/05 are negative but factual; initially on Cloudflare deciding to stick with 8chan (but then deciding to cut it off bc it is "lawless"--real reason is probably pressure from within/without)
- * Articles over the next few days talk about whether or not 8chan will stay offline/efforts to create alternatives
- * Next: Opinion pieces saying 8chan radicalizes people & asking why it is still online, etc. (MSM feeding frenzy)
- * Most articles capitalize on Fredrick Brennan's condemnation of 8chan
- * A minority of articles question the efficacy of banning platforms or whether most platforms actually cause violence; others link 8chan to Q
- * 8/06: Jim Watkins, owner of 8chan, asked to testify to House Cmte on Homeland Security; JW says yes
- * 8/09: The Verge & NYC claim Norway shooter posted on 8chan (wrong)--takes forever to get a retraction
- * 8/10: Around mid-month, Q articles start to reappear--mostly re Epstein death, then miscellany including flap about Flynn fundraiser & hit piece of Epoch Times; later, teacher who shows a Q video in class
- * 8/14: Jim Watkins subpoenaed by House Cmte (not really news but MSM highlights so it sounds like he's being forced to testify)
- * 8/15: As Cloudflare goes public w/stock offering, stories appear re how 8chan cutoff will affect its prospects
- * Later: 8chan articles are either a rehash or represents an effort to identify other "problem" websites (not so much FB but more "alt" sites Discord/ifunny/Roblox): MSM running out of steam but keeps talking about Fredrick B's denunciation of 8chan if there is an excuse (their best ammo)
