

Adverse Human Health Effects Associated with Molds in the Indoor Environment Copyright © (2002) American College of Occupational and Environmental Medicine

This ACOEM statement was prepared by Bryan D. Hardin, PhD, Bruce J. Kelman, PhD, DABT, and Andrew Saxon, MD, under the auspices of the ACOEM Council on Scientific Affairs. It was peer-reviewed by the Council and its committees, and was approved by the ACOEM Board of Directors on October 27, 2002. Dr. Hardin is the former Deputy Director of NIOSH... Dr. Saxon is Professor of Medicine at the School of Medicine, University of California at Los Angeles.

“A Scientific View of the Health Effects of Mold” (2003) US Chamber ILR & Manhattan Institute CLP

Thus, the notion that “toxic mold” is an insidious, secret “killer,” as so many media reports and trial lawyers would claim, is “junk science” unsupported by actual scientific study.

Andrew Saxon
Chief, Division of Clinical Immunology and Allergy
UCLA School of Medicine

Position paper The medical effects of mold exposure
(2006) American Academy of Allergy, Asthma and Immunology

From the a University of Wisconsin–Madison; b Children’s Mercy Hospital, Kansas City; c UCLA School of Medicine, Los Angeles; d Stanford University School of Medicine, Palo Alto; and e Department of Pediatrics, Johns Hopkins Medical Center. Received for publication November 18, 2005; revised November 28, 2005; accepted for publication December 1, 2005.

“Thus we agree with the American College of Occupational and Environmental Medicine evidence-based statement...”
